

CRIME IN OKLAHOMA 2019

OKLAHOMA STATE BUREAU of INVESTIGATION
Office of Criminal Justice Statistics

State of Oklahoma

Kevin Stitt, Governor

Oklahoma State Bureau of Investigation

Ricky Adams, Director

Bryan Rizzi, Deputy Director

Information Services Division

Debbie McKinney, Division Director

Data Collection and Reporting Section

Anne Simons, Section Supervisor

Office of Criminal Justice Statistics

Kara Miller, Statistical Research Specialist

July 31, 2020

This publication is issued by the Oklahoma State Bureau of Investigation (OSBI) under the authority of Director Ricky Adams. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.

The report has been prepared by the Office of Criminal Justice Statistics. Crime data for this report were provided by the Field Services Unit, Information Services Division. Research staff would like to thank the following individuals for their assistance and support in creating this report.

Information Services Division Director	Debbie McKinney
Administrative Program Officer, Field Services Unit	Anne Simons
Field Services Unit Supervisor	Jim Ely
Field Services Unit	Aaron Gray
	Anita Wood
	Annie Gilbreath
	Corey Morris
	Derrie Fox
	Jacquelyn Cruise
	Lenedia Hendricks
	Mary Searock
	Talia Lane
OMES Staff	Jack Keisorn
	Nicole Bridgeford
	Jeremy Burgin
	Cara James

The OSBI would also like to thank the 427 law enforcement agencies that contributed data to the Uniform Crime Reporting Program by using the Summary Reporting System or the State Incident-Based Reporting System (SIBRS).

Introduction

Background

The Uniform Crime Reporting (UCR) Program was developed by law enforcement as a tool for operational and administrative purposes. Under the auspices of the International Association of Chiefs of Police (IACP), the UCR Program was developed in 1930. Prior to that date, no comprehensive system of data collection existed on a national scale because the terminology used to define criminal behavior in criminal statutes varied among states. To overcome this problem, IACP developed standard definitions for crimes. At that time, law enforcement began to collect crime data using standard definitions created by the UCR Program. However, it was not until the 1960s that funds became available to develop state-level data collection systems. The Oklahoma State Bureau of Investigation (OSBI) assumed the statewide administration of the UCR Program on September 1, 1973 and began publishing annual reports of *Crime in Oklahoma*. This 46th annual report includes crime data collected in the 2019 calendar year.

Crime Factors

This report includes the most accurate and current crime data available for the State. Data provided in this report are based on offenses known to law enforcement; however, victims do not always report crime to law enforcement. For that reason, the OSBI cautions against using the data reported to make direct comparisons among jurisdictions in the State. It is also important to note key differences between offense and arrest data. Offense data is reported for an event which may include several offenses, multiple offenders, and/or multiple victims. As a result, direct comparisons between offense and arrest data may be misleading. In addition, other factors may influence the amount of crime reported across jurisdictions, including:

- Population density and urbanization
- Composition of the population, particularly in reference to age
- Relative stability of population, especially concerning commuting patterns
- Transportation and highways
- Socioeconomic conditions, such as median household income, poverty, and unemployment
- Cultural factors: educational, recreational, and religious makeup
- Family dynamics and structure
- Climate
- Effective strength of local law enforcement
- The administrative and investigative efficiency of the local law enforcement agency
- Policies of the prosecuting officials and the courts
- Public opinion toward crime
- Crime reporting practices of victims and citizens.

Objectives

The fundamental objectives of the Oklahoma UCR Program are:

- (1) Inform the Governor, Legislature, other governmental officials, and the public as to the nature, magnitude, and trends of crime in Oklahoma.
- (2) Provide law enforcement administrators with statistics for administrative and operational use.
- (3) Provide offender demographics in order to find the proper focus for crime prevention and enforcement.
- (4) Provide data and statistics for research to improve the efficiency, effectiveness, and performance of criminal justice agencies.
- (5) Provide the FBI with complete UCR data to be included in the national publication *Crime in the United States*.

Legislative Mandate

The *Crime in Oklahoma* report includes information provided by law enforcement agencies for known offenses. The Oklahoma Legislature mandated the responsibility and authority for UCR data collection and dissemination to the Oklahoma State Bureau of Investigation. Guidelines established through [Title 74 O.S. §150.10](#) are as follows:

- A. A uniform crime reporting system shall be established by the Oklahoma State Bureau of Investigation. The Director shall have the power and duty, when directed by the Commission, to collect and gather such information from such state agencies as may be prescribed in Section 150.1 et seq. of this title.
- B. The Oklahoma State Bureau of Investigation is hereby designated as the agency which shall collect, gather, assemble, and collate such information as is prescribed by this section.
- C.
 1. All state, county, city, and town law enforcement agencies shall submit reports to the Oklahoma State Bureau of Investigation on forms prescribed by the Bureau. The reports shall contain the number and nature of offenses committed within their respective jurisdictions, the disposition of such matters, and such other information as the Bureau may require, respecting information relating to the cause and prevention of crime, recidivism, the rehabilitation of criminals, and the proper administration of criminal justice.
 2. Any information taken from such information, data, records or reports submitted to the uniform crime reporting system and used to prepare the Uniform Crime Report shall be an open record pursuant to the Oklahoma Open Records Act. Requests for such information shall be submitted to the Bureau.
 3. Any request under the Oklahoma Open Records Act for any other information, data, records or reports submitted to the uniform reporting system by the Oklahoma State Bureau of Investigation shall be directed to the Bureau pursuant to Section 24A.20 of Title 51 of the Oklahoma Statutes. Such information, data, records or reports shall be considered investigative records of the Bureau and shall be subject to discovery and disclosure only in compliance with Section 150.5 of this title or other applicable statute.
 4. Any request under the Oklahoma Open Records Act for any information, data, records or reports submitted by a law enforcement agency other than the Oklahoma State Bureau of Investigation to the uniform crime reporting system shall be directed to the law enforcement agency submitting the information, data, records or reports to the Bureau unit pursuant to Section 24A.20 of Title 51 of the Oklahoma Statutes. Such information, data, records or reports shall be considered law enforcement records and shall be subject to discovery and disclosure only in compliance with Section 24A.8 of Title 51 of the Oklahoma Statutes or other applicable statute.

- D. Upon receipt of such information the Director shall have such data collated and formulated and shall compile such statistics as the Director may deem necessary in order to present a proper classification and analysis of the volume and nature of crime and the administration of criminal justice within this state.
- E. Refusal or persistent failure of any law enforcement agency to submit reports required by this section may result in discontinued access to Bureau information and assistance.

Reporting and Collection Procedures

Under Title 74 O.S. §150.10, all state, county, city, and town law enforcement agencies are required to submit crime data to the OSBI. Law enforcement agencies report the number of known offenses for the following categories: murder, manslaughter, rape, robbery, assault, burglary, larceny, and motor vehicle theft. Crime counts include “actual offenses known” without regard to (1) whether anyone is arrested for the crime; (2) whether the stolen property is recovered; (3) the local prosecution policy; and, (4) any other restrictive considerations. Law enforcement agencies also report the number of crimes cleared, either by arrest or exceptional means (a crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against the offender). Law enforcement also provides information on stolen property, circumstances surrounding all homicides, and circumstances surrounding assaults on law enforcement officers.

In addition, monthly reports for all persons arrested on all criminal offenses are collected. These reports provide demographic information on each person arrested, with adult and juvenile arrests reported separately. As required by Titles 74 O.S. §150.12B and 21 O.S. §850, UCR offenses reported are also utilized to identify domestic abuse and hate/bias motivation crimes.

Verification

A primary consideration in the collection of criminal statistics in Oklahoma is the uniformity and accuracy of crime data. While the Field Services Unit does provide training and technical assistance to local law enforcement, the accuracy of crime data included in this report cannot be guaranteed. Incident reports uploaded from external records management systems must meet the state's minimum requirements for submission before being accepted into the state repository. Incident reports that are not validated or properly corrected are not included in this report. Throughout the year, field service representatives work with reporting agencies to correct reporting errors. Ongoing communication (phone, email, and in person) with reporting agencies is essential to ensure the accuracy and quality of reporting.

History of Oklahoma’s Crime Reporting Program

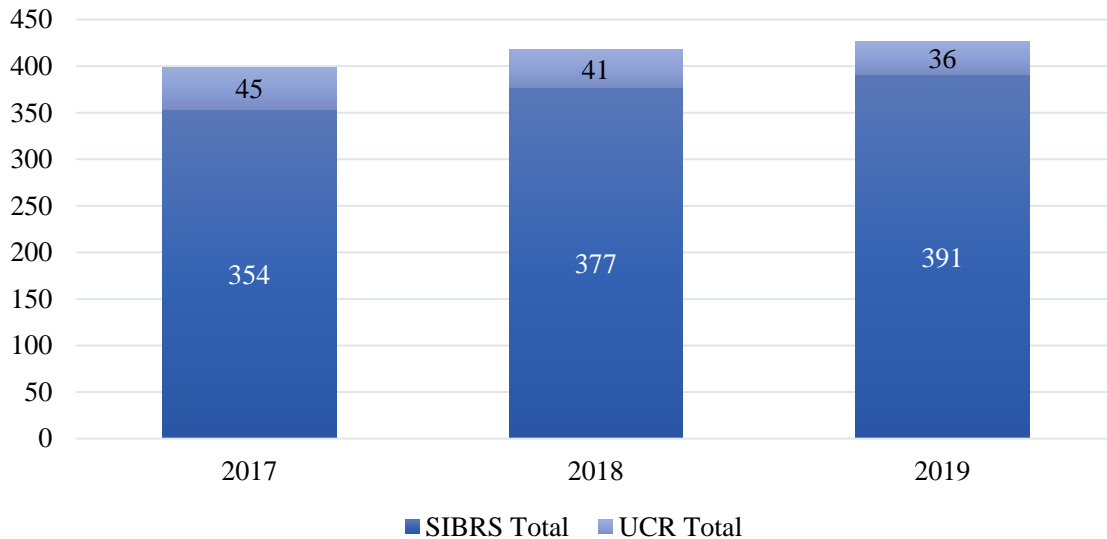

During 1973, an average of 65 law enforcement agencies contributed monthly reports directly to the FBI. The OSBI assumed the statewide administration of the UCR Program on September 1, 1973. Since that time, the number of agencies who report directly to the OSBI has increased dramatically.

