OSBI Commission

The OSBI Commission includes one sheriff, one district attorney, one police chief, and four lay members. Each member is appointed by the Governor and approved by the Oklahoma Senate to serve a seven-year term. The Commission has five statutory responsibilities: to appoint the Director of the OSBI; to hear complaints against the OSBI or any of its employees; to make recommendations to the Director of any needed disciplinary action as a result of any investigation conducted upon a complaint received; to establish general procedures with regard to assisting law enforcement officers and district attorneys; and to establish a program of training for agents. Current Commissioners include:

Russell Noble – Chairman, Lay Member

Russell Noble is the President of the Sea Cattle Company and the Quien Sabe Corporation in Ardmore. Mr. Noble is a Trustee of the Samuel Roberts Noble Foundation. Mr. Noble was originally appointed to the Commission by Governor Frank Keating in 1997. He was re-appointed by Governor Brad Henry in 2004 and again by Governor Mary Fallin in 2011.

Keith L. Humphrey – Vice-Chairman and Chief Member

Chief Humphrey has served the citizens of Norman since June 2011. He began his police career with the Fort Worth Police Department and later worked for the Arlington Police Department. In January 2008, he became chief of police for Lancaster, Texas. He serves as a consultant for promotion assessments, and continues to mentor and assist officers preparing for promotional processes. He is a member of several organizations and is an adjunct professor at the Langston University Oklahoma City campus. Mr. Humphrey was appointed to the Commission by Governor Mary Fallin in 2014.

Mike Boring – District Attorney Member

James M. (Mike) Boring was elected district attorney for District One in 2003. District One covers Beaver, Cimarron, Harper, and Texas counties. Mr. Boring has been a life-long resident of Texas County, graduating from Guymon High School and Panhandle State University. Mr. Boring earned his Juris Doctorate from Oklahoma City University in 1976, at which time he moved back to Guymon to practice law. Mr. Boring was appointed to the Commission by Governor Mary Fallin in 2013.

R.B. Hauf – Sheriff Member

Sheriff R.B. Hauf is a native of Payne County. He began his service with the Payne County Sheriff's Office in 1989 as a dispatcher/jailer. In 1992, he served as a field deputy and was promoted to sheriff's investigator in 2006. He was elected as sheriff of Payne County in 2008. Since Sheriff Hauf's tenure began, he has been active in many facets of the law enforcement community. He is actively involved with the Oklahoma Sheriffs' Association, and serves as a board member for the County Officers and Deputies Association of Oklahoma. Sheriff Hauf was appointed to the Commission by Governor Mary Fallin in 2015.

Rick Stephens – Lay Member

Rick Stephens brings many years of law enforcement experience to the Commission. At age 18, Mr. Stephens worked as a dispatcher and jailer for the Mayes County Sheriff's Office. A few years later, he took a job as a police officer in Pryor while working his way through college. Mr. Stephens earned his bachelor's degree in criminal justice and worked as an OSBI agent during the 1980s and 1990s. He is one of the four lay members on the OSBI Commission. Mr. Stephens was appointed to the Commission in 2012 by Governor Mary Fallin.

W. Roger Webb – Lay Member

Mr. Webb is the president emeritus of the University of Central Oklahoma after holding the position of president from 1997-2011. He was the president of Northeastern State University from 1978-1997 and Oklahoma Commissioner of Public Safety from 1974-1978. He earned a bachelor's degree from Oklahoma State University and his Juris Doctorate from the University of Oklahoma. He is presently Vice Chairman of the Board of Citizens Bank of Edmond. Governor Mary Fallin appointed Mr. Webb in 2013.

Mikeal M. Clayton – Lay Member

Clayton serves as senior counsel for the Boeing Company's worldwide defense Aircraft Modernization and Sustainment Division, overseeing the legal needs for numerous Boeing programs and businesses, including all of Boeing's Oklahoma City and San Antonio-based operations. He has also worked with the National Security Division of the U.S. Department of Justice, served as assistant U.S. attorney in the Western District of Oklahoma, and handled commercial litigation and white-collar defense matters with Vinson & Elkins, LLP. He received his Juris Doctorate with honors from the University of Texas School of Law. Clayton was appointed to the Commission by Governor Fallin in 2016.

