OSBI Commission

The OSBI Commission includes one sheriff, one district attorney, one police chief, and four lay members. Each member is appointed by the Governor and approved by the Oklahoma Senate to serve a seven-year term. The Commission has five statutory responsibilities: to appoint the Director of the OSBI; to hear complaints against the OSBI or any of its employees; to make recommendations to the Director of any needed disciplinary action as a result of any investigation conducted upon a complaint received; to establish general procedures in assisting law enforcement and district attorneys; and to establish a program of training for agents. Current Commissioners include:

Russell Noble – Chairman, Lay Member

Russell Noble is the President of the Sea Cattle Company and the Quien Sabe Corporation in Ardmore. Mr. Noble is a Trustee of the Samuel Roberts Noble Foundation. Mr. Noble was originally appointed to the Commission by Governor Frank Keating in 1997. He was re-appointed by Governor Brad Henry in 2004 and again by Governor Mary Fallin in 2011.

Rick Stephens – Vice-Chairman, Lay Member

Rick Stephens brings many years of law enforcement experience to the Commission. At age 18, Mr. Stephens worked as a dispatcher and jailer for the Mayes County Sheriff's Office. A few years later, he took a job as a police officer in Pryor while working his way through college. Mr. Stephens earned his bachelor's degree in criminal justice and worked as an OSBI agent during the 80's and 90's. Mr. Stephens was appointed to the Commission in 2012 by Governor Mary Fallin.

Mike Boring, District Attorney Member

Mike Boring was elected district attorney for District 1 in 2003, which includes Beaver, Cimarron, Harper, and Texas counties. Mr. Boring has been a life-long resident of Texas County, graduating from Guymon High School and Panhandle State University. After earning his Juris Doctorate in 1976, Mr. Boring moved back to Guymon to practice law. Mr. Boring was appointed to the Commission by Governor Mary Fallin in 2013.

Keith L. Humphrey, Police Chief Member

Chief Humphrey has served the citizens of Norman since June 2011. He began his police career with the Fort Worth Police Department and later worked for the Arlington Police Department. In January 2008, he became chief of police for Lancaster, Texas. He serves as a consultant for promotion assessments; he also mentors and assists officers in preparing for promotional processes. He is a member of several organizations and is an adjunct professor at Langston University Oklahoma City campus. Chief Humphrey was appointed to the Commission by Governor Mary Fallin in 2014.

Jeb Boatman, Lay Member

Jeb Boatman serves as Senior Counsel for Boeing Defense's Maintenance, Modifications & Upgrades Division, overseeing the legal needs of Boeing's Oklahoma City and San Antonio Sites, the C-17 Sustainment Program, the F-15 Sustainment Program, and Boeing's relationship with Alsalam Aircraft Company in Riyadh, Saudi Arabia. Before joining Boeing, Mr. Boatman worked at McAfee & Taft and as a federal prosecutor in Oklahoma City. From 2003-2004, he served as a judicial law clerk for the Honorable Deanell Reece Tacha, and then Chief Judge of the Tenth Circuit Court of Appeals. Mr. Boatman received his Juris Doctorate, summa cum laude, from the University of Oklahoma, College of Law. He was appointed to the Commission by Governor Fallin in 2014.

W. Roger Webb, Lay Member

Mr. Webb is the president emeritus of the University of Central Oklahoma after holding the position of president from 1997-2011. He was the president of Northeastern State University from 1978-1997 and Oklahoma Commissioner of Public Safety from 1974-1978. Mr. Webb earned a bachelor's degree from Oklahoma State and his Juris Doctorate from the University of Oklahoma. He is presently vice chairman of the Board of Citizens Bank of Edmond. Mr. Webb was appointed to the Commission by Governor Mary Fallin in 2013.

Introduction

Background

The Uniform Crime Reporting Program (UCR) was developed by law enforcement as a tool for operational and administrative purposes. Under the auspices of the International Association of Chiefs of Police (IACP), the UCR Program was developed in 1930. Prior to that date, no comprehensive system of data collection on a national scale existed because criminal statutes varied among states in the use of terminology to define criminal behavior. To overcome this problem, IACP developed standard definitions for crimes. At that time, law enforcement began to collect crime data using standard definitions created by the UCR Program. It was not until the 1960's that funds became available to develop state-level data collection systems. The Oklahoma State Bureau of Investigation assumed the statewide administration of the UCR Program on September 1, 1973. This is the 41st annual report – it includes crime data collected in 2014.

