**Required Documentation:**

- Measurement of distance between dispensary and school. The measurement shall be determined by calculating the distance in a straight line from the school door nearest the front door of the retail marijuana dispensary to the front door of the retail marijuana dispensary less any allowable error in measurement calculated. Per 63 O.S. Supp. 2020, Section 425 (G).
- A municipal resolution finding that the marijuana dispensary is located within the prohibited setback distance from a school that was openly in existence in such a way that the public generally would have known of the school's existence and operation in that location prior to the original marijuana dispensary being licensed. Per 63 O.S. Supp. 2020, Section 426.1 (E)(3)(a).
- Proof that the school was openly in existence prior to licensure of the medical marijuana dispensary. Openly in existence means any building, location or structure on a school site that has visible outward markings indicating the building, location or structure was operating as a school which would serve as sufficient notice of the existence of the school or a reason for further inquiry on the part of the marijuana dispensary license applicant. Per 63 O.S. Supp. 2020, Section 426.1 E (a)

**Submission Timeline:**

- A municipality must submit its objection to OMMA prior to the initial transfer or renewal of a dispensary license. Objections will need to be submitted no less than 30 days prior to the expiration date of a license that is renewing.

**Note:** Municipalities will have until July 30th, 2021 to submit an objection for any licenses expiring between April 22, 2021 and September 1, 2021.