The OSBI maintains the UCR Program, also known as the Summary Reporting System (SRS) and the State Incident-Based Reporting System (SIBRS). The State of Oklahoma and the nation are transitioning from a summary reporting system, or UCR, to an incident-based reporting system. Compared to the traditional SRS format, the incident-based reporting format is capable of providing more detailed information about crime incidents. SIBRS collects data for 53 crimes compared to the 8 crimes collected by the SRS. In SIBRS, arrests and clearances are linked to incidents, attempted crimes are separated from completed, and every offense in a crime incident is recorded and counted. A report in SIBRS collects information about the victims, offenses, and offenders.

The FBI intends to transition from using both UCR and the National Incident-Based Reporting System (NIBRS) to only accepting NIBRS compatible data by 2021. Therefore, the OSBI is working diligently to ensure all of Oklahoma’s law enforcement agencies are verified to submit to SIBRS, and in turn to NIBRS. As of 2019, 391 agencies in Oklahoma are submitting data to SIBRS (Figure 1), and only 36 agencies are submitting data in the SRS format. In 2019, one of Oklahoma’s largest law enforcement agencies (Oklahoma City Police Department) converted from SRS to SIBRS.

For previous years, only 50% of Oklahoma’s population was covered by SIBRS agency. As of December 2019, 69.7% of Oklahoma’s population is covered by a SIBRS agency. In 2019, 60.5% of reported Index Crimes were reported by a SIBRS agency.

Figure 1. Number of SIBRS and UCR Agencies, 2017-2019

Classification of UCR Offenses

Part I Definitions

Offense data consists of information extracted from reports of Part I offenses that have been submitted by law enforcement agencies in the State of Oklahoma.

1. Criminal homicide - The willful killing of a human being.
2. Rape - The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without consent from the victim.
3. Robbery - The forcible taking of the property of another against his/her will by force or fear, including attempts.
4. Aggravated assault - The unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury, including attempts.
5. Burglary (breaking and entering) - The unlawful or forcible entry of any structure to commit a felony or larceny, including attempts.
6. Larceny (theft) - The unlawful taking of property with intent to deprive another of ownership.
7. Auto theft (or other motor vehicle) - The larceny or attempted larceny of a motor vehicle.
8. Arson - Willful or malicious burning with or without intent to defraud, including attempts.
9. Human trafficking (commercial sex acts) - Inducing a person to take part in commercial sex acts.
10. Human trafficking (involuntary servitude) - Obtaining a person, and subjecting them to involuntary servitude, peonage, debt bondage, or slavery.

Part II Definitions

All other crimes not classified as Part I offenses are classified as Part II offenses. These crimes are only reported when an arrest has been made.

11. Assaults (other, not aggravated) - Assaults or attempted assaults that are simple and minor in nature.
12. Forgery/counterfeiting - Making, altering, uttering, or possessing, or attempts to make, alter, or possess with intent to defraud.
13. Fraud - Fraudulent conversion of another's money or property by false pretenses.

14. Embezzlement - Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.
15. Stolen property - All offenses of buying, receiving, and possessing stolen property, as well as all attempts to commit any of these offenses.
16. Vandalism - Willful or malicious destruction, injury, disfigurement, or defacement of property without consent of the owner or persons having custody or control.
17. Weapons (carrying, possessing, etc.) - All violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers and all attempts to commit any of the offenses.
18. Prostitution and commercialized vice - Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring or transporting women for immoral purposes, and all attempts to commit any of these offenses.
19. Sex offenses (except forcible rape, prostitution, and commercialized vice) - Statutory rape, offenses against chastity, common decency, morals, and the like, including attempts.
20. Drug abuse violations - All arrests for violations of state and local ordinances subdivided into the categories of possession and sale/manufacturing of narcotic drugs.
21. Gambling - Promoting, permitting, or engaging in gambling.
22. Offenses against family and children - Nonsupport, neglect, desertion, or abuse of family and children.
23. Driving under the influence - Driving or operating any motor vehicle while drunk or under the influence of liquor or drugs.
24. Liquor laws - State or local liquor law violations, except "drunkenness" and "driving under the influence."
25. Drunkenness - Consuming alcoholic beverages to the extent that one is mentally and physically impaired.
26. Disorderly conduct - Disturbing the public peace.
27. Vagrancy - Prohibiting a person from idling in a place or area (not reported in Oklahoma).
28. All other offenses - All other violations of state and local laws, except traffic violations.

29. Suspicion - Arrested for no specific offense, but released without formal charges filed (not reported in Oklahoma).
30. Curfew and loitering laws - Violations of curfew or loitering laws (applicable only to juveniles).
31. Runaway - Juveniles placed in protective custody as stipulated by local laws.

Index Crime Summary

Section 1

Summary Analysis

In 2019, law enforcement agencies reported 126,305 Index Crimes (Murder, Rape, Robbery, Aggravated Assault, Burglary, Larceny (Theft), and Motor Vehicle Theft), a decrease of 2.8% from 2018 and a decrease of 1.8% compared to 2017. The largest decrease in Index Crimes occurred in the Violent Crime (Murder, Rape, Robbery, and Aggravated Assault) category. All offenses within this category decreased except for Murder, which increased by 18.6%. Violent Crimes decreased 9.8% compared to 2018, and 6.1% compared to 2017. Table 1 shows the percent change of each Index Crime from 2017-2019.

Table 1. Index Crime Comparison, 2017-2019

Offense Type	Year	Number of Offenses	% Change
Murder	2019	249	+18.6%
	2018	210	-14.6
	2017	246	+2.1
Rape	2019	2,364	-4.1
	2018	2,465	+9.8
	2017	2,246	+15.3
Robbery	2019	2,326	-15.9
	2018	2,765	-7.2
	2017	2,978	+0.6
Aggravated Assault	2019	11,901	-10.0
	2018	13,224	+6.1
	2017	12,461	+10.0
Violent Crime Total	2019	16,840	-9.8
	2018	18,664	+4.1
	2017	17,931	+8.9
Burglary	2019	25,642	-3.7
	2018	26,630	-5.5
	2017	28,174	+1.2
Larceny (Theft)	2019	70,776	-1.2
	2018	71,602	+1.6
	2017	70,474	-0.7
Auto Theft	2019	13,047	-0.1
	2018	13,055	+8.5
	2017	12,034	+18.3
Non-Violent Crime Total	2019	109,465	-1.6
	2018	111,287	+0.5
	2017	110,682	+1.5
Index Crime Total*	2019	126,305	-2.8
	2018	129,951	+1.0
	2017	128,613	+2.5

*A Collection of statistics regarding Arson is shown separately and is not reflected in the Index Offense totals in this table.

When comparing the number of Index Crimes in 2019 to 10 years prior (2010), Index Crimes have decreased 12.9%, and when compared to five years prior (2015), Index Crimes increased by 0.7%. Since 2010, Violent Crimes decreased by 6.0%, and since 2015, they increased by 2.2%. The overall downward trend of Index Crimes (Figure 2) is largely due to the number of Non-Violent Crimes reported. Non-Violent Crimes make up, on average, 87.1% of Index Crimes. Since 2010, Non-Violent Crimes have decreased 13.9%, and since 2015, they have changed by only +0.4%.

