Office of Criminal Justice Statistics

CRIME IN OKLAHOMA

2020

State of Oklahoma

J. Kevin Stitt, Governor

Oklahoma State Bureau of Investigation

Ricky Adams, Director

Bryan Rizzi, Deputy Director

September 1, 2021

This publication is issued by the Oklahoma State Bureau of Investigation (OSBI) under the authority of Director Ricky Adams. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.

The report has been prepared by the Office of Criminal Justice Statistics. Crime data for this report were provided by the Field Services Unit, Information Services Division. Research staff would like to thank the following individuals for their assistance and support in creating this report.

Information Services Division Director	Erin Henry
Section Manager of the Data Collection, Licensing and Reporting Section	Anne Simons
Field Services Unit Supervisor	Jim Ely
Field Services Unit	Aaron Gray Anita Wood Annie Gilbreath Corey Morris Derrie Fox Jacquelyn Cruise Jarel Murphey Shannen Stewart Talia Lane
Office of Criminal Justice Statistics	Kara Miller Derek Still Nicholas Massey
IT Staff	Nicole Bridgeford Jack Keisorn Jeremy Burgin Cara James

The OSBI would also like to thank the 432 law enforcement agencies that contributed data to the Uniform Crime Reporting Program by using the Summary Reporting System or the State Incident-Based Reporting System (SIBRS).

Introduction

Background

The Uniform Crime Reporting (UCR) Program was developed by law enforcement as a tool for operational and administrative purposes. Under the guidance of the International Association of Chiefs of Police (IACP), the UCR Program was developed in 1930. Prior to that date, no comprehensive system of data collection existed on a national scale because the terminology used to define criminal behavior in criminal statutes varied among states. To overcome this problem, IACP developed standard definitions for crimes. At that time, law enforcement began to collect crime data using standard definitions created by the UCR Program. However, it was not until the 1960s that funds became available to develop state-level data collection systems. The Oklahoma State Bureau of Investigation (OSBI) assumed the statewide administration of the UCR Program on September 1, 1973 and began publishing annual reports of *Crime in Oklahoma*. This 47th annual report includes crime data collected in the 2020 calendar year.

Crime Factors

This report includes the most accurate and current crime data available for the State. Data provided in this report is based on offenses known to law enforcement; however, victims do not always report crime to law enforcement. For that reason, the OSBI cautions against using the data reported to make direct comparisons among jurisdictions in the State. It is also important to note key differences between offense and arrest data. Offense data is reported for an event which may include several offenses, multiple offenders, and/or multiple victims. As a result, direct comparisons between offense and arrest data may be misleading. In addition, other factors may influence the amount of crime reported across jurisdictions, including:

- Population density and urbanization
- Composition of the population, particularly in reference to age
- Relative stability of population, especially concerning commuting patterns
- Transportation and highways
- Socioeconomic conditions, such as median household income, poverty, and unemployment
- Cultural factors: educational, recreational, and religious makeup
- Family dynamics and structure
- Climate
- Effective strength of local law enforcement
- The administrative and investigative efficiency of the local law enforcement agency
- Policies of the prosecuting officials and the courts
- Public opinion toward crime
- Crime reporting practices of victims and citizens.

Objectives

The fundamental objectives of the Oklahoma UCR Program are:

- (1) Inform the Governor, Legislature, other governmental officials, and the public as to the nature, magnitude, and trends of crime in Oklahoma.
- (2) Provide law enforcement administrators with statistics for administrative and operational use.
- (3) Provide offender demographics in order to find the proper focus for crime prevention and law enforcement.
- (4) Provide data and statistics for research to improve the efficiency, effectiveness, and performance of criminal justice agencies.
- (5) Provide the FBI with complete UCR data to be included in the national publication *Crime in the United States*.

Legislative Mandate

The *Crime in Oklahoma* report includes information provided by law enforcement agencies for known offenses. The Oklahoma Legislature mandated the responsibility and authority for UCR data collection and dissemination to the Oklahoma State Bureau of Investigation. Requirements established through [Title 74 O.S. §150.10](#) are as follows:

A uniform crime reporting system shall be established by the Oklahoma State Bureau of Investigation. The Director shall have the power and duty, when directed by the Commission, to collect and gather such information from such state agencies as may be prescribed in Section 150.1 et seq. of this title.

The Oklahoma State Bureau of Investigation is hereby designated as the agency which shall collect, gather, assemble, and collate such information as is prescribed by this section.