Introduction

Background

The Uniform Crime Reporting Program (UCR) was developed by law enforcement as a tool for operational and administrative purposes. Under the auspices of the International Association of Chiefs of Police (IACP), the UCR Program was developed in 1930. Prior to that date, no comprehensive system of data collection on a national scale existed because criminal statutes varied among states in the use of terminology to define criminal behavior. To overcome this problem, IACP developed standard definitions for crimes. At that time, law enforcement began to collect crime data using standard definitions created by the UCR Program. It was not until the 1960s that funds became available to develop state-level data collection systems. The Oklahoma State Bureau of Investigation assumed the statewide administration of the UCR Program on September 1, 1973. This is the 43rd annual report, which includes crime data collected in 2016.

Crime Factors

This report includes the most accurate and current crime data available for the State. Data provided in this report are based on offenses known to law enforcement; however, victims do not always report crime to law enforcement. For that reason, the Oklahoma State Bureau of Investigation cautions using these data to make direct comparisons among jurisdictions in the State. When comparing offense and arrest data, please remember crimes relate to events while arrests relate to people. One crime may involve several offenses, multiple offenders, and/or multiple victims. Other crime factors influence the accuracy of crime data across jurisdictions, including:

- Population density and urbanization
- Composition of the population, particularly in reference to age
- Relative stability of population, especially concerning commuting patterns
- Transportation and highways
- Socioeconomic conditions, such as median household income, poverty, and unemployment
- Cultural factors, and educational, recreational, and religious makeup
- Family dynamics and structure
- Climate
- Effective strength of the police
- The administrative and investigative efficiency of the local law enforcement agency
- Policies of the prosecuting officials and the courts
- Public opinion toward crime
- Crime reporting practices of victims and citizens

Objectives

The fundamental objectives of the Oklahoma UCR Program are:

- (1) Inform the Governor, Legislature, other governmental officials, and the public as to the nature, magnitude, and trends of crime in Oklahoma.
- (2) Provide law enforcement administrators with statistics for administrative and operational use.
- (3) Provide offender demographics in order to find the proper focus for crime prevention and enforcement.
- (4) Provide data and statistics for research to improve the efficiency, effectiveness, and performance of criminal justice agencies.
- (5) Provide the FBI with complete UCR data to be included in the national publication *Crime in the United States*.

Legislative Mandate

The *Crime in Oklahoma* report includes information provided by law enforcement agencies for known offenses. The Oklahoma Legislature mandated the responsibility and authority for UCR data collection and dissemination to the Oklahoma State Bureau of Investigation. Guidelines established through Title 74 O.S. §150.10 are as follows:

- A. A uniform crime reporting system shall be established by the Oklahoma State Bureau of Investigation. The Director shall have the power and duty, when directed by the Commission, to collect and gather such information from such state agencies as may be prescribed in Section 150.1 et seq. of this title.
- B. The Oklahoma State Bureau of Investigation is hereby designated as the agency which shall collect, gather, assemble, and collate such information as is prescribed by this section.
- C.
 - 1. All state, county, city, and town law enforcement agencies shall submit reports to the Oklahoma State Bureau of Investigation on forms prescribed by the Bureau. The reports shall contain the number and nature of offenses committed within their respective jurisdictions, the disposition of such matters, and such other information as the Bureau may require, respecting information relating to the cause and prevention of crime, recidivism, the rehabilitation of criminals, and the proper administration of criminal justice.
 - 2. Any information taken from such information, data, records or reports submitted to the uniform crime reporting system and used to prepare the Uniform Crime Report shall be an open record pursuant to the Oklahoma Open Records Act. Requests for such information shall be submitted to the Bureau.
 - 3. Any request under the Oklahoma Open Records Act for any other information, data, records or reports submitted to the uniform reporting system by the Oklahoma State Bureau of Investigation shall be directed to the Bureau pursuant to Section 24A.20 of Title 51 of the Oklahoma Statutes. Such information, data, records or reports shall be considered investigative records of the Bureau and shall be subject to discovery and disclosure only in compliance with Section 150.5 of this title or other applicable statute.
 - 4. Any request under the Oklahoma Open Records Act for any information, data, records or reports submitted by a law enforcement agency other than the Oklahoma State Bureau of Investigation to the uniform crime reporting system shall be directed to the law enforcement agency submitting the information, data, records or reports to the Bureau unit pursuant to Section 24A.20 of Title 51 of the Oklahoma Statutes. Such information, data, records or reports shall be considered law enforcement records and shall be subject to discovery and disclosure only in compliance with Section 24A.8 of Title 51 of the Oklahoma Statutes or other applicable statute.
- D. Upon receipt of such information the Director shall have such data collated and formulated and shall compile such statistics as the Director may deem necessary in order to present a proper classification and analysis of the volume and nature of crime and the administration of criminal justice within this state.
- E. Refusal or persistent failure of any law enforcement agency to submit reports required by this section may result in discontinued access to Bureau information and assistance.

