

CPO Announcement

State of Oklahoma
Office of Management and Enterprise Services

DATE: Oct. 14, 2025

TO: All CPOs

FROM: Office of Management and Enterprise Services

SUBJECT: New exemptions added for pass-through of state or federal funds

CONTACT: [OMES Central Purchasing](#)

PURPOSE: This announcement is to inform you of an update to the procurement exemptions list, effective immediately. A new exemption has been added to address the pass-through of state funds, and an existing exemption has been clarified.

These changes intend to better capture non-acquisition transactions, such as legislatively directed payments or other fund pass-throughs.

New exemption:

A new exemption has been created specifically for the **pass-through of state funds**:

- **Exemption code:** 01 - ALL
- **Statute:** 74 O.S. § 85.2(1)
- **Description:** Pass-through of state funds; does not qualify as an acquisition

This code should be used for non-acquisition transactions involving state funding. While agencies may continue to process pass-throughs as a direct purchase order, this new exemption allows the use of a requisition for these transactions if preferred.

Updated exemption:

To provide clarity, the description for the **existing** pass-through exemption has been updated to specify **federal funds**:

- **Exemption code:** 01 - ALL
- **Statute:** 74 O.S. § 85.3A(A)(9)
- **Updated description:** Pass-through of federal funds; total CP Act exemption

These changes are now live. Please share this information with the appropriate staff within your agency.