1. All state, county, city, and town law enforcement agencies shall submit reports to the Oklahoma State Bureau of Investigation on forms prescribed by the Bureau. The reports shall contain the number and nature of offenses committed within their respective jurisdictions, the disposition of such matters, and such other information as the Bureau may require, respecting information relating to the cause and prevention of crime, recidivism, the rehabilitation of criminals, and the proper administration of criminal justice.
2. Any information taken from such information, data, records or reports submitted to the uniform crime reporting system and used to prepare the Uniform Crime Report shall be an open record pursuant to the Oklahoma Open Records Act. Requests for such information shall be submitted to the Bureau.
3. Any request under the Oklahoma Open Records Act for any other information, data, records or reports submitted to the uniform reporting system by the Oklahoma State Bureau of Investigation shall be directed to the Bureau pursuant to Section 24A.20 of Title 51 of the Oklahoma Statutes. Such information, data, records or reports shall be considered investigative records of the Bureau and shall be subject to discovery and disclosure only in compliance with Section 150.5 of this title or other applicable statute.
4. Any request under the Oklahoma Open Records Act for any information, data, records or reports submitted by a law enforcement agency other than the Oklahoma State Bureau of Investigation to the uniform crime reporting system shall be directed to the law enforcement agency submitting the information, data, records or reports to the Bureau unit pursuant to Section 24A.20 of Title 51 of the Oklahoma Statutes. Such information, data, records or reports shall be considered law enforcement records and shall be subject to discovery and disclosure only in compliance with Section 24A.8 of Title 51 of the Oklahoma Statutes or other applicable statute.

Upon receipt of such information the Director shall have such data collated and formulated and shall compile such statistics as the Director may deem necessary in order to present a proper classification and analysis of the volume and nature of crime and the administration of criminal justice within this state.

Refusal or persistent failure of any law enforcement agency to submit reports required by this section may result in discontinued access to Bureau information and assistance.

Reporting and Collection Procedures

Under Title 74 O.S. §150.10, all state, county, city, and town law enforcement agencies are required to submit crime data to the OSBI. Law enforcement agencies report the number of known offenses for the following categories: murder, manslaughter, rape, robbery, assault, burglary, larceny, and motor vehicle theft. Crime counts include “actual offenses known” without regard to (1) whether anyone is arrested for the crime; (2) whether the stolen property is recovered; (3) the local prosecution policy; and, (4) any other restrictive considerations. Law enforcement agencies also report the number of crimes cleared, either by arrest or exceptional means (a crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against the offender). Law enforcement also provides information on stolen property, circumstances surrounding all homicides, and circumstances surrounding assaults on law enforcement officers.

In addition, monthly reports for all persons arrested on all criminal offenses are collected. These reports provide demographic information on each person arrested, with adult and juvenile arrests reported separately. As required by Titles 74 O.S. §150.12B and 21 O.S. §850, UCR offenses reported are also utilized to identify domestic abuse and hate/bias motivation crimes.

Verification

A primary consideration in the collection of criminal statistics in Oklahoma is the uniformity and accuracy of crime data. While the Field Services Unit does provide training and technical assistance to local law enforcement, the accuracy of crime data included in this report cannot be guaranteed. Incident reports uploaded from external records management systems must meet the state's minimum requirements for submission before being accepted into the state repository. Incident reports that are not validated or properly corrected are not included in this report. Throughout the year, field service representatives work with reporting agencies to correct reporting errors. Ongoing communication (phone, email, and in person) with reporting agencies is essential to ensure the accuracy and quality of reporting.

