Introduction

The Information Services Division ("ISD") was created pursuant to 62 O.S. § 34.3 (Supp. 2010) as a division of the Oklahoma Office of Management Enterprises and Services ("OMES"). OMES has designated itself as a hybrid entity under the Health Insurance Portability and Accountability Act of 1996, as amended ("HIPAA") and has designated ISD as a health care component that provides covered functions.

ISD is responsible for the maintenance and storage of electronic protected health information ("ePHI") for certain agencies of the State of Oklahoma and is committed to protect the security of ePHI. As defined in 45 C.F.R. §160.103, ePHI means individually identifiable health information that is transmitted by or maintained in electronic media, excluding education records covered by FERPA¹, certain records related to health services provided to college students², employment records held by a covered entity in its role as an employer and records regarding a person who has been deceased more than fifty (50) years. Set forth herein are the policies of ISD with regard to the Security Standards for the Protection of Electronic PHI found at 45 C.F.R. §164.302 et seq, the applicable implementing regulations of HIPAA. These policies are applicable to all ISD employees, business associates of ISD and any other person who performs business functions on behalf of ISD in which access to locations containing ePHI is granted.