Figure 2. Total Number of Violent, Non-Violent, and Index Crimes, 2010-2019

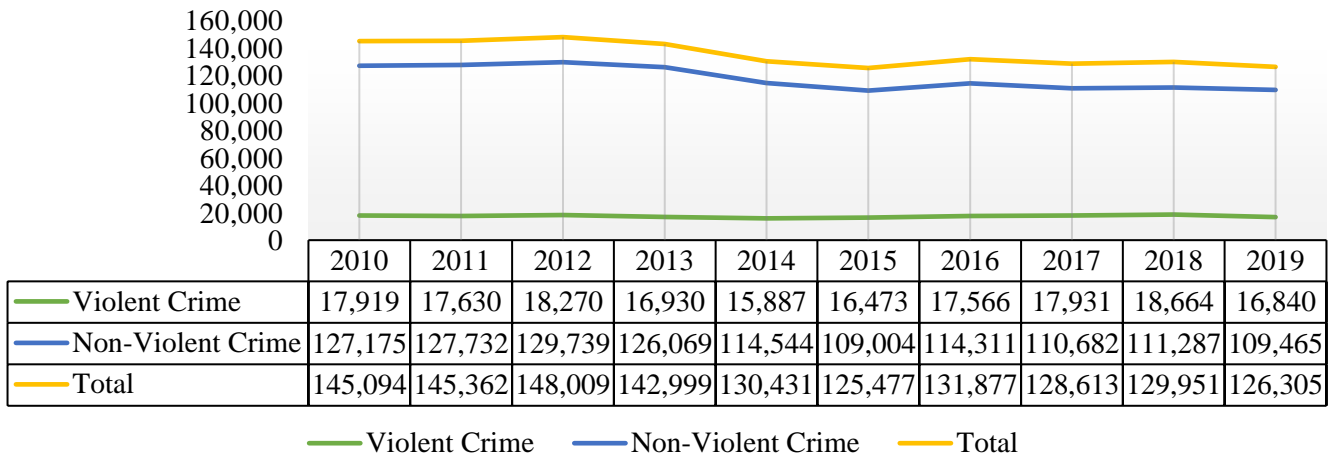

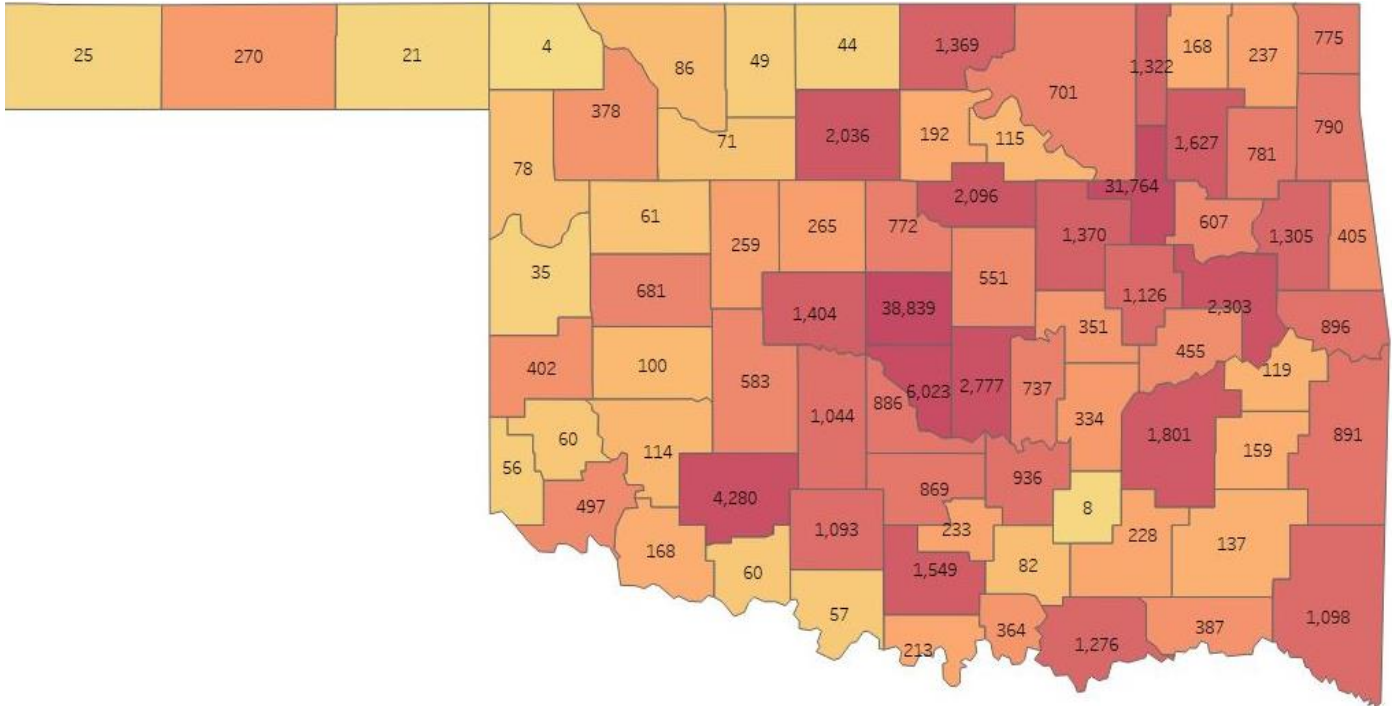

Figure 3 shows the distribution of Index Crimes across counties in Oklahoma. Lighter shades indicate fewer Index Crimes were reported in that county, while darker shades indicate more were reported. The numbers within the county are the number of crimes reported.

Figure 3. 2019 Index Crime Distribution, by County

Violent Crime in Oklahoma

As stated previously, Violent Crimes have decreased 6.0% compared to the number reported in 2010, and decreased 9.8% since 2018. However, there were 249 murders reported in 2019 which was a +30.4% increase compared to 2010. For the past ten years (2010-2019), there have been, on average, 220 murders. Murders decreased the most in 2014 and 2018 by 14.0% and 14.6%, respectively, and the largest increases in murder occurred in 2015 and 2019, increasing by 35.4% and 18.6% (Table 2).

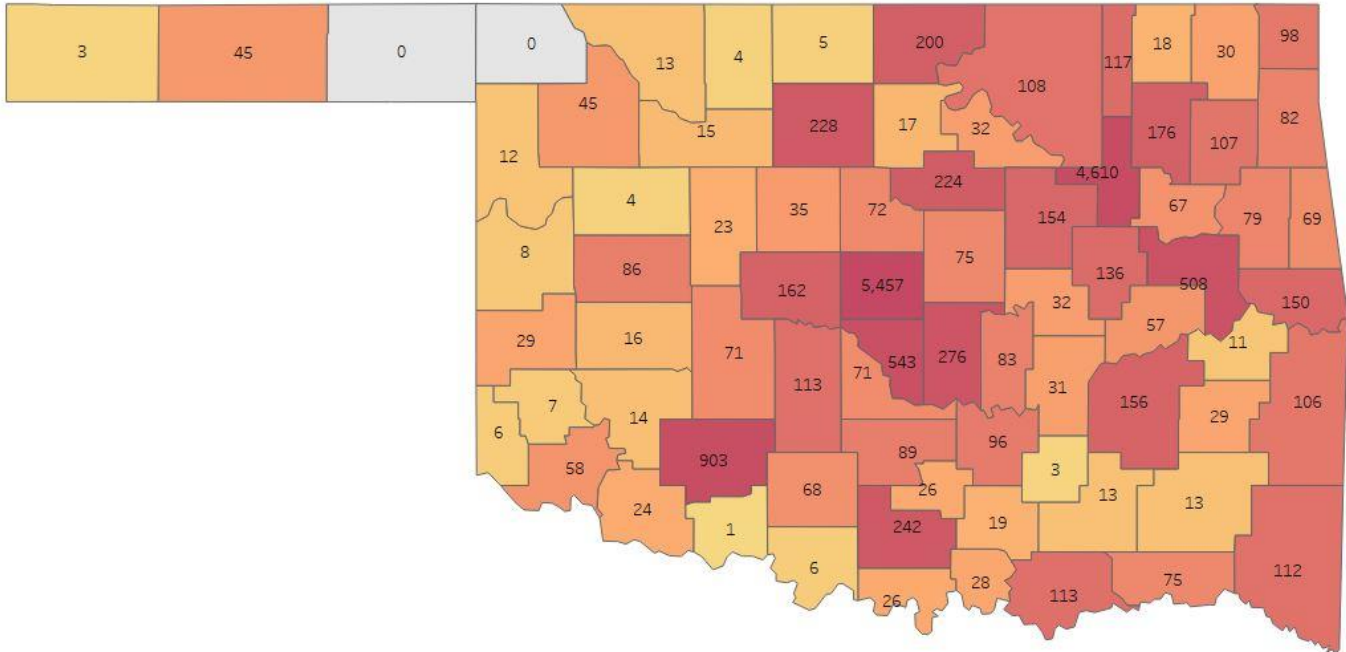

In 2013, the FBI and in turn, the Oklahoma UCR Program changed the definition of rape. Therefore, a direct comparison cannot be made for numbers from prior 2013 to numbers from 2013 to present. However, since 2013, rape increased by 34.2%, but decreased since 2018 by 4.1%. Reported Robbery has decreased by 29.9% since 2010. The largest decrease (15.9%) occurred in 2019, and it decreased 3.7%, on average, from 2011-2019 (Table 2). Lastly, Aggravated Assault, which makes up the majority of Violent Crime offenses, has decreased by 8.0% since 2010. On average, there were 12,245 Aggravated Assaults reported each year, and the highest number of Aggravated Assaults were reported in 2018. The largest decrease (10.0%) occurred in 2019.

Table 2. Total Number of Violent Crimes Reported, 2010-2019

Year	Murder	Rape	Robbery	Aggravated Assault	Total
2010	191	1,467	3,320	12,941	17,919
2011	219	1,459	3,287	12,665	17,630
2012	219	1,675	3,213	13,163	18,270
2013	207	1,762	3,052	11,909	16,930
2014	178	1,877	3,028	10,804	15,887
2015	241	1,948	2,960	11,324	16,473
2016	239	2,134	3,135	12,058	17,566
2017	246	2,246	2,978	12,461	17,931
2018	210	2,465	2,765	13,224	18,664
2019	249	2,364	2,326	11,901	16,840

Figure 4 depicts a map of Oklahoma counties who had Violent Crimes reported. As with Figure 3, lighter shades indicate fewer Violent Crimes were reported than counties that are shaded darker and the numbers within the counties reflect the number of crimes reported. Counties that are grey in color did not have any Violent Crime reported in 2019.

Figure 4. 2019 Violent Crime Distribution, by County

Non-Violent Crime in Oklahoma

Reported Non-Violent crimes have decreased by 13.9% since 2010 (Table 3), although they only decreased by 1.6% from 2018 to 2019. Burglary has decreased by 31.4% since 2010, and has decreased an average of 4.0% per year from 2011-2019. From 2010-2019, Burglary only increased in one year (2016) by 2.5%, and it decreased the most in 2014 (12.2%).

Larceny, which makes up majority of Non-Violent Crimes, has decreased 11.2% since 2010, although it only decreased 1.2% in 2019. The highest number (82,288) of larcenies was reported in 2012, and the lowest number (70,474) of larcenies was reported in 2017. From 2010-2019, an average of 75,572 Larcenies were reported per year (Table 3).

Lastly, Motor Vehicle Theft has increased 29.5% since 2010, and it remained relatively the same from 2018 to 2019 with only a 0.1% decrease. An average of 11,447 Motor Vehicle Thefts per year were reported from 2010-2019, and the highest number (13,055) of Motor Vehicle Thefts were reported in 2018. The lowest number of Motor Vehicle Thefts were reported in 2010.

