Solicitation No. 1310004325

This Solicitation is a Contract Document and is a request for proposal for an Offender Management System and related services, maintenance and support and enhancements ("OMS") in connection with the Contract awarded by the Office of Management and Enterprise Services on behalf of the Oklahoma Department of Corrections ("DOC") as more particularly described herein. Any defined term used herein but not defined herein shall have the meaning ascribed in the General Terms or other Contract Document.

DOC implemented the current offender management system in the late nineties. Since that time the system has not been well supported and the agency has not used the system to its full potential. As a result, several satellite systems have been implemented to facilitate specific business requirements in multiple functional areas of the agency. With the advances in technology over the past twenty-five years, data sharing and integrations with other systems has become increasingly difficult. The goal now is to procure a modern information management system that will allow for the replacement of the ancillary systems currently in use and allow the addition of more advanced technological tools such as cloud hosting, mobile applications, geo-mapping and advance business intelligence options. The solution should be modern enough to carry the State into the coming decades and allow for expansion and configuration to maintain current technological standards.

1. Contract Term and Renewal Options

- 1.1 The initial Contract term, which begins on the effective date of the Contract, is two (2) years and there are two (2) two-year options to renew the Contract for accomplishing implementation of the OMS.
- 1.2 After the final term of the Contract related to implementation of the OMS, until system replacement or the Contract is otherwise terminated, the State shall have the right to renew the Contract for additional one-year terms for the acquisition of maintenance and support of, and enhancements to, the OMS.

2. Specifications

A relational overview of the OMS and technical specifications are attached hereto as Attachment A and incorporated herein.