Crime Reporting in Oklahoma

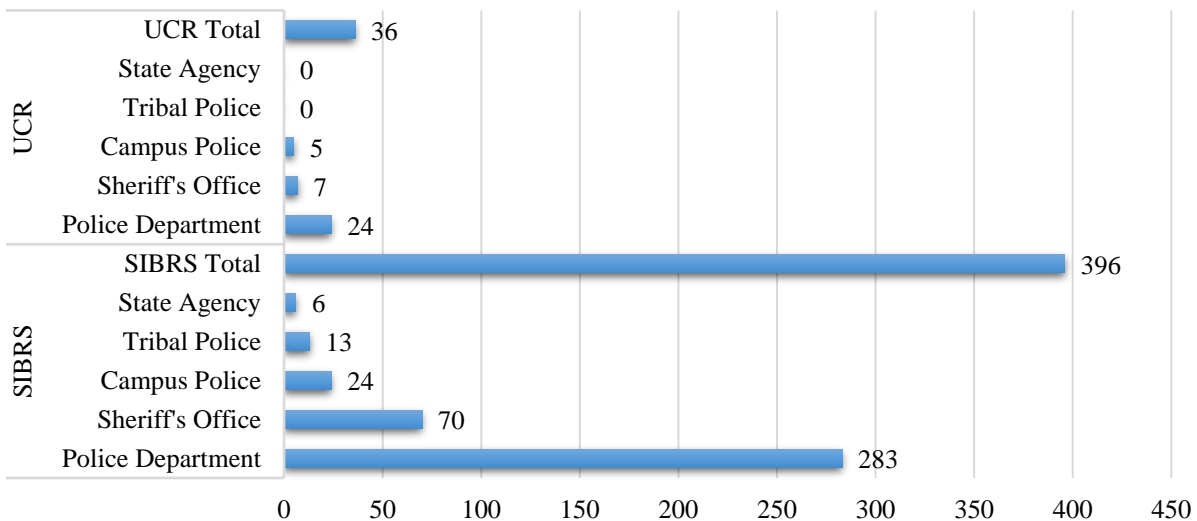

On September 1, 1973, OSBI assumed the statewide administration of the UCR Program in Oklahoma. When the OSBI assumed administration of the program, there were approximately 260 agencies reporting their crime statistics to the OSBI. As of December 31, 2020, there are 432 local law enforcement agencies reporting crime statistics, and the OSBI subsequently submits this crime data to the FBI.

Traditionally, the FBI’s UCR Program accepted data via the Summary Reporting System (SRS). However, as of January 1, 2021, the FBI is no longer accepting SRS data and now only accepts incident-based reporting system data. With the changes at the federal level, local law enforcement agencies in Oklahoma have been transitioning from submitting their crime data via SRS to submitting data into Oklahoma’s State Incident-Based Reporting System (SIBRS), which OSBI maintains in addition to the SRS.

In the SRS data collection, data for only eight crimes is collected, and there is a Hierarchy Rule in place to determine which offense is reported when an incident involves more than one. For example, according to the Hierarchy Rule, if a Murder and an Aggravated Assault occur in a single incident, only the Murder is reported into the SRS database. In contrast, the incident-based reporting system collects data for 53 different crimes and instead of using the Hierarchy Rule, SIBRS allows reporting up to ten offenses in a single incident. In addition, SIBRS data collection is capable of linking an arrest directly to an incident, and the reporting agency can specify if the crime was attempted or completed. Lastly, the SIBRS data collection gathers more information for the incident including but not limited to victims, offenses, and the offenders. With crime reporting changing, this publication (*Crime in Oklahoma*) will be changing as well. *Crime in Oklahoma, 2021* will be written to report SIBRS data instead of summary data.

Of the 432 agencies reporting crime statistics at the end of 2020, 91.7% (396) were reporting their data into the SIBRS database (Figure 1), and 69.7% of Oklahoma’s population was covered by a SIBRS agency. Of the 123,194 Index Crimes reported in 2020, 60.7% were reported by a SIBRS agency. The Office of Criminal Justice Statistics has completed a handful of projects using SIBRS data, including gun-related murder and aggravated assault. Previous projects using SIBRS data can be found [here](#).

Figure 1. Number of SIBRS and UCR Agencies, 2020

Classification of UCR Offenses

Part I Definitions

Offense data consists of information extracted from reports of Part I offenses submitted by law enforcement agencies in the State of Oklahoma.

1. Criminal homicide - The willful killing of a human being.
2. Rape - The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without consent from the victim.
3. Robbery - The forcible taking of the property of another against his/her will by force or fear, including attempts.
4. Aggravated assault - The unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury, including attempts.
5. Burglary (breaking and entering) - The unlawful or forcible entry of any structure to commit a felony or larceny, including attempts.
6. Larceny (theft) - The unlawful taking of property with intent to deprive another of ownership.
7. Auto theft (or other motor vehicle) - The larceny or attempted larceny of a motor vehicle.
8. Arson - Willful or malicious burning with or without intent to defraud, including attempts.
9. Human trafficking (commercial sex acts) - Inducing a person to take part in commercial sex acts.
10. Human trafficking (involuntary servitude) - Obtaining a person, and subjecting them to involuntary servitude, peonage, debt bondage, or slavery.

Part II Definitions

All other crimes not classified as Part I offenses are classified as Part II offenses. These crimes are only reported when an arrest has been made.

11. Assaults (other, not aggravated) - Assaults or attempted assaults that are simple and minor in nature.
12. Forgery/counterfeiting - Making, altering, uttering, or possessing, or attempts to make, alter, or possess with intent to defraud.
13. Fraud - Fraudulent conversion of another's money or property by false pretenses.

14. Embezzlement - Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.
15. Stolen property - All offenses of buying, receiving, and possessing stolen property, as well as all attempts to commit any of these offenses.
16. Vandalism - Willful or malicious destruction, injury, disfigurement, or defacement of property without consent of the owner or persons having custody or control.
17. Weapons (carrying, possessing, etc.) - All violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers and all attempts to commit any of the offenses.
18. Prostitution and commercialized vice - Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring or transporting women for immoral purposes, and all attempts to commit any of these offenses.
19. Sex offenses (except forcible rape, prostitution, and commercialized vice) - Statutory rape, offenses against chastity, common decency, morals, and the like, including attempts.
20. Drug abuse violations - All arrests for violations of state and local ordinances subdivided into the categories of possession and sale/manufacturing of narcotic drugs.
21. Gambling - Promoting, permitting, or engaging in gambling.
22. Offenses against family and children - Nonsupport, neglect, desertion, or abuse of family and children.
23. Driving under the influence - Driving or operating any motor vehicle while drunk or under the influence of liquor or drugs.
24. Liquor laws - State or local liquor law violations, except "drunkenness" and "driving under the influence."
25. Drunkenness - Consuming alcoholic beverages to the extent that one is mentally and physically impaired.
26. Disorderly conduct - Disturbing the public peace.
27. Vagrancy - Prohibiting a person from idling in a place or area (not reported in Oklahoma).
28. All other offenses - All other violations of state and local laws, except traffic violations.

