

Buy/Sell Categories in the registration process

During the registration process, you will encounter a categorization step. This document explains these categories.

The **Buy Categories** are currently not used by the State of Oklahoma.

The **Sell Categories** are the most important. They inform the State of Oklahoma of your products and services.

To open the categories, select the plus icon. This allows for subcategories to be selected. When the state requires products or services matching your selections, you are notified of the opportunity, presenting a chance to bid on it.