Reporting and Collection Procedures

Under Title 74 O.S. §150.10, all state, county, city, and town law enforcement agencies are required to submit crime data to the Oklahoma State Bureau of Investigation. Law enforcement agencies report the number of known offenses for the following categories: murder, manslaughter, rape, robbery, assault, burglary, larceny, and motor vehicle theft. Crime counts include “actual offenses known” without regard to (1) whether anyone is arrested for the crime; (2) the stolen property is recovered; (3) the local prosecution policy; and, (4) any other restrictive considerations. Law enforcement agencies also report the number of crimes cleared, either by arrest or exceptional means (a crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against the offender). Law enforcement also provides information on stolen property, circumstances surrounding all homicides, and circumstances surrounding officer assaults.

In addition, monthly reports for all persons arrested on all criminal offenses are collected. These reports provide demographic information on each person arrested, with adult and juvenile arrests reported separately. As required by Titles 74 O.S. §150.12B and 21 O.S. §850, UCR offenses reported are also utilized to identify domestic abuse and hate/bias motivation crimes.

Verification

A primary consideration in the collection of criminal statistics in Oklahoma is the uniformity and accuracy of crime data. While the Field Services Unit does provide training and technical assistance to local law enforcement, the accuracy of crime data included in this report cannot be guaranteed. Incident reports uploaded from external records management systems must meet the state's minimum requirements for submission before being accepted into the state repository. Incident reports that are not validated or properly corrected are not included in this report. Throughout the year, field service representatives work with reporting agencies to correct reporting errors. Ongoing communication (phone and personal) with reporting agencies is essential to ensure the accuracy and quality of reporting.

Classification of UCR Offenses

Part I Definitions

Offense data consists of information extracted from reports of Part I offenses that have been submitted by law enforcement agencies in the State of Oklahoma.

Murder

Definition: The unlawful killing of a human being in which the element of malice aforethought was present.

Any death due to a fight, argument, quarrel, assault, or commission of a crime is included. This index offense, as in all other crime index offenses, is scored by law enforcement officials on the basis of their investigation and does not include the findings of a court or the decision of a prosecutor. Manslaughters, suicides, accidental deaths, and justifiable homicides are excluded from this category. Attempts to kill and assaults to kill are scored as assaults and not as murder.

Summary Analysis

Law enforcement agencies reported 239 murders in 2016. Murders accounted for 1.4% of all violent crimes and 0.2% of all index crimes reported. Law enforcement cleared 151 murders by arrest or exceptional means, representing a 63.2% clearance rate. Of the 179 persons arrested for murder, 52.0% were white, 41.3% black, 6.1% American Indian, and 0.6% Asian. Law enforcement determined the victim-offender relationship in 178 of the 239 murders. Domestic murders (i.e., the murder of one family member by another) accounted for 17.2% of all murders; of those, 24.4% were intimate-partner murders (i.e., one spouse killing the other).

Rape

Definition: The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without consent from the victim.

For the purpose of Uniform Crime Reporting, rape is divided into two categories: (1) rape by force; (2) attempted rape. Assaults to commit forcible rape are included in the index offenses category of rape.

Summary Analysis

Law enforcement reported 2,134 forcible and attempted rapes in 2016, representing 12.1% of all violent crimes and 1.6% of index crimes. Law enforcement cleared 643 rapes by arrest or exceptional means, resulting in a clearance rate of 30.1%. Of the 226 offenders arrested for rape, 36.3% were under the age of 25; 66.8% were white, 26.5% black, 4.9% American Indian, 1.3% Asian, and 0.4% Hawaiian/Pacific Islander.