29. Suspicion - Arrested for no specific offense, but released without formal charges filed (not reported in Oklahoma).
30. Curfew and loitering laws - Violations of curfew or loitering laws (applicable only to juveniles).
31. Runaway - Juveniles placed in protective custody as stipulated by local laws.

Index Crime Summary

Section 1

Index Crime in Oklahoma

In 2020, law enforcement agencies reported 123,194 Index Crimes (Murder, Rape, Robbery, Aggravated Assault, Burglary, Larceny (Theft), and Motor Vehicle Theft), a decrease of 2.5% from 2019 and a decrease of 5.2% compared to 2018. The largest increase (6.6%) in Index Crimes reported in 2020 occurred for the Violent Crime Category (Murder, Rape, Robbery, and Aggravated Assault). However, Violent Crime reported in 2020 was 3.8% lower than that reported in 2018. Table 1 shows the percent change of each Index Crime from 2018-2020.

Table 1. Index Crime Comparison, 2018-2020

Offense Type	Year	Number of Offenses	% Change
Murder	2020	287	+15.3%
	2019	249	+18.6
	2018	210	-14.6
Rape	2020	2,245	-5.0
	2019	2,364	-4.1
	2018	2,465	+9.8
Robbery	2020	2,293	-1.4
	2019	2,326	-15.9
	2018	2,765	-7.2
Aggravated Assault	2020	13,125	+10.3
	2019	11,901	-10.0
	2018	13,224	+6.1
Violent Crime Total	2020	17,950	+6.6
	2019	16,840	-9.8
	2018	18,664	+4.1
Burglary	2020	23,963	-6.5
	2019	25,642	-3.7
	2018	26,630	-5.5
Larceny (Theft)	2020	66,533	-6.0
	2019	70,776	-1.2
	2018	71,602	+1.6
Auto Theft	2020	14,748	+13.0
	2019	13,047	-0.1
	2018	13,055	+8.5
Non-Violent Crime Total	2020	105,244	-3.9
	2019	109,465	-1.6
	2018	111,287	+0.5
Index Crime Total*	2020	123,194	-2.5
	2019	126,305	-2.8
	2018	129,951	+1.0

*A collection of statistics regarding arson is shown separately and is not reflected in the Index Offense totals in this table.

When comparing the number of Index Crimes in 2020 to 10 years prior (2011), Index Crimes have decreased by 15.3%, and when compared to five years prior (2016), they have decreased by 6.6%. Since 2011, Violent Crimes have increased by 1.8%, and since 2016, they have increased by 2.2%. The overall downward trend of Index Crimes (Figure 2) is largely due to the decreasing number of reported Non-Violent Crimes. From 2011-2020, Non-Violent Crimes make up, on average, 86.9% of Index Crimes. Since 2011, Non-Violent Crimes have decreased by 17.6%, and since 2016, it has decreased by 7.9%.

