

Form REQUIRED with bid package submission.

Exhibit 3 – Pricing Cover Sheet

Supplier bidding acknowledges with this coversheet that the required pricing volume meets the requirements set forth within this form and solicitation.

Business Legal Name/DBA (if applicable): _____

Printed Name _____ **Title** _____

Signature _____ **Date** _____

- Bidder certifies that all information provided within this RFP response to include both technical and pricing data is true and correct and in support of ODOC’s requirement to leverage OUSF and RHC funding.

Pricing volume must include submission of Exhibit 1 – ODOC OUSF-RHC Locations, and Exhibit 3 – Pricing Cover Sheet. All request pricing to be all inclusive to include as applicable all surcharges/fees, shipping/handling, and any travel costs. Per 17 O.S. § 139.109.1(A)(1), pricing will support speeds of 100 Mbps. Be advised neither OUSF nor RHC permit matching funds to be used for any taxes or fees. Bidders must clearly separate non-eligible costs as indicated.

Bidder will ensure all tabs within Exhibit 1 - ODOC OUSF-RHC Locations fully completed. If specific elements of information requested do not apply (e.g. one-time fees which do not apply to option years), then bidder will not leave cell blank and will mark such cell as not applicable (“N/A”). Any missing, incomplete, or otherwise non-substantiated information within this or any requirement of this RFP may disqualify bidder from further consideration.

Pricing proposed by the bidder must include all costs. All costs include special construction or nonrecurring costs (NRC) required by the service provider to provide the product or service and all monthly recurring costs (MRC) including estimated surcharges and fees. Any cost which is not either OUSF or RHC eligible must be separated out from those which are eligible. Cost increases will not be allowed during the term quoted. You must provide pricing for all option years on Exhibit 1 – ODOC OUSF-RHC Locations