Aggravated Assault

Definition: The unlawful attack or an attempt to attack through force or violence to do physical injury to another.

An aggravated assault may be committed with a gun, knife or other cutting instrument, other dangerous weapon, or through the aggravated use of hands, fists, or feet. All assaults, where no weapon is used and which result in minor injuries, are classified as non-aggravated and are not counted in the index crime totals.

Summary Analysis

Law enforcement reported 12,058 aggravated assaults, representing 68.6% of all violent crimes and 9.1% of all index crimes reported. Law enforcement cleared 5,353 aggravated assaults, representing a 44.4% clearance rate. Of the 3,742 offenders arrested for aggravated assault, 63.0% were white, 29.2% black, 7.5% American Indian, and 0.3% Asian. Of all offenders arrested for aggravated assault, 19.7% were between the ages of 18 and 24.

Larceny

Definition: The unlawful taking of property of another with intent to deprive him/her of ownership without the use of force, violence, or fraud.

For reporting purposes, larcenies are specifically categorized in crimes resulting from: (1) pocket picking, (2) purse snatching, (3) shoplifting, (4) theft from a motor vehicle, (5) theft of motor vehicle parts and accessories, (6) bicycle theft, (7) theft from buildings, and (8) theft from any coin operated machine. Any remaining crimes of theft are classified in the “all other” category.

Summary Analysis

Law enforcement agencies reported 73,917 larcenies, representing 64.7% of all non-violent crimes and 56.0% of all index crimes reported. Law enforcement cleared 12,777 larcenies, resulting in a 17.3% clearance rate. Of 13,190 offenders arrested for larceny, 73.4% were white, 19.9% black, 6.0% American Indian, 0.6% Asian, and 0.1% Hawaiian/Pacific Islander. Juveniles accounted for 13.6% of offenders arrested for larceny, while 24.3% of offenders arrested for larceny were between the ages of 18 and 24. The estimated value of stolen property was \$77,896,734.

Motor Vehicle Theft

Definition: The unlawful taking or attempted taking of a motor vehicle.

The term “motor vehicle” includes those self-propelled vehicles which run on a land surface and not on rails. Thefts of farm equipment, bulldozers, airplanes, and construction equipment are not included in the definition of a motor vehicle. Joyriding is included in this category. Motor vehicle theft is divided into three categories: (1) autos; (2) trucks and buses; and (3) other vehicles.

Summary Analysis

Law enforcement agencies reported 11,869 motor vehicle thefts, representing 10.4% of all non-violent crimes and 9.0% of all index crimes reported. Law enforcement cleared 1,151 motor vehicle thefts, resulting in a 9.7% clearance rate. Juveniles accounted for 16.2% of those arrested for motor vehicle theft, while 23.3% of those arrested for motor vehicle theft were between the ages of 18 and 24. Of the 623 offenders arrested for motor vehicle theft, 73.8% were white, 18.5% black, 7.4% American Indian, and 0.3% Asian. Law enforcement recovered 8,162 stolen vehicles, resulting in a 68.8% recovery rate. The average value of stolen motor vehicles was \$7,598.38.

Arson

Definition: Any willful or malicious burning, or attempt to burn, with or without intent to defraud.

Arson applies only to those fires determined through investigation to have been willfully or maliciously set. Attempts to burn are included in the arson report, but fires of suspicious or unknown origin are not.

Summary Analysis

Law enforcement agencies reported 724 arsons; of those, 392 were structural, 155 mobile, and 177 “all other.” Law enforcement cleared 124 arsons, representing a 17.1% clearance rate. The estimated property value for all reported arsons was \$10,158,256. The guidelines used by fire departments to report arson to the State Fire Marshal’s Office differ from those in which the Uniform Crime Reporting Program obtains its data from law enforcement agencies. Property Stolen and Recovered

Summary Analysis

Law enforcement agencies report supplemental data on crimes that involve money and/or stolen property. The total value of all property stolen was \$230,118,158, representing an increase of 14.5% compared to the previous year. Law enforcement also recovered 21.8% more money and/or stolen property compared to 2015.