Crime Factors

This report includes the most accurate and current crime data available for the State. Data provided in this report are based on offenses known to law enforcement; however, victims do not always report crime to law enforcement. The Oklahoma State Bureau of Investigation cautions the use of these data to make direction comparisons among jurisdictions in the State. When comparing offense and arrest data, please remember crimes relate to events while arrests relate to people. One crime may involve several offenses, multiple offenders, and/or multiple victims. Other crime factors that may influence the accuracy of crime data across jurisdictions include:

- Population density and urbanization
- Composition of the population, particularly in reference to age
- Relative stability of population, especially concerning commuting patterns
- Transportation and highways
- Socioeconomic conditions, such as median household income, poverty, and unemployment
- Cultural factors, and educational, recreational, and religious makeup
- Family dynamics and structure
- Climate
- Effective strength of the police
- The administrative and investigative efficiency of the local law enforcement agency
- Policies of the prosecuting officials and the courts
- Public opinion toward crime
- Crime reporting practices of victims and citizens

Objectives

The objectives of the Oklahoma UCR Program are:

- (1) Inform the governor, legislature, other governmental officials, and the public as to the nature, magnitude, and trends of crime in Oklahoma.
- (2) Provide law enforcement administrators with statistics for administrative and operational use.
- (3) Provide offender demographics in order to find the proper focus for crime prevention and enforcement.
- (4) Provide base data and statistics for research to improve the efficiency, effectiveness, and performance of criminal justice agencies.
- (5) Provide the FBI with complete UCR data to be included in the national publication *Crime in the United States*.

Legislative Mandate

The *Crime in Oklahoma* report includes provided by law enforcement agencies for known offenses. The Oklahoma Legislature mandated the responsibility and authority for UCR data collection and dissemination to the Oklahoma State Bureau of Investigation. Guidelines established through Title 74 O.S. §150.10 are as follows:

- A. A Uniform Crime Reporting system shall be established by the Oklahoma State Bureau of Investigation. The Director shall have the power and duty, when directed by the Commission, to collect and gather such information from such state agencies as may be prescribed in this act.
- B. The Oklahoma State Bureau of Investigation is hereby designated as the agency which shall collect, gather, assemble, and collate such information as is prescribed by law.
- C. All state, county, city, and town law enforcement agencies shall submit a monthly report to the Oklahoma State Bureau of Investigation on forms prescribed by the Bureau; which report shall contain the number and nature of offenses committed within their respective jurisdictions, the disposition of such matters and such other information as the Bureau may require, respecting information relating to the cause and prevention of crime, recidivism, the rehabilitation of criminals and the proper administration of criminal justice.
- D. Upon receipt of such information the Director shall have such data collated and formulated and shall compile such statistics as he may deem necessary in order to present a proper classification and analysis of the volume and nature of crime and the administration of criminal justice within this state.
- E. Refusal or persistent failure of any law enforcement agency to submit reports required by this section may result in discontinued access to Bureau information and assistance.

Reporting and Collection Procedures

Under 74 O.S. §150.10, all state, county, city, and town law enforcement agencies are required to submit crime data to the Oklahoma State Bureau of Investigation. Law enforcement agencies report the number of known offenses for the following categories: murder, manslaughter, rape, robbery, assault, burglary, larceny, and motor vehicle theft. Crime counts include “actual offenses known” without regard to (1) whether someone is arrested for the crime; (2) the stolen property is recovered; (3) the local prosecution policy; and, (4) any other restrictive considerations. Law enforcement also report the number of crimes cleared, either by arrest or exceptional means (a crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against the offender).