Figure 2. Total Number of Violent, Non-Violent, and Index Crimes, 2011-2020

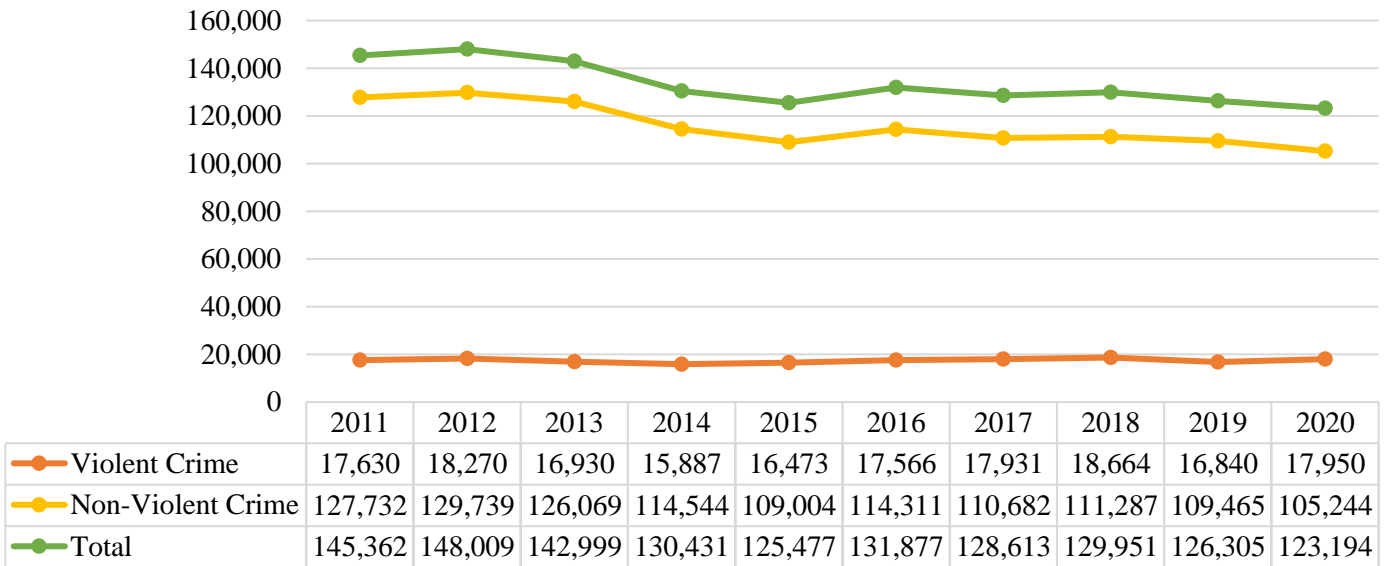

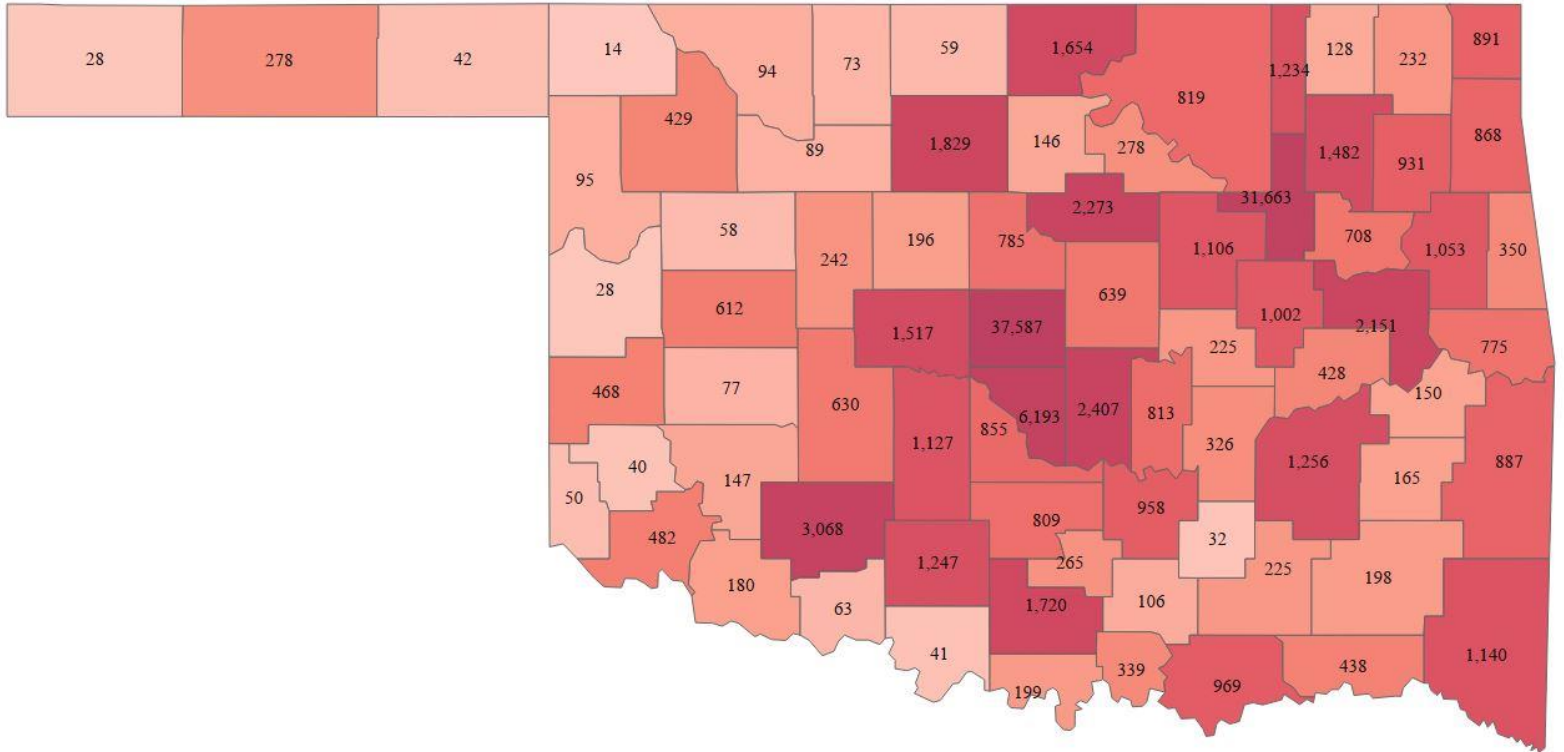

Figure 3 shows the distribution of Index Crimes across all counties in Oklahoma. For all maps in this publication, lighter shades indicate fewer crimes were reported in that county while darker shades indicate more were reported. If the county is grey, that indicates the county did not have any crimes reported for that crime category. The numbers within the county are the number of crimes reported for that county.