Arrest and Clearance Data

Arrest and Clearance Data

Summary Analysis

The Oklahoma Uniform Crime Reporting Program requests the monthly submission of data concerning persons arrested in Oklahoma. Arrests are reported for both Parts I and II crimes. A person is counted on the monthly arrest report each time he/she is arrested, and the same person may be arrested several times during the reporting period. If a person is arrested for multiple crimes, only the most serious crime will be reported on the arrest report. Oklahoma law enforcement reported 119,179 arrests in 2016, representing a 3.2% decrease compared to 2015.

Clearance Rate

For crime reporting purposes, an index crime is considered cleared when: (1) a law enforcement agency has identified the offender; (2) enough evidence exists to charge the offender; and (3) the offender is actually taken into custody. The arrest of one person may clear several crimes or the arrest of several persons may clear only one crime. An arrest may also be reported as cleared if some element beyond the control of law enforcement is present (e.g., death of offender).

Overview of Juvenile Arrests

Summary Analysis

Juveniles accounted for 10.1% of all arrests, and 13.2% of all arrests for index crimes. Eleven percent of juvenile arrests were related to drugs, while 4.6% of juvenile arrests were related to alcohol.

Table 32. Juvenile Arrests (2007-2016)

For purposes of this data collection, “arrest” refers to the police handling of juveniles who have committed a crime and are taken into custody when, under the same circumstances, the crime would warrant the arrest of an adult. Police contacts are not counted as arrests if no crime has been committed.

Law Enforcement Officers Killed or Assaulted

Officers Killed or Assaulted

The Oklahoma Uniform Crime Reporting Program requires the collection of statistical information relating to law enforcement officers killed in the line of duty and the number assaulted while on duty.

No reports of officers killed as the result of a felonious act were made in 2016. No reports of officers killed as the result of an accident or negligent act were made in 2016. A total of 918 assaults were reported on law enforcement officers in 2016, representing a 14.9% increase compared to 2015.

Law Enforcement Employee Data

Definition: Persons employed as full-time sworn officers and full-time civilian employees.

The figures below represent a compilation of forms sent to all reporting law enforcement agencies throughout the state on an annual basis. With the exception of persons who perform guard or protection duties and who are not paid from police funds (i.e., school crossing guards, special officers, and merchant police), these figures reflect the number of full-time sworn personnel with full arrest power, including the chief, sheriff, commissioner, and superintendent. The figures do not include employees of the Oklahoma State Bureau of Investigation, or those law enforcement agencies which do not contribute to the Uniform Crime Reporting Program.

Civilians include clerks, radio dispatchers, meter maids, stenographers, mechanics, etc., provided these persons are full-time employees of the agency. Neither employees who are compensated from a source other than police funds, nor those receiving salaries from federal grants are included. In 2016, Oklahoma’s law enforcement rate was 3.2 employees per 1,000 residents.

Domestic Abuse and
Hate/Bias Crime

Domestic Abuse

Definition: Threatening, causing or attempting to cause serious physical harm between family or household members.

Domestic abuse includes such offenses as murder, sex crimes, assault, and assault and battery. Family or household members are defined as present spouses, former spouses, parents, foster parents, children, persons otherwise related by blood or marriage, or living in the same household or who formerly lived in the same household. Also included in this category are persons in dating relationships (defined as courtships or engagement relationships) or someone with whom they had a child. It also includes the elderly and handicapped.

Index Crime Offenses by
Contributor

Contributors

The following section includes a specific breakdown of index crime offenses by each contributing law enforcement agency for the years 2014, 2015, and 2016. It must be remembered that the total index crime offenses reported are shown here, and the statistics include each month an agency reported.

As is apparent, the delinquency of reports greatly hampers the Oklahoma Uniform Crime Reporting Program. In some states, crime trend data is only computed for those agencies that have a complete reporting record for the year or years. Others use estimated data for those agencies that did not submit reports for each month. The Oklahoma Uniform Crime Reporting Program uses the total number of offenses reported in its analysis as part of a continuing endeavor to provide complete crime statistics for the State of Oklahoma.

The section is listed in alphabetical order by county, and then in numerical order by the Originating Agency Identifier (ORI) assigned to reporting agencies within each county by the Federal Bureau of Investigation. An alphabetical listing of all reporting agencies has been included in this publication; these agencies also have been cross-referenced to their respective counties.