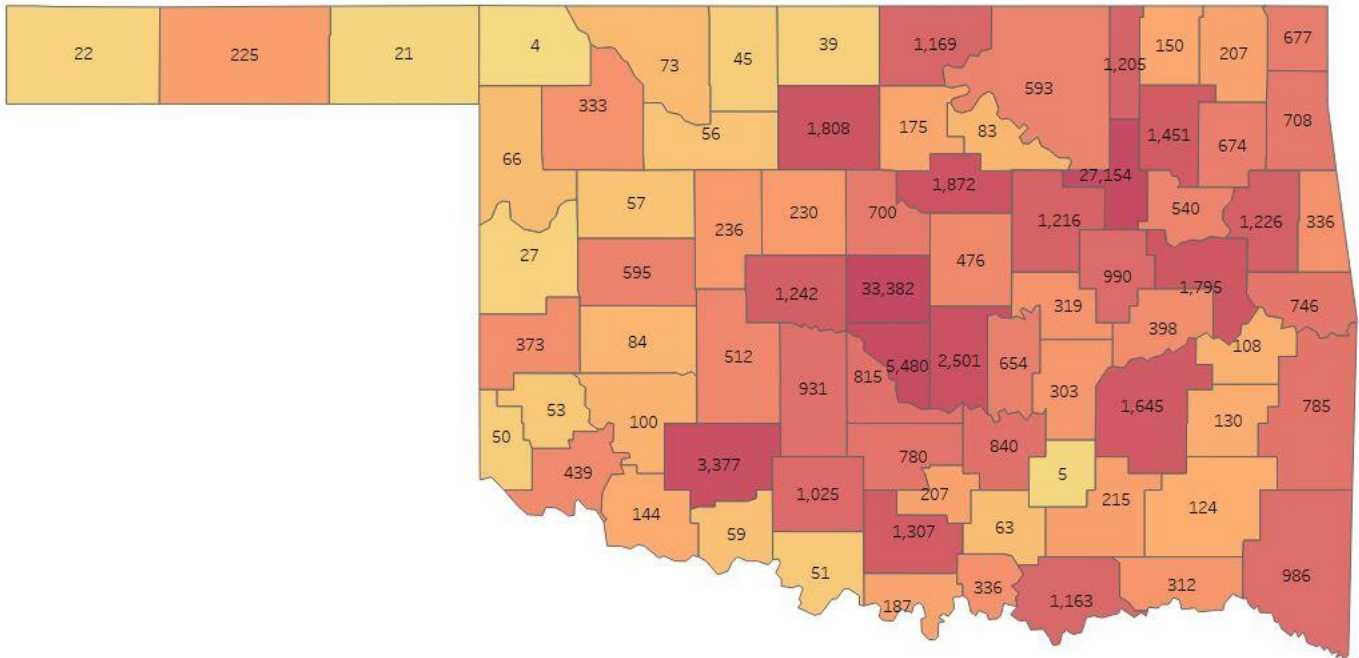

Table 3. Total Number of Non-Violent Crimes Reported, 2010-2019

Year	Burglary	Larceny	Motor Vehicle Theft	Arson	Total*
2010	37,358	79,741	10,076	1,011	127,175
2011	36,724	79,970	11,038	991	127,732
2012	35,889	82,288	11,562	1,654	129,739

*Totals do not include Arson.

Figure 5 shows the distribution of reported Non-Violent Crimes in Oklahoma by county. Counties with fewer crimes are shaded in lighter colors, and counties with more crimes are shaded in darker colors. The number of Index Crimes by county are available in [Section 7](#).

Figure 5. 2019 Non-Violent Crime* Distribution, by County
 *Does Not Include Arson Offenses

Index Crime

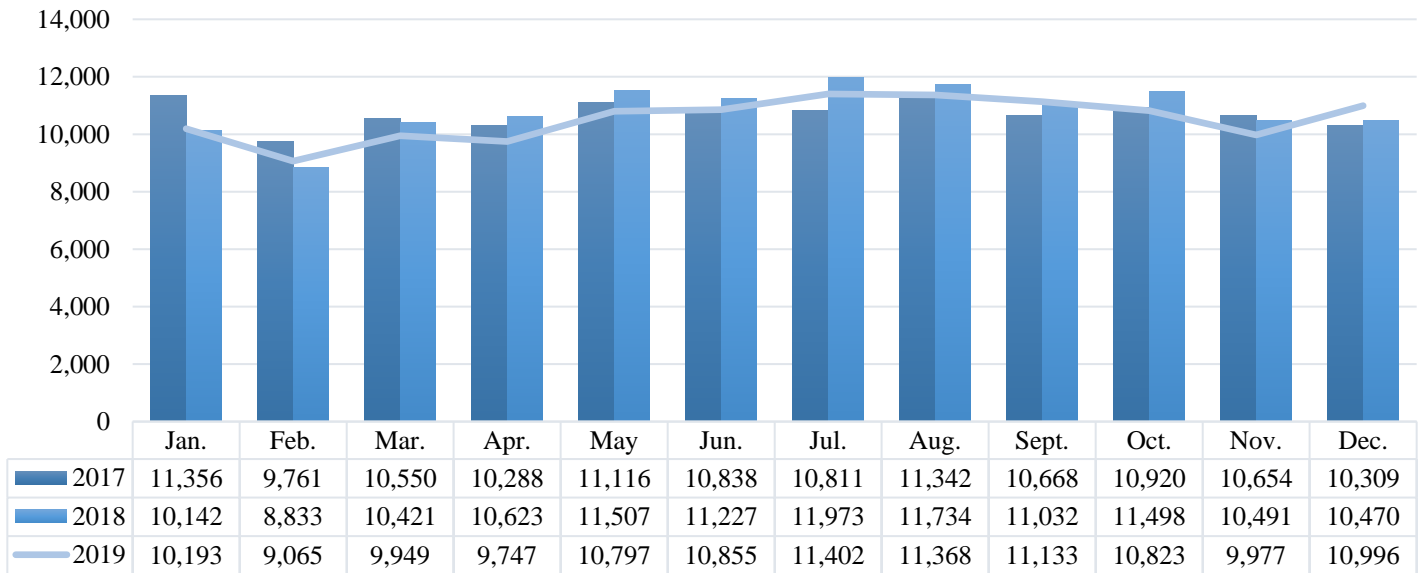

Section 2

Index Crime Offenses

Summary Analysis

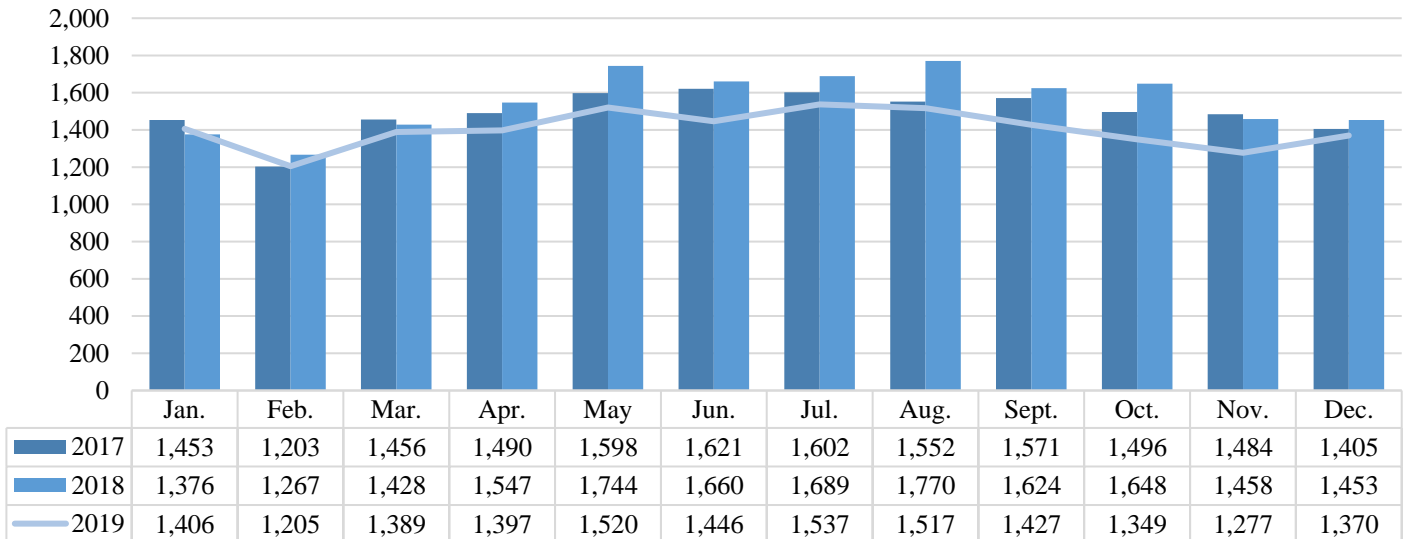

In 2019, law enforcement agencies reported 126,305 Index Crimes which was a 2.8% decrease compared to Index Crimes reported in 2018 (129,951). For 2018 and 2019, fewer crimes were reported in February than any other month, and the most crimes were reported in the month of July. In 2017, February, like 2018 and 2019, had the lowest number of crimes reported, but the highest number was reported in August (Figure 6).

Figure 6. Index Crimes, by Month (2017-2019)

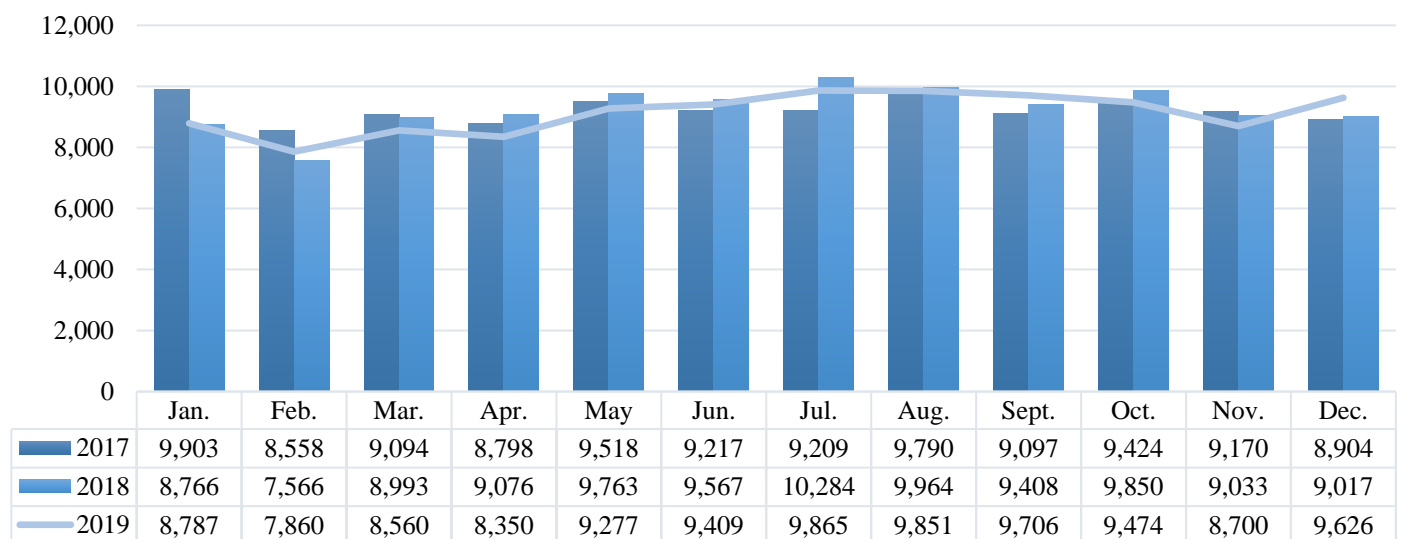

There were 16,840 Violent Crimes reported in Oklahoma in 2019; which is a 9.8% decrease compared to the number (18,664) reported in 2018 (Figure 7). The number of crimes reported in each month varied each year. The lowest number of Violent Crimes was for the month of February for all three years, but the highest number of crimes per month was consistently in a summer month each year (June 2017, August 2018, and July 2019).