Figure 3. Index Crime by County, 2020

Violent Crime in Oklahoma

While the number of total Index Crimes reported has decreased from 2019 to 2020, the number of Violent Crimes has increased. In 2020, 17,950 Violent Crimes were reported, a 6.6% increase from 2019. Between 2011 and 2020, the number of Violent Crimes has fluctuated each year; however, the number of victims reported in 2020 was only 1.8% higher than the number reported 2011. Of the four types of Violent Crimes, only two, Murder and Aggravated Assault, had an increase from 2019 by 15.3% and 10.3%, respectively.

When compared to 2011, Murder has increased by 31.1%, and when compared to murder in 2016, it has increased by 20.1%. Even though murder increased the most in 2015, the number of murders in 2020 is the highest it has been in 10 years.

Due to the FBI changing the definition of Rape in 2013, a comparison to 2011 would be an inaccurate representation. However, Rape in 2020 decreased 5.0% from 2019, although when compared to 2013, Rape has increased 27.4%.

Since 2017, Robbery has decreased each year, and in 2020, it decreased by 1.4%. Compared to 2011, Robbery has decreased by 30.2%. While Violent Crime has fluctuated each year since 2011, Robbery has an overall decreasing trend for the same time period.

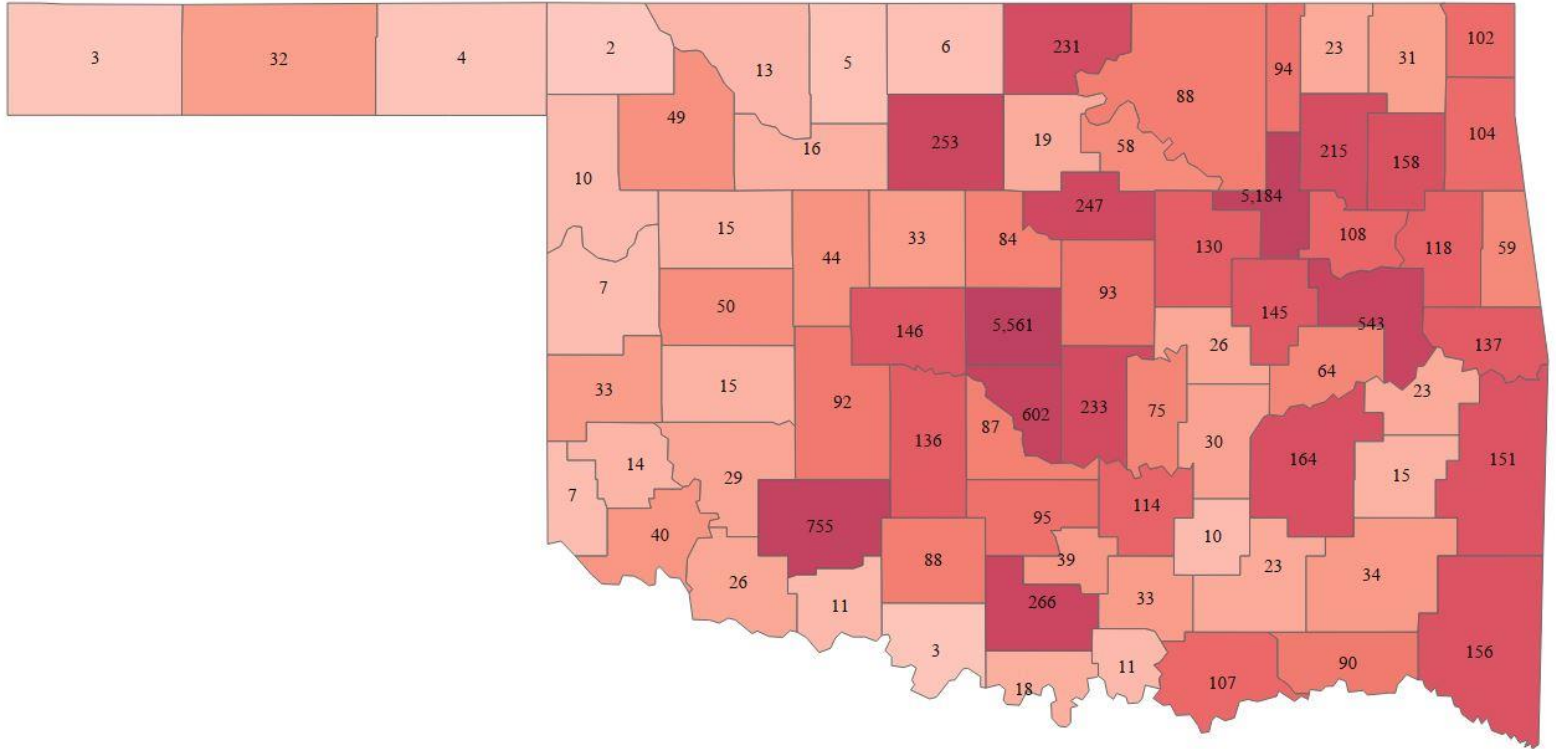

Aggravated Assault increased by 10.3% in 2020, which is the largest increase since a 6.5% increase in 2016. Compared to 2011, Aggravated Assault has increased by 3.6%.

Table 2. Total Number of Violent Crimes Reported, 2011-2020

Year	Murder	Rape	Robbery	Aggravated Assault	Total
2011	219	1,459	3,287	12,665	17,630
