CPO Announcement

Date: April 11, 2024

PeopleSoft upgrade and code freeze

Please note the corrected dates below.

PeopleSoft Financials will be going through a PeopleSoft Update Manager 48 upgrade soon. The new release will be available to financial users on **Monday, May 19 20**. PeopleSoft will be inaccessible during that prior weekend.

With this upgrade, your financial and purchasing teams will have an improved, new mobile user experience including additional fluid features, enhanced dashboards, added navigation search functionality and more.

In preparation for the upgrade, OMES will place a code freeze in the PeopleSoft system on any modifications that require application development or any design changes. The freeze will be in effect from Monday **Wednesday, April 24 to Monday, May 20**. Submissions received via ServiceNow will be notified of the code freeze; however, if deemed an emergency, proper justification can be submitted to OMES Finance Center of Excellence, Information Services or Central Purchasing for review.

If you have any questions regarding the freeze, contact servicedesk@omes.ok.gov.