Figure 7. Violent Crimes, by Month (2017-2019)

Law enforcement reported 109,465 Non-Violent Crimes in Oklahoma in 2019. Since Non-Violent Crimes account for 86.7% of Index Crimes, the trend in the number reported per month is similar to the trend per month for Index Crimes. February had the fewest Non-Violent Crimes reported than any other month, and the highest number of Non-Violent Crimes varied each year (Figure 8).

Figure 8. Non-Violent Crimes, by Month (2017-2019)

Murder

Definition: The unlawful killing of a human being in which the element of malice aforethought was present.

Any death due to a fight, argument, quarrel, assault, or commission of a crime is included in this category. This index offense, as in all other index offenses, is scored by law enforcement officials on the basis of their investigation and does not include the findings of a court or the filing decision of a prosecutor. Manslaughter, suicide, accidental death, and justifiable homicide are excluded from this category. Attempts to kill and assaults to kill are scored as assaults and not as murder.

Summary Analysis

Law enforcement agencies reported 249 murders in Oklahoma in 2019; which is an 18.6% increase since 2018. Murder accounted for 1.5% of Violent Crime and 0.2% of Index Crimes. In 2019, 139 murders were cleared by an arrest or exceptional means, resulting in a clearance rate of 55.8%. The most common weapon type reported was a Firearm (73.5%). The remaining weapon types were categorized as Objects (12.4%), Other (6.0%), Physical Weapons (5.2%), and Chemical (2.8%) (Table 7). In 21.7% of murders, another felony was related to the murder, and the most common murder-related felony was robbery. In non-felony related murders, the most common circumstance leading to the reported murder was “Other Arguments” (Table 5). Lastly, a loss of \$12,255 was reported due to murder.

The victim to offender relationship was identified for 75.5% of victims, and domestic murders (i.e. the murder of one family member by another) accounted for 20.1% of murders in 2019. Out of the 20.1% of domestic murders, 24.0% were intimate-partner murders (one spouse killing another) (Table 6). For this section, domestic murders were calculated using data collected in the UCR supplemental homicide form displayed in Table 58. Domestic murders in [Section 6](#) (Domestic Abuse and Hate/Bias Crime) are collected from a different form in the UCR Program. For victims of murder in 2019, 55.8% were between the ages of 20-44, 74.7% were Male, 55.4% were White, and 69.9% were Non-Hispanic (Table 4).

In 2019, law enforcement reported 160 persons (juvenile and adults) were arrested for the offense of murder. For those arrested, 43.8% of arrestees were between the ages of 25-39, 53.1% were White, 39.4% were Black, and 7.5% were American Indian. For Ethnicity, 10.0% were Hispanic, and 90.0% were Non-Hispanic.

Rape

Definition: The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without consent from the victim.

For the purpose of UCR, rape is divided into two categories: (1) rape by force; (2) attempts to rape. Assaults with the intent to commit forcible rape are also included in the index offense category of rape.

Summary Analysis

In 2019, there were 2,364 rapes reported in Oklahoma, and 96.2% of reported were reported as rape by force. Rape accounts for 14.0% of Violent Crime and 1.9% of Index Crimes. The highest number of rapes were reported in August, and the lowest number were reported in December (Figure 12). In 2019, 412 rapes were cleared by arrest or exceptional means, resulting in a clearance rate of 17.4%. There was \$42,768 worth of property lost during the offense of rape.

Law enforcement agencies reported that there were 166 individuals (juveniles and adults) arrested for the offense of rape. 56.0% of persons arrested were between the ages of 25-49, and 32.5% of individuals were under the age of 25. Agencies reported 65.7% of arrestees for Rape were White, 27.7% were Black, 6.0% were American Indian, and 0.6% were Asian. For Ethnicity, 12.0% were Hispanic, and 88.0% were Non-Hispanic.

Figure 11. 2019 Rape Distribution, by County

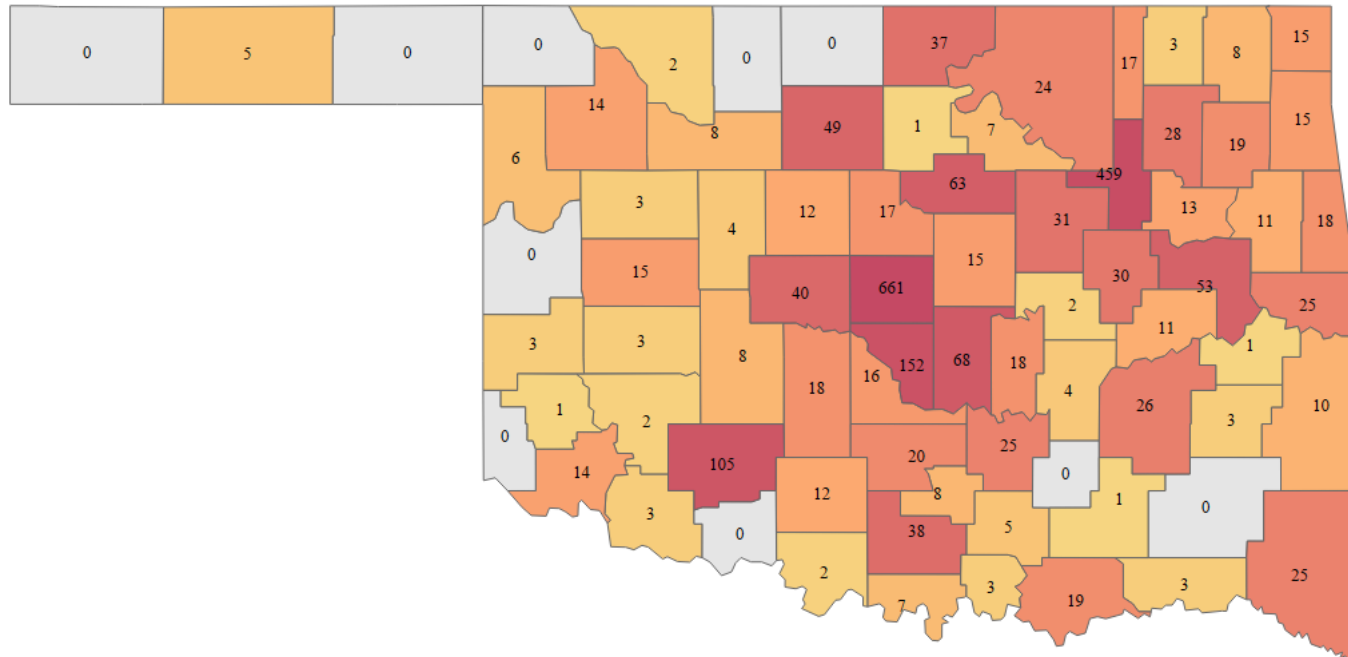

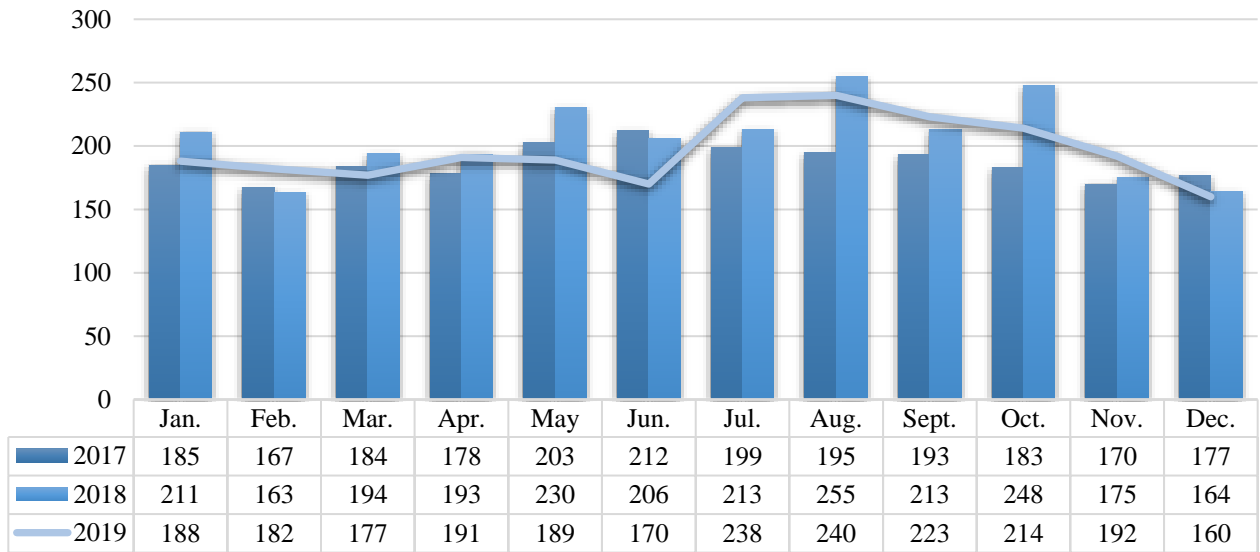

Figure 12. Rape, by Month (2017-2019)

Robbery

Definition: The felonious and forcible taking of property from the care, custody, or control of a person or persons by violence or putting the person in fear and against his/her will.

In order for the crime of robbery to take place, the victim must be present. Robberies are reported in the following categories: gun, knife or cutting instrument, other dangerous weapon, and strong-arm robbery.