2012	219	1,675	3,213	13,163	18,270
2013	207	1,762	3,052	11,909	16,930
2014	178	1,877	3,028	10,804	15,887
2015	241	1,948	2,960	11,324	16,473
2016	239	2,134	3,135	12,058	17,566
2017	246	2,246	2,978	12,461	17,931
2018	210	2,465	2,765	13,224	18,664
2019	249	2,364	2,326	11,901	16,840
2020	287	2,245	2,293	13,125	17,950

Figure 4 depicts Violent Crimes reported in each county. As described with Figure 3, lighter shades indicate fewer Violent Crimes were reported than counties that are shaded darker and the numbers within the counties reflect the number of crimes reported.

Figure 4. Violent Crime by County, 2020

Non-Violent Crime in Oklahoma

Reported Non-Violent Crimes have decreased by 17.6% since 2011 (Table 3); although, it only decreased by 3.9% from 2019 to 2020. Burglary has decreased by 34.7% since 2011, and it has decreased an average of 4.6% per year from 2011-2020. From 2011-2020, Burglary only increased in one year (2016) by 2.5% and decreased the most in 2014 (12.2%).

Larceny, making up the majority of Non-Violent Crimes, has decreased 16.8% since 2011, and it decreased by 6.0% since 2019. The highest number (82,288) of Larcenies was reported in 2012, and the lowest number (66,533) of larcenies was reported in 2020. From 2011-2020, an average of 74,251 larcenies were reported per year (Table 3).

Motor Vehicle Theft has increased 33.6% since 2011, and it has increased by 13.0% since 2019 alone. An average of 11,914 Motor Vehicle Thefts per year were reported from 2011-2020, with the highest number (14,748) reported in 2020. The lowest number (10,169) of Motor Vehicle Thefts was reported in 2015.

