## **CPO Announcement**

**State of Oklahoma**  
**Office of Management and Enterprise Services**

OMES is unveiling the upcoming PeopleSoft modifications necessitated by [Executive Order 2023-04](#), [LOFT Recommendations](#) and [OK AG Opinion 2023-04](#). In the process of creating a way to capture more meaningful and intuitive statutory exemptions, we are also making other alterations to better reflect how sole source contracts as well as contract releases are submitted and tracked.

Please familiarize yourself with this [Procurement Information Memorandum](#). Any and all input or feedback on these changes is encouraged and appreciated.

Thank you,

Amanda Otis  
State Purchasing Director
