

THIRD-ANNUAL
STATE SUPPLIERS
EXPO

The purpose of the State Suppliers Expo is to encourage private companies to partner with the state, convey the state's needs for these partnerships and deliver hands-on learning to help businesses navigate the state procurement process.

Attendees can communicate with influential state leaders and learn about opportunities available to do business with the state.

"The reverse tradeshow setup allows suppliers to have meaningful conversations with state agencies to identify initiatives, needs and procurement processes, which gives businesses a clear path to earn partnerships."

- Robert Wager, Granite Telecommunications

KEY EVENT OFFERINGS:

Cabinet booths – Each booth at the State Suppliers Expo represents an area of the governor's cabinet, where businesses can connect with state leaders and learn about their current top projects.

Supplier registration – OMES Central Purchasing staff help businesses sign up as state suppliers and offer guidance for navigating the procurement process and bidding on projects.

Breakout rooms – Interactive presentations from state technology, transportation, commerce, procurement, personnel and the State Chamber. Additionally, we're excited to host Oklahoma lawmakers for a panel discussion about the latest legislation impacting state procurement.
