

**OKLAHOMA**  
Office of Management  
& Enterprise Services

State procurement professionals,

OMES is negotiating Statewide Contract 0135 to help streamline marketing services within Oklahoma government. Vendors are being notified, and should they accept the state's terms, we hope to reach agreements by Nov. 15, 2024. This means that state agencies will be able to access services very soon. As a reminder, agencies should request bids from at least three different vendors, as outlined in a recent [OMES procurement information memorandum](#), before they select a vendor.

Also, please ensure that any continued partnership with a vendor follows [Executive Order 2024-12](#). OMES will be updating its website soon to include a list of companies, so please watch for those updates on the [Statewide Contracts webpage](#).

If you have any questions, you may email [central.purchasing@omes.ok.gov](mailto:central.purchasing@omes.ok.gov).

Thank you,

**Amanda Otis, Esq.**  
State Purchasing Director