Summary Analysis

Agencies reported 2,326 robberies in 2019; robberies account for 13.8% of Violent Crimes and 1.8% of Index Crimes. Out of the 2,326 robberies, 544 were cleared by arrest or exceptional means resulting in a 23.4% clearance rate. Most (26.7%) robberies were reported to be at a “Miscellaneous” location. Other common locations include Residence (26.2%), Highway (19.5%), and a Commercial House (16.9%) (Table 8). The total value stolen due to robbery was \$3,274,166, and the highest loss occurred for robberies at residences. The most common weapon type used was a gun (46.7%), and the second most common type of weapon reported were Personal Weapons (Hands, Fists, etc.). However, armed robbery (with any weapon) represented 63.2% of robberies (Figure 15).

Law enforcement reported 579 people were arrested for the offense of robbery. Of the 579, 41.6% were between the ages of 25-44. Lastly, 50.8% were White, 43.4% were Black, 5.4% were American Indian, 0.3% were Asian, and 0.2% were Hawaiian. For Ethnicity, 10.2% were Hispanic and 89.8% were Non-Hispanic.

Aggravated Assault

Definition: The unlawful attack or an attempt to attack through force or violence to do physical injury to another.

An aggravated assault may be committed with a gun, knife or other cutting instrument, other dangerous weapon, or through the aggravated use of hands, fists, or feet. Any assault, where no weapon is used and which results in minor injuries, is classified as non-aggravated assault. Non-aggravated assaults are not counted in the index crime totals.

Summary Analysis

Law enforcement agencies in Oklahoma reported 11,901 aggravated assaults in 2019; a 10.0% decrease from 2018. Aggravated Assaults make up 70.7% of Violent Crimes and 9.4% of Index Crimes. In 2019, 4,885 aggravated assaults were cleared by arrest or exceptional means, resulting in a clearance rate of 41.0%. The most aggravated assaults were reported in the month of May, and the fewest were reported in February (Figure 17). Other Dangerous Weapon (29.7%) was the most common reported weapon type for aggravated assault, however Gun (27.9%) and Hands, Fists, Feet (26.3%) were close in distribution (Figure 18). Since 2014, aggravated assaults increased on average by 0.2% per year. However, aggravated assaults with a gun have increased by an average of 8.6% each year, and from 2014-2019, aggravated assaults with a gun decreased only once by 1.0%.

In 2019, 3,680 individuals were arrested for aggravated assault. Of the 3,680, 46.5% were between the ages of 25-39. Additionally, 58.6% were White, 31.9% were Black, 8.8% were American Indian, 0.7% were Asian, 0.1% were Hawaiian, 7.6% were Hispanic, and 92.4% were Non-Hispanic.

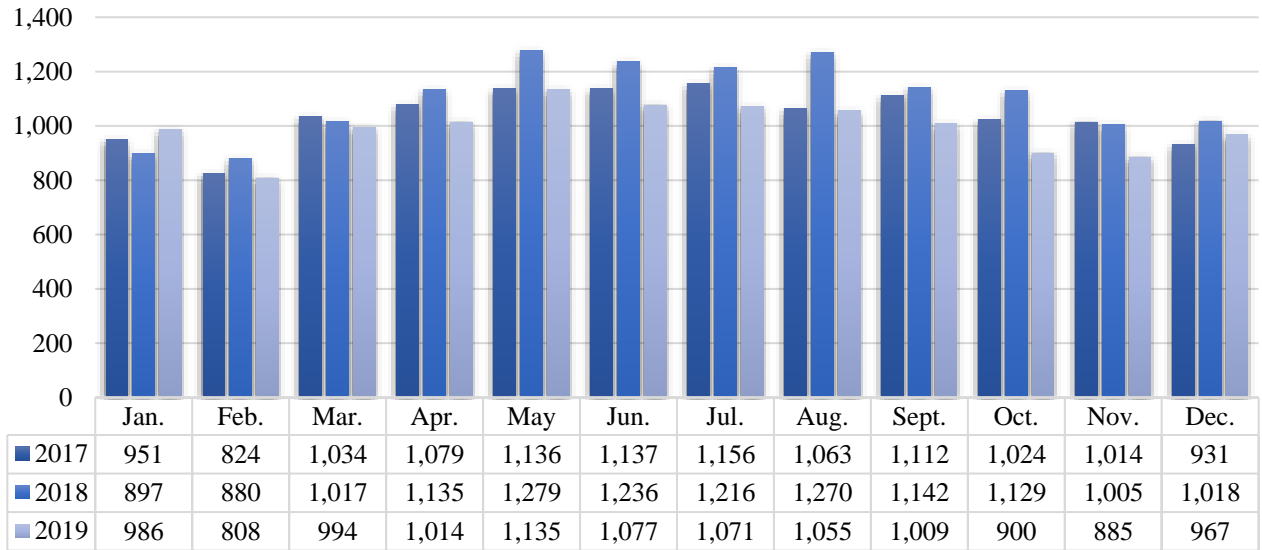

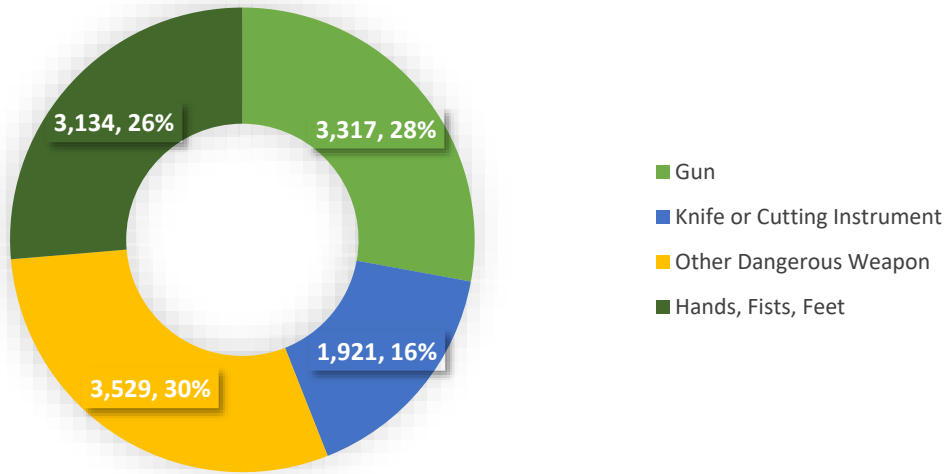

Figure 18. Aggravated Assault, by Weapon Type (2019)

Burglary

Definition: Any unlawful or attempted forcible entry of a structure to commit a felony or larceny, even though force may not have been used to gain entry.

For UCR purposes, the offense of burglary is divided into three categories: (1) forcible entry; (2) unlawful entry; (3) attempted forcible entry.

Summary Analysis

In 2019, law enforcement agencies reported 25,642 burglaries, a 3.7% decrease from 2018. Burglaries represented 23.4% of Non-Violent Crime and 20.3% of Index Crimes in Oklahoma. There were 2,260 burglaries cleared by arrest or exceptional means, which gave burglary a clearance rate of 8.8%. In 60.5% of burglaries, forcible entry was used, and 34.1% of burglaries were reported as unlawful entry (i.e. no force). The remaining burglaries (5.4%) were reported as attempted forcible entry (Figure 21). The reported value stolen for all burglaries was \$58,300,535, which is an 11.1% decrease from 2018. Property stolen in burglaries represented 22.7% of all property value stolen in 2019.

Reported burglaries were slightly more common during the day, with 33.0% reported during the day and 28.4% reported at night (Table 9). The time of occurrence was undetermined for the remaining 38.6% of reported burglaries. The majority (70.0%) of burglaries took place at a residence, and they occurred during the day or at an undetermined time. Residential burglaries had an overall loss value of \$34,840,233, and the highest loss value occurred for residential burglaries at an unknown time.

Additionally, law enforcement agencies reported 2,499 individuals were arrested for the offense of burglary. Of those arrested, 53.9% were between the ages of 25-44, and 11.8% were under the age of 18. For arrestees, 68.9% were White, 22.0% were Black, 8.6% were American Indian, and 0.4% were Asian. For ethnicity, 5.6% were Hispanic, and 94.4% were Non-Hispanic.

Larceny

Definition: The unlawful taking of property of another with intent to deprive him/her of ownership without the use of force, violence, or fraud.

For reporting purposes, larcenies are specifically categorized as crimes resulting from (1) pocket picking, (2) purse snatching, (3) shoplifting, (4) theft from a motor vehicle, (5) theft of motor vehicle parts and accessories, (6) bicycle theft, (7) theft from buildings, and (8) theft from any coin operated machine. Any remaining crimes of theft are classified in the “all other” category.

Summary Analysis

In 2019, 70,776 larcenies were reported by law enforcement agencies, and larceny comprises 64.7% of Non-Violent Crime and 56.0% of Index Crimes in Oklahoma. Larceny decreased by only 1.2% compared to 2018. Larceny had a clearance rate of 15.8% with 11,184 offenses cleared by arrest or exceptional means. While larceny, overall, did decrease by 1.2% in 2019, specific categories of larceny have increased by a higher percentage than the categories which have decreased. When compared to 2018, larceny for the categories of Pocket Picking, Purse Snatching, Shoplifting, and From Motor Vehicles had a combined increase of 2.8% in 2019. The four categories that increased represented 52.7% of all larcenies reported in 2019, and three out of the four categories increased in 2018 and 2019. There was a combined decrease of 5.2% in 2019 for the following categories: Motor Vehicle Parts & Accessories, Bicycles, From Buildings, From Coin Operated Machines, and All Others.

The most common types of larceny reported were All Other (29.4%), From Motor Vehicles (27.7%), and Shoplifting (24.4%) (Table 10). However, the larcenies with the highest dollar values reported were All Others, From Motor Vehicles, From Buildings, and Shoplifting. The value of property stolen due to the offense of larceny totaled at \$80,813,848 which is 31.5% of the total property loss value for 2019.

Law enforcement agencies reported 11,647 individuals were arrested for the offense of larceny. Juveniles accounted for 8.8% of arrests, and 55.3% of all arrestees were between the ages of 25-44. The majority (70.4%) were White, 22.9% were Black, 6.2% were American Indian, 0.4% were Asian, and 0.1% were Hawaiian. For ethnicity, agencies reported 4.6% were Hispanic, and 95.4% were Non-Hispanic.

