SUPPORTING DOCUMENTS

PURPOSE

The purpose of the documentation is to illustrate **how** the physical aspects of a specific piece of property and/or the strict application of the zoning rules would result in peculiar and exceptional hardship to the property owner in using a piece of property. "Peculiar and exceptional" means that there is an unusual aspect to the property that is not generally a condition shared by other properties in the same zoning district. According to Oklahoma Administrative Code 120:10-13-18, the commission may only grant variances on the following grounds:

- 1) *Exceptional narrowness, shallowness, or shape of a specific piece of property at the time of the original adoption of this Chapter.*
- 2) *Exceptional topographic conditions or other extraordinary or exceptional situations or conditions of a specific piece of property, which is a condition generally not prevalent in the area.*
- 3) *When the strict application of the requirements of this Chapter would result in peculiar and exceptional hardship on the property owner.*

Please consult staff if you have questions about how to adequately document your proposed project.

Along with this application please submit the following documentation:

- ✓ Copy of the **deed** to the land.
- ✓ **Letter** to the commission explaining the need for a variance.
- ✓ Any other documents you feel may contribute toward the commission's understanding of the nature of your request.
