Premium Network Advantages

Premium Network providers are typically independent physician-owned clinics that focus on the quality of the eye exam and materials used for your glasses. Premium Network Providers offer free upgrades on Progressive No-line lenses and coatings such as UV, Scratch, and Anti-Reflectant.

Standard Network Advantages

Standard Network providers are typically retail clinics that offer extended hours of operation and typically offer lower material costs. However, most do not have a physician on site, so you will have to bring your script. Most have an Optometrist next door for convenience.
