

CELONIS TRAINING ACADEMY

Visit academy.celonis.com to begin your training journey.

After creating your account, you will be prompted to select a role, either Business Analyst or Data Developer. We have provided a brief description below to help you choose the one that suits your needs.

Business Analyst

If you use Celonis to analyze and visualize data to make business decisions you should create a Business Analyst Profile.

Training tracks:

- Celonis Kickstarter.
- Review and Integrate Analyses.
- Deliver Business Value with Celonis.
- Act on Recommended Tasks.
- Build Analyses.

Developer/Data Expert

If you can create or edit Celonis analyses and dashboards and know how business systems work, create a Developer/Data Expert Profile.

Training tracks:

- Celonis Kickstarter.
- Get Data into Celonis.
- Data Integration Basics.
- Data Explorer.
- Build Analyses.
- Write PQL Queries.
- Build Views and Knowledge Models.