Verification

A primary consideration in the collection of criminal statistics in Oklahoma is the uniformity and accuracy of crime data. While the Field Services Unit does provide training and technical assistance to local law enforcement, the accuracy of crime data included in this report cannot be guaranteed. Incident reports uploaded from records management systems must meet the state's minimum requirements for submission before being accepted into the state repository. Incident reports that are not validated or properly corrected are not included in this report. Throughout the year, field service representatives work with reporting agencies to correct reporting errors. Ongoing communication (phone and personal) with reporting agencies is essential to ensure the accuracy and quality of reporting.

Classification of UCR Offenses

Part I Definitions

Offense data consists of information extracted from reports of Part I offenses that have been submitted by law enforcement agencies in the State of Oklahoma.

1. Criminal homicide - the willful killing of a human being
2. Rape - the penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without consent from the victim
3. Robbery - the forcible taking of the property of another against his/her will by force or fear, including attempts
4. Aggravated assault - the unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury (includes attempts)

Murder

Definition: The unlawful killing of a human being in which the element of malice aforethought was present.

Any death due to a fight, argument, quarrel, assault, or commission of a crime is included. This index offense, as in all other crime index offenses, is scored by law enforcement officials on the basis of their investigation and does not include the findings of a court or the decision of a prosecutor. Manslaughters, suicides, accidental deaths, and justifiable homicides are excluded from this category. Attempts to kill and assaults to kill are scored as assaults and not as murder.

Summary Analysis

Law enforcement agencies reported 178 murders in 2014. Murders accounted for 1.1% of all violent crimes and 0.1% of all index crimes reported. Law enforcement cleared 118 murders by arrest or exceptional means, representing a 66.3% clearance rate. Of the 128 persons arrested for murder, 53.1% were white, 37.5% black, 8.6% American Indian, and 0.8% Asian. Law enforcement determined the victim-offender relationship in 140 of the 178 murders. Domestic murders accounted for 21.3% of all murders; of those, 5.6% were intimate-partner murders.

Rape

Definition: The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without consent from the victim.

For the purpose of Uniform Crime Reporting, rape is divided into two categories: (1) rape by force; (2) attempts to rape. Assaults to commit forcible rape are included in the index offenses category of rape.

Summary Analysis

Law enforcement reported 1,877 forcible and attempted rapes in 2014, representing 11.9% of all violent crimes and 1.4% of index crimes. Law enforcement cleared 597 rapes by arrest or exceptional means, resulting in a clearance rate of 31.8%. Of the 235 offenders arrested for rape, 41.3% were under the age of 25; 62.6% were white, 28.5% black, and 6.8% American Indian.

Motor Vehicle Theft

Definition: The unlawful taking or attempted taking of a motor vehicle.

The term “motor vehicle” includes those self-propelled vehicles which run on a land surface and not on rails. Thefts of farm equipment, bulldozers, airplanes, and construction equipment are not included in the definition of a motor vehicle. Joyriding is included in this category. Motor vehicle theft is divided into three categories: (1) autos; (2) trucks and buses; and (3) other vehicles.

Summary Analysis

Law enforcement agencies reported 10,484 motor vehicle thefts, representing 9.2% of all non-violent crimes and 8.0% of all index crimes reported. Law enforcement cleared 944 motor vehicle thefts, resulting in a 9.0% clearance rate. Of all offenders arrested for motor vehicle theft, 17.3% were between the ages of 25 and 29 while juveniles were responsible for 18.1% of all motor vehicle arrests. Of all offenders arrested for motor vehicle theft, 77.5% were white, 13.5% black, 8.5% American Indian, 0.3% Asian, and 0.2% Hawaiian/Pacific Islander. Law enforcement recovered 6,550 stolen vehicles, resulting in a 62.5% recovery rate. The average value of stolen motor vehicles was \$7,120.86.

Arson

Definition: Any willful or malicious burning, or attempt to burn, with or without intent to defraud.

Arson applies only to those fires determined through investigation to have been willfully or maliciously set. Attempts to burn are included in the arson report, but fires of suspicious or unknown origin are not.