Contributor Participation

History of Program Participation

There are approximately 450 sheriffs’ offices and police departments in Oklahoma. During 1973, an average of 65 law enforcement agencies contributed monthly reports directly to the Federal Bureau of Investigation.

The Oklahoma State Bureau of Investigation assumed the statewide administration of the Uniform Crime Reporting Program on September 1, 1973. Since that time, an astounding increase in the number of agencies who report directly to the Oklahoma State Bureau of Investigation has occurred. The table below sets forth the number of law enforcement agencies, by type, that have participated in the Oklahoma Uniform Crime Reporting Program for the years 2014, 2015, and 2016.

Contributor History

In 2016, 379 reporting law enforcement agencies provided UCR data directly to the Oklahoma State Bureau of Investigation's UCR state repository.

The following is a list of agencies that reported partial data or failed to report data during calendar year 2016. Statistics in this publication are reported as they are received from an agency during the calendar year and data received is not calculated or averaged to compensate for partial or missing data. For this reason, there may be discrepancies when comparing data in this publication with data in *Crime in the United States*.

Statement of Regulations

Statement of Policy

The following regulations will be observed by this agency concerning the release of statistical information. Employees of the agency will observe these procedures and will not deviate from this policy without the express consent of the Director of the Oklahoma State Bureau of Investigation. All information to be released will originate from the Field Services Unit of the Oklahoma State Bureau of Investigation.

Regulations

1. This agency will publish an annual report reflecting crime in Oklahoma. This report will be distributed to the Governor, members of the Legislature, the Attorney General, law enforcement agencies, the State Library System, and to any agency or committee dedicated to law enforcement or criminal justice work.
2. Published annual reports will be released to the above named agencies at no charge. They will then be released to individuals or agencies extraneous to the criminal justice community who shall pay a fee of five dollars (\$5.00) for every copy received.
3. UCR Information Requests:
 - A. Information contained in the published annual report may be released via telephone, letter, etc., to any interested party.
 - B. All requests for unpublished information from agencies or individuals extraneous to the criminal justice community should be submitted on an OSBI OPEN RECORDS ACT REQUEST FORM (ORA-1). In accordance with the Oklahoma Open Records Act, all requests may be subject to a charge.
 - C. Law enforcement agencies may receive interim, unpublished, specialized reports identifying their agency only, provided the request is reasonable. Law enforcement agencies may also receive their respective county totals along with state or regional totals. All requests should be directed to the Supervisor of the Field Services Unit.

Appendix

Glossary of Terms

Adult - For Uniform Crime Reporting purposes, a person 18 years of age or older.

Arrest Rate - The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. The arrest rate is computed in the same manner as crime rates.

Clearance Rate - The number of clearances reported for Part I offenses. This rate is determined by dividing the number of clearances by the number of offenses.

Cleared By Arrest - For UCR purposes, an offense is cleared by arrest or solved when at least one person is (1) arrested, (2) charged with the commission of the offense, and (3) turned over for prosecution.

Crime Index - The sum total of the seven major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. Crime classifications used in the index are: (1) murder, (2) forcible rape, (3) robbery, (4) felonious assault, (5) breaking and entering, (6) larceny (theft), and (7) motor vehicle theft. Each of these offenses is referred to as an "index crime."

Crime Rate - The number of index crimes reported for each unit of population, generally 100,000. Crime rates are computed for communities by dividing the number of index crimes by the population and multiplying the answer by 100,000.

Environmental Factors – Conditions which affect the amount and type of crime that occurs in a geographical area.

Exceptional Clearance - A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against the offender.

Juvenile - For UCR purposes, a person under the age of 18.

Non-Violent Crime - Consists of the index crimes of breaking and entering, larceny (theft) and motor vehicle theft.

Part I Offenses - The first of two main categories of crime classes comprising a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and/or occur with greater frequency. The monthly tabulation of Part I offenses provides a count of "offenses known."

Part II Offenses - The second of two main categories of crime classes comprising a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature and/or occur less frequently. Monthly tabulations of Part II offenses are limited to arrest information only.

Violent Crime - Consists of the index crimes of murder, rape, robbery, and aggravated assault.