In July of 2017, Oklahoma laws regarding larceny, property crimes, drug crimes, and others were changed by State Question (SQ) 780. SQ 780 changed the felony value of larceny offenses from \$500 or more to \$1,000 or more. It should be noted that for crime reporting purposes, all larcenies (misdemeanor and felony) are reported in this category, and they are not distinguished by misdemeanor or felony.

Motor Vehicle Theft

Definition: The unlawful taking or attempt to take a motor vehicle.

The term “motor vehicle” includes those self-propelled vehicles which run on a land surface and not on rails. Thefts of farm equipment, bulldozers, airplanes, and construction equipment are not included in the definition of a motor vehicle. Joyriding is included in this category. Motor vehicle theft is divided into three categories: (1) autos; (2) trucks and buses; and (3) other vehicles.

Summary Analysis

Law enforcement agencies reported 13,047 motor vehicle thefts; motor vehicle thefts decreased by 0.1% compared to 2018. Motor vehicle thefts are 11.9% of Non-Violent Crimes and 10.3% of Index Crimes. In 2019, motor vehicle thefts had a clearance rate of 12.0% with 1,565 offenses cleared by arrest or exceptional means. “Autos” were the most common (61.2%) type of motor vehicle theft reported, and trucks and buses were the second (23.1%) most common type (Figure 29).

The total value of motor vehicle theft in 2019 was \$114,340,385; it is 44.5% of all property stolen in 2019. The average value of motor vehicles stolen in 2019 was \$8,763.73. Law enforcement recovered 8,525 motor vehicles, resulting in a recovery rate of 65.3%.

In 2019, 1,373 individuals were arrested for motor vehicle theft, and 13.3% of those individuals were juveniles. Most arrestees (55.6%) were between the ages of 25 and 44. Most individuals arrested were White (68.2%), but 22.4% were Black, 8.7% were American Indian, 0.6% were Asian, and 0.1% were Hawaiian. For ethnicity, 8.5% were Hispanic, and 91.5% were Non-Hispanic.

Arson

Definition: Any willful or malicious burning, or attempt to burn, with or without intent to defraud.

Arson applies only to those fires determined through investigation to have been willfully or maliciously set. Attempts to burn are included in the arson report, but fires of suspicious or unknown origin are not. For the purposes of UCR, index crimes only include: murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft. Arson data can be a part of an index crime that has been reported, but it is not included in the index crime totals to prevent double counting a crime.

Summary Analysis

Agencies reported 712 offenses of arson in 2019. Arson had a clearance rate of 20.6% with 147 offenses cleared by arrest or exceptional means. In 53.1% of offenses, the law enforcement agencies reported the arson to be structural. The remaining arsons were categorized as mobile (20.5%) and other (26.4%) (Table 11). The total estimated property damage due to arson was \$11,941,528, a 40.8% increase compared to 2018 (\$8,483,587).

In 2019, 191 individuals were arrested for the offense of arson, and 18.3% of those individuals were juveniles. For arrestees, 68.1% were White, 23.0% were Black, and 8.9% were American Indian. Agencies reported 4.2% of arrestees were Hispanic, and 95.8% were Non-Hispanic.

The guidelines used by fire departments to report arson to the State Fire Marshal's Office differ from those in which the UCR Program obtains its data from law enforcement agencies. For more information on arson, please contact someone with the Oklahoma Fire Incident Reporting System (OFIRS) at:

Property Stolen and Recovered

Section 3

Summary Analysis

Law enforcement agencies report supplemental data on crimes that involve money and/or property stolen. In 2019, agencies reported a total loss value of \$256,783,957; this was a decrease of only 0.2% or \$481,023 from 2018. Agencies reported \$88,595,065 of the amount lost was recovered resulting in a recovery rate of 34.5% (Table 12). The amount recovered was \$3,980,392, or +4.2%, more than what was recovered in 2018.

The highest dollar value loss was in the category of vehicles, and the lowest dollar loss was for the category of livestock (Table 12). Vehicles had the highest recovery rate (65.5%) and currency had the lowest recovery rate (1.6%).

Table 12. Property Values Stolen and Recovered, by Type

Arrest and Clearance Data

Section 4

Clearance Rate Data

Summary Analysis

For crime reporting purposes, an index crime is considered cleared when: (1) a law enforcement agency has identified the offender; (2) there is enough evidence to charge the offender; and (3) the offender is actually taken into custody. The arrest of one person may clear several crimes or the arrest of several persons may clear only one crime. A crime may also be reported as cleared by exception if some element beyond the control of law enforcement is present (e.g., death of offender). Clearance rate is reported independent of the arrest data in the following section (see Glossary).

In 2019, the overall clearance rate for Index Crimes was 16.6% which is a 0.5% decrease from 2018. Violent crimes had a clearance rate of 35.5%, and murder had highest clearance rate (55.8%) out of all violent crimes (Table 14). Non-violent crimes had an overall clearance rate of 13.7%, and larceny had the most crimes cleared (15.8%).

Table 14. Index Crimes Clearance Rates (2017-2019)

Offense	2017			2018			2019

Overview of All Arrests

Summary Analysis

The Oklahoma UCR Program requests the monthly submission of data concerning persons arrested in Oklahoma. Arrests are reported for both Part I and II crimes. A person is counted on the monthly arrest report each time he/she is arrested, and the same person may be arrested several times during the reporting period. If a person is arrested for multiple crimes, only the most serious crime will be reported on the arrest report.

Oklahoma law enforcement reported 107,518 arrests in 2019, a 1.2% decrease from 2018. When compared to five years (2015) prior, arrests have decreased 12.7%; since 2010, arrests decreased 32.1% (Figure 32). On average, arrests decreased 4.2% each year from 2010 to 2019. In 2019, 18.7% of all arrests were for index crimes, and alcohol-related arrests accounted for 20.5% of arrests.

Figure 32. All Arrests, 2010-2019

Overview of Juvenile Arrests

Summary Analysis

In 2019, 8,627 juveniles were arrested which accounted for 8.0% of all arrests. Juvenile arrests decreased by 13.9% compared to 2018, 36.5% compared to 2015, and 54.5% compared to 2010. From 2010-2019, juvenile arrests decreased, on average, by 8.4% per year (Figure 33).

In 52.0% of juvenile arrests, the juvenile was Referred to Juvenile Court or Probation, and 45.0% were Handled within the Department and Released. The remainder of juvenile arrestees were Referred to Criminal or Adult Court (3.0%) or Referred to a Welfare Agency (0.2%) (Figure 34).

Drug-related and alcohol-related arrests accounted for 11.6% and 4.1% of juvenile arrests, respectively. The most common offenses at arrest were All Other Offenses and Larceny. The majority (65.8%) of juvenile arrestees were reported as male, and the most reported age or age range was 13-14 (25.0%). However, the age 16 was reported for 23.9% of arrests, and 17 was reported for 24.2% of arrests. Law enforcement agencies reported 60.7% were White, 32.0% were Black, 6.8% were American Indian, 0.4% were Asian, and 0.1% were Hawaiian. For ethnicity, 88.7% were reported as Non-Hispanic, and the remainder were reported as Hispanic. Table 15 provides a breakdown of juvenile arrests by Offense, Sex, Age, Race, and Ethnicity.

Oklahoma County reported the highest number (34.7%) of juvenile arrests, and the agency who had the most (21.9%) juvenile arrests was Oklahoma City Police Department. For Oklahoma City Police Department, the offenses of runaway (337), disorderly conduct (322), and larceny (229) comprised 47.1% of their arrests.

Overview of Adult Arrests

Summary Analysis

In 2019, 98,891 adults were arrested accounting for 92.0% of all arrests. Adult arrests increased 0.1% in 2019 compared to 2018, decreased 9.7% compared to 2015, and decreased 29.0% from ten years (2010) prior (Figure 35). From 2010-2019, adult arrests decreased, on average, 3.7% each year.

For adult arrests, 18.4% were reported as an Index Crime arrest, and 37.5% of arrests were substance-related (drugs and alcohol). The majority (70.8%) of arrestees were male, and the age range of 18-24 had the most (20.7%) arrests. However, 54.4% of adults arrested were between the ages of 18-34. Agencies reported 69.7% were White, 21.0% were Black, 8.6% American Indian, 0.6% Asian, and 0.1% were Hawaiian. For ethnicity, 6.9% were Hispanic, and 93.1% were Non-Hispanic (Table 16).

The offense that had the most arrests (24.5%) reported was All Other Offenses, and Larceny was the second most common offense with 10.7% arrests. Oklahoma (24.5%) and Tulsa (19.7%) County had the most arrests, and Oklahoma City Police Department (16.3%) and Tulsa Police Department (14.0%) were the jurisdictions with the most arrests.

County Arrests by Category 2019

Table 17 provides a summary of arrest data for four major categories (defined below), and it includes data reported by county for each reporting agency within that county (sheriff's offices and police departments).

- Index Crimes:** Murder, rape robbery, aggravated assault, burglary, larceny, and motor vehicle theft. This category DOES NOT include manslaughter and other assaults (not aggravated).
- Drug-Related:** All drug arrests reported as sales/manufacturing and possession.
- Alcohol-Related:** The reported alcohol related offenses including driving under the influence, liquor law violations, and drunkenness.
- Total Arrests:** Total arrests includes index crimes, drug-related, alcohol-related, and all other offenses in which juveniles and adults were arrested.

Law Enforcement Officers Killed or Assaulted

Section 5

Officers Killed or Assaulted

The Oklahoma UCR Program requires the collection of statistical information relating to law enforcement officers killed in the line of duty and the number assaulted while on duty.

In 2019, law enforcement reported zero (0) officers were killed as the result of a felonious act, and zero (0) officers were killed as the result of an accident or negligent act. A total of 843 officer assaults were reported, representing a 15.3% decrease from 2018. For most officer assaults (73.5%), the officer(s) was reported to be in a One Man Vehicle either Alone (24.3%) or Assisted (49.2%) (Table 18). The majority (27.2%) of officer assaults occurred when the officer(s) was responding to a Disturbance Call (Table 18). Other common circumstances for officer assaults include: Handling, Transporting Prisoner (19.8%); and All Other (17.0%) (Figure 36).