Summary Analysis

Law enforcement agencies reported 795 arsons; of those, 396 were structural, 178 mobile, and 221 “all other.” Law enforcement cleared 222 arsons, representing a 27.9% clearance rate. The estimated property value for all reported arsons in the state was \$7,971,486. The guidelines used by fire departments to report arson to the State Fire Marshal’s Office differ from those in which the Uniform Crime Reporting Program obtains its data from law enforcement agencies. IV

Arrest and Clearance Data

Arrest and Clearance Data

Summary Analysis

The Oklahoma Uniform Crime Reporting Program requests the monthly submission of data concerning persons arrested in Oklahoma. Arrests are reported for both Parts I and II crimes. A person is counted on the monthly arrest report each time he/she is arrested, and the same person may be arrested several times during the reporting period. If a person is arrested for multiple crimes, then only the most serious crime will be reported on the arrest report. Oklahoma law enforcement reported 130,340 arrests in 2014, representing a 4.1% decrease compared to 2013.

Clearance Rate

For crime reporting purposes, an index crime is considered cleared when: (1) a law enforcement agency has identified the offender; (2) there is enough evidence to charge the offender; and (3) the offender is taken into custody. The arrest of one person may clear several crimes or the arrest of several persons may clear only one crime. An arrest may also be reported as cleared if some element beyond the control of law enforcement is present (e.g., death of offender).

Overview of Juvenile Arrests

Summary Analysis

Juveniles accounted for 10.8% of all arrests reported in the State. After a steady decline, juveniles arrested for violating weapon laws increased 12.8%. Ten percent of juvenile arrests were related to drugs.

Table 32. Juvenile Arrests (2005-2014)

Year	Juvenile Arrests	Total Arrests	Percent (%)

2014	14,048	130,340	10.8

For purposes of this data collection, “arrest” refers to the police handling of juveniles who have committed a crime and are taken into custody when, under the same circumstances, the crime would warrant the arrest of an adult. Police contacts are not counted as arrests if no crime has been committed.

Law Enforcement Officers
Killed or Assaulted

Officers Killed or Assaulted

The Oklahoma Uniform Crime Reporting Program requires the collection of statistical information relating to law enforcement officers killed in the line of duty and the number assaulted while on duty.

No reports of officers killed as the result of a felonious act were made in 2014. No reports of officers killed as the result of an accident or negligent act were made in 2014. At the state level, 804 assaults were in 2014, representing a 10.7% increase compared to 2013.

Law Enforcement Employee Data

Definition: Persons employed as full-time sworn officers and full-time civilian employees.

Figures below provide law enforcement employee data for Oklahoma. With the exception of persons who perform guard or protection duties and who are not paid from police funds (i.e., school crossing guards, special officers, and merchant police), these figures reflect the number of full-time sworn personnel with full arrest powers, including the chief, sheriff, commissioner, and superintendent. The figures do not include employees of the Oklahoma Highway Patrol, the Oklahoma State Bureau of Investigation, or those law enforcement agencies that did not contribute to the Uniform Crime Reporting Program.

Civilians include clerks, radio dispatchers, meter maids, stenographers, mechanics, etc., provided these persons are full-time employees of the agency. Neither employees who are compensated from a source other than police funds, nor those receiving salaries from federal grants are included. In 2014, Oklahoma's law enforcement rate was 2.8 employees per 1,000 Oklahomans.

Domestic Abuse and
Hate/Bias Crime

Domestic Abuse

Definition: Threatening, causing or attempting to cause serious physical harm between family or household members.

Domestic abuse includes such offenses as murder, sex crimes, assault, and assault and battery. Family or household members are defined as spouses, former spouses, present spouses of former spouses, parents, foster parents, children, persons otherwise related by blood or marriage, or living in the same household or who formerly lived in the same household. Also included in this category are persons in dating relationships (defined as courtships or engagement relationships) or someone with whom they had a child. It also includes the elderly and handicapped.

Index Crime Offenses by
Contributor

Contributors

The following section includes a breakdown of index crime offenses reported by agency for 2012, 2013, and 2014. Crime counts only include those crimes known by law enforcement. Agencies are listed in alphabetical order by county and then in numerical order by the Originating Agency Identifier (ORI) assigned to reporting agencies within each county by the Federal Bureau of Investigation. An alphabetical listing of all reporting agencies has been included in this publication; these agencies also have been cross-referenced to their respective counties.

