

Access Workday on the go via the mobile app!

OKLAHOMA

State of Oklahoma employees can access Workday via desktop or mobile device starting in spring 2022. Enjoy increased accessibility and information at your fingertips 24/7.

If you can check Facebook, you can enter your time!

Your data is secure!

Use MobilePass+, a two-factor authentication system, to access your data on the Workday app.

Increase efficiency while on the go by submitting time-off requests, accessing benefits or viewing on-demand training content.

Search and find your colleagues' emails, office numbers and organizational charts.

All of your data is stored on the cloud, not on your mobile device, so your data is secure even if your phone is lost or stolen.

Visit brightpath.ok.gov to learn more about the Workday implementation going live spring 2022.