Almost half (47.9%) of officers assaults were between 4:00 P.M. and 12:00 A.M. Most (80.4%) officer assaults were committed by Personal Weapons (Hands, Fists, Feet, etc.), and the second most common type of weapon was Other Dangerous Weapon (14.7%) (Figure 38). Lastly, 73.2% of officer assaults did not result in an injury on the officers, and the remaining (26.8%) had an injury (Figure 39).

Domestic Abuse and Hate/Bias Crime

Section 6

Domestic Abuse

Definition: Threatening, causing or attempting to cause serious physical harm between family or household members.

Domestic abuse includes the following offenses: murder, sex crimes, assault, and assault and battery. Family or household members are defined as current or former spouses, parents, foster parents, children, persons otherwise related by blood or marriage, or living in the same household or who formerly lived in the same household. Also included in this category are persons in dating relationships (defined as courtships or engagement relationships) or someone with whom they had a child. It also includes the elderly and handicapped.

Domestic abuse increased by 1.6% in 2019 compared to 2018. From 2010-2019, an average of 24,681 reports of domestic abuse were reported each year, and the highest number of reports occurred in 2019 (Figure 40). Compared to 2010, domestic abuse has increased 3.3%, and compared to five years (2015) prior to 2019, it has increased 8.7%. Assault and Battery is the most common type of reported domestic abuse, representing 79.6% of all domestic abuse in 2019 (Table 19).

The highest number of domestic abuse reports occurred in the month of August, and the lowest number were in February (Figure 41). Overall, domestic abuse reports were nearly evenly distributed between the days of the week with an average of 3,756 reports on each day. However, 49.1% of domestic abuse reports for murder were reported on Friday, Saturday, and Sunday (Figure 42). Half of all domestic abuse reports were between the hours of 15:01-24:00 (3 pm to midnight).

Hate/Bias Crimes

Definition: A criminal offense committed against a person or property, which is motivated by the offender’s bias against race, religion, ethnic/national origin, sexual orientation, or disability.

Section 7

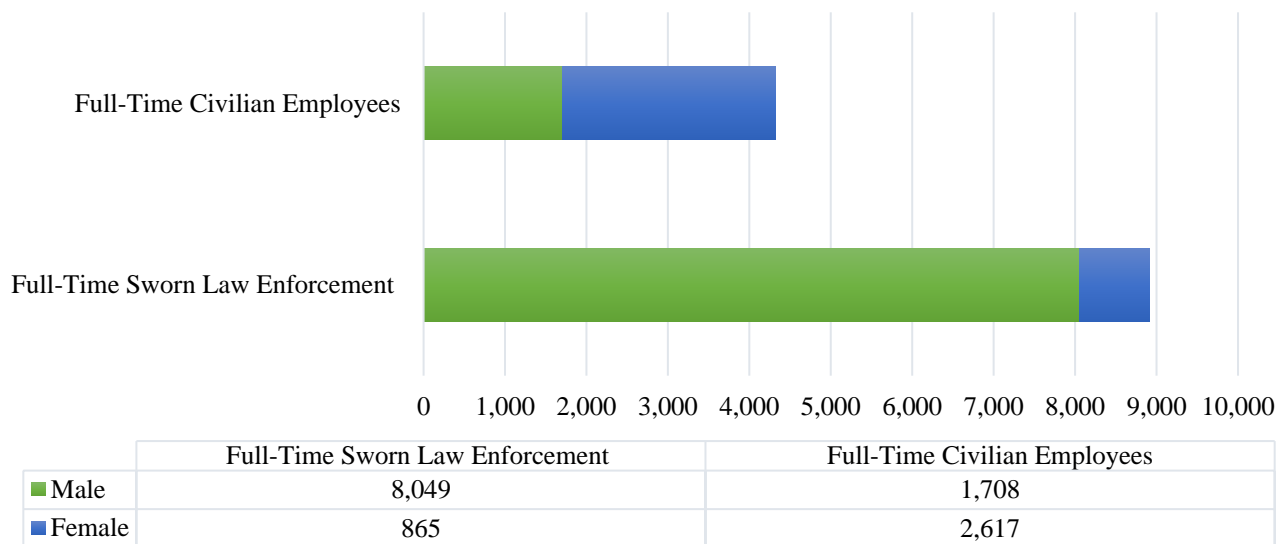

Law Enforcement Employee Data

Definition: Persons employed as full-time sworn officers and full-time civilian employees.

Figure 45 represents a compilation of forms sent to all reporting law enforcement agencies throughout the state on an annual basis. With the exception of persons who perform guard or protection duties and who are not paid from police funds (i.e., school crossing guards, special officers, and merchant police), these figures reflect the number of full-time sworn personnel with full arrest power, including the chief, sheriff, commissioner, and superintendent. The figures do not include employees of law enforcement agencies which do not contribute to the UCR Program.

Civilians include clerks, radio dispatchers, meter maids, stenographers, mechanics, etc., provided these persons are full-time employees of the agency. Neither employees who are compensated from a source other than police funds, nor those receiving salaries from federal grants are included. In 2019, Oklahoma’s law enforcement rate was 3.3 per 1,000 residents compared to 3.2 per 1,000 for 2018.

Figure 45. Full Time Law Enforcement and Civilian Employees

Contributors

The section beginning on page 7-4 (Table 23) is a listing of law enforcement agencies who report to the Oklahoma UCR Program. The listing is sorted alphabetically by county first, then by the Originating Agency Identifier (ORI) assigned to the law enforcement agency by the Federal Bureau of Investigation (FBI).

The section (Table 24) following Table 23 is a specific breakdown of index crime offenses by each contributing law enforcement agency for the years 2017, 2018, 2019. Table 24 is sorted in the same fashion as Table 23. Please note, the total number of crimes by county are shaded in gray, and the number of crimes per agency for a specific county will be above the county total. The Oklahoma UCR Program publishes the total number of offenses reported by the law enforcement agency, and the Oklahoma UCR Program does not estimate any data for an agency who was not consistent and/or did not report data for that calendar year.

[†]Arson offenses in this contributor report have not been included in the Total Crime Index or Crime Rate per 1,000 figures.

§ New reporting agency.

‡ Failed to report.

*Population numbers from tribal agencies, state agencies, and campus enrollment figures are not included in the state's population total. These figures are only used to tabulate crime rate.

Crime rates for colleges/universities/schools are not calculated for this publication

It is important to note that while there are no incidents and/or arrests reported for the Oklahoma State Bureau of Investigation (OSBI), this does not reflect the number of investigations conducted during 2019. By O.S. 74-150.2 and O.S. 74-150.5, the Oklahoma State Bureau of Investigation serves primarily to assist other agencies and conducts investigations upon request from other agencies.

In order to prevent counting the same incident twice, the OSBI does not report incidents where they were requested to assist as these incidents should be reported by the original requesting agency.

Contributor Participation

Section 8

Contributor History

There were 427 law enforcement agencies in 2019 that provided data to the Oklahoma UCR Program.

The following is a list of agencies that reported partial data or failed to report data during calendar year 2019. Statistics in this publication are reported as they are received from an agency during the calendar year and data received is not calculated or averaged to compensate for partial or missing data. For this reason, there may be discrepancies when comparing data in this publication with data in *Crime in the United States*.

Statement of Regulations

Section 9

Statement of Policy

The following regulations will be observed by this agency concerning the release of statistical information. Employees of the agency will observe these procedures and will not deviate from this policy without the express consent of the Director of the Oklahoma State Bureau of Investigation. All information to be released will originate from the Field Services Unit of the Oklahoma State Bureau of Investigation.

Regulations

1. This agency will publish an annual report reflecting crime in Oklahoma. This report will be distributed to the Governor, members of the Legislature, the Attorney General, law enforcement agencies, the State Library System, and to any agency or committee dedicated to law enforcement or criminal justice work. An electronic copy of the report will be made available on the OSBI website.
2. Published annual reports will be released to the above named agencies at no charge. They will then be released to individuals or agencies extraneous to the criminal justice community who shall pay a fee of five dollars (\$5.00) for every copy received.
3. UCR Information Requests:
 - A. Information contained in the published annual report may be released via telephone, letter, etc., to any interested party.
 - B. All requests for unpublished information from the agencies or individuals extraneous to the criminal justice community should be submitted to the Office of Criminal Justice Statistics (OCJS). In accordance with the Oklahoma Open Records Act, all requests may be subject to a charge. Standard practice is to provide data in a PDF or hard copy format to prevent manipulation of data. Exceptions to this practice can be submitted to the director of the OCJS for consideration.
 - C. Law enforcement agencies may receive interim, unpublished, specialized reports identifying their agency only, provided the request is reasonable. Law enforcement agencies may also receive their respective county totals along with state or regional totals. All requests should be directed to the supervisor of the Field Services Unit.

Appendix

Section 10

Glossary of Terms

Adult - For UCR purposes, a person 18 years of age or older.

Arrest Rate - The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. The arrest rate is computed in the same manner as crime rates.

Clearance Rate - The number of clearances reported for Part I offenses. This rate is determined by dividing the number of clearances by the number of offenses.

Cleared By Arrest - For UCR purposes, an offense is cleared by arrest or solved when at least one person is (1) arrested, (2) charged with the commission of the offense, and (3) turned over for prosecution.

Crime Index - The sum total of the seven major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. Crime classifications used in the index are: (1) murder, (2) forcible rape, (3) robbery, (4) felonious assault, (5) breaking and entering, (6) larceny (theft), and (7) motor vehicle theft. Each of these offenses is referred to as an "index crime."

Crime Rate - The number of index crimes reported for each unit of population, generally 100,000. Crime rates are computed for communities by dividing the number of index crimes by the population and multiplying the answer by 100,000.

Environmental Factors – Conditions which affect the amount and type of crime that occurs in a geographical area.

Exceptional Clearance - A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against the offender.

Juvenile - For UCR purposes, a person under the age of 18.

Non-Violent Crime - Consists of the index crimes of breaking and entering, larceny (theft) and motor vehicle theft.

Part I Offenses - The first of two main categories of crime classes comprising a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and/or occur with greater frequency. The monthly tabulation of Part I offenses provides a count of "offenses known."

Part II Offenses - The second of two main categories of crime classes comprising a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature and/or occur less frequently. Monthly tabulations of Part II offenses are limited to arrest information only.

Violent Crime - Consists of the index crimes of murder, rape, robbery, and aggravated assault.