Contributor Participation

History of Program Participation

There are approximately 450 sheriffs' offices and police departments in Oklahoma. During 1973, an average of 65 law enforcement agencies contributed monthly reports directly to the Federal Bureau of Investigation.

The Oklahoma State Bureau of Investigation assumed the statewide administration of the Uniform Crime Reporting Program on September 1, 1973. Since that time, an astounding increase in the number of agencies who report directly to the Oklahoma State Bureau of Investigation has occurred. The table below sets forth the number of law enforcement agencies, by type, that have participated in the Oklahoma Uniform Crime Reporting Program for the years 2012, 2013, and 2014.

Contributor History

There were 325 direct reporting law enforcement agencies in 2014 that provided UCR data directly to the Oklahoma State Bureau of Investigation's UCR state repository.

The following is a list of agencies that reported partial data or failed to report data during calendar year 2014. Statistics in this publication are reported as they are received from an agency during the calendar year and data received is not calculated or averaged to compensate for partial or missing data. For this reason, there may be discrepancies when comparing data in this publication with data in *Crime in the United States*.

Statement of Regulations

Statement of Policy

The following regulations will be observed by this agency concerning the release of statistical information. Employees of the agency will observe these procedures and will not deviate from this policy without the express consent of the Director of the Oklahoma State Bureau of Investigation. All information to be released will originate from the Field Services Unit of the Oklahoma State Bureau of Investigation.

Regulations

1. This agency will publish an annual report reflecting crime in Oklahoma. This report will be distributed to the Governor, members of the Legislature, the Attorney General, law enforcement agencies, the State Library System, and to any agency or committee dedicated to law enforcement or criminal justice work.
2. Published annual reports will be released to the above named agencies at no charge. They will then be released to individuals or agencies extraneous to the criminal justice community who shall pay a fee of five dollars (\$5.00) for every copy received.
3. UCR Information Requests:
 - A. Information contained in the published annual report may be released via telephone, letter, etc., to any interested party.
 - B. All requests for unpublished information from agencies or individuals extraneous to the criminal justice community should be submitted on an OSBI OPEN RECORDS ACT REQUEST FORM (ORA-1). In accordance with the Oklahoma Open Records Act, all requests may be subject to a charge.
 - C. Law enforcement agencies may receive interim, unpublished, specialized reports identifying their agency only, provided the request is reasonable. Law enforcement agencies may also receive their respective county totals along with state or regional totals. All requests should be directed to the Supervisor of the Field Services Unit.

Appendix

Glossary of Terms

Adult - For Uniform Crime Reporting purposes, a person 18 years of age or older.

Arrest Rate - The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. The arrest rate is computed in the same manner as crime rates.

Clearance Rate - The number of clearances reported for Part I offenses. This rate is determined by dividing the number of clearances by the number of offenses.

Cleared By Arrest - For UCR purposes, an offense is cleared by arrest or solved when at least one person is (1) arrested, (2) charged with the commission of the offense, and (3) turned over for prosecution.

Crime Index - The sum total of the seven major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. Crime classifications used in the index are: (1) murder, (2) forcible rape, (3) robbery, (4) felonious assault, (5) breaking and entering, (6) larceny (theft), and (7) motor vehicle theft. Each of these offenses is referred to as an "index crime."

Crime Rate - The number of index crimes reported for each unit of population, generally 100,000. Crime rates are computed for communities by dividing the number of index crimes by the population and multiplying the answer by 100,000.

Environmental Factors – Conditions which affect the amount and type of crime that occurs in a geographical area.

Exceptional Clearance - A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against the offender.

Juvenile - For UCR purposes, a person under the age of 18.

Non-Violent Crime - Consists of the index crimes of breaking and entering, larceny (theft) and motor vehicle theft.

Part I Offenses - The first of two main categories of crime classes comprising a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and/or occur with greater frequency. The monthly tabulation of Part I offenses provides a count of "offenses known."

Part II Offenses - The second of two main categories of crime classes comprising a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature and/or occur less frequently. Monthly tabulations of Part II offenses are limited to arrest information only.

Violent Crime - Consists of the index crimes of murder, rape, robbery, and aggravated assault.