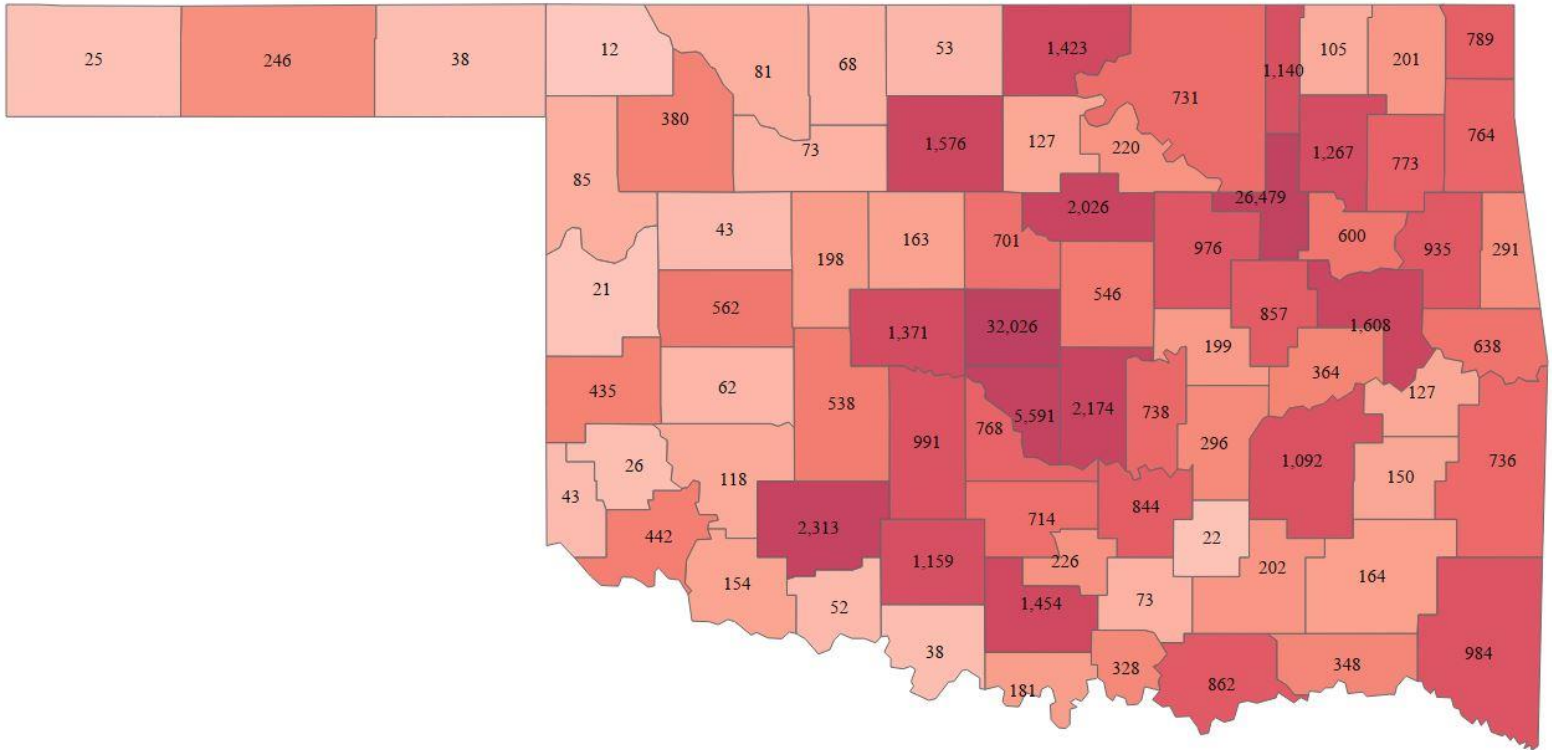

Table 3. Total Number of Non-Violent Crimes Reported, 2011-2020

Year	Burglary	Larceny	Motor Vehicle Theft	Arson	Total*
2011	36,724	79,970	11,038	991	127,732
2012	35,889	82,288	11,562	1,654	129,739
2013	33,581	81,357	11,131	837	126,069
2014	29,470	74,590	10,484	795	114,544
2015	27,832	71,003	10,169	715	109,004
2016	28,525	73,917	11,869	724	114,311

Index Crime

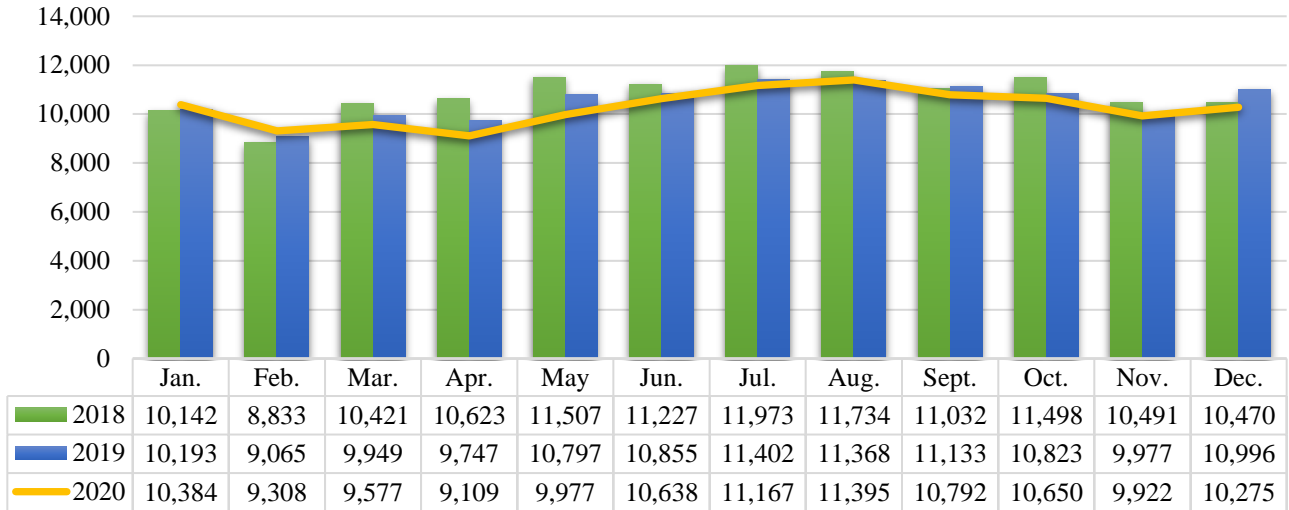

Section 2

Index Crime Offenses

Summary Analysis

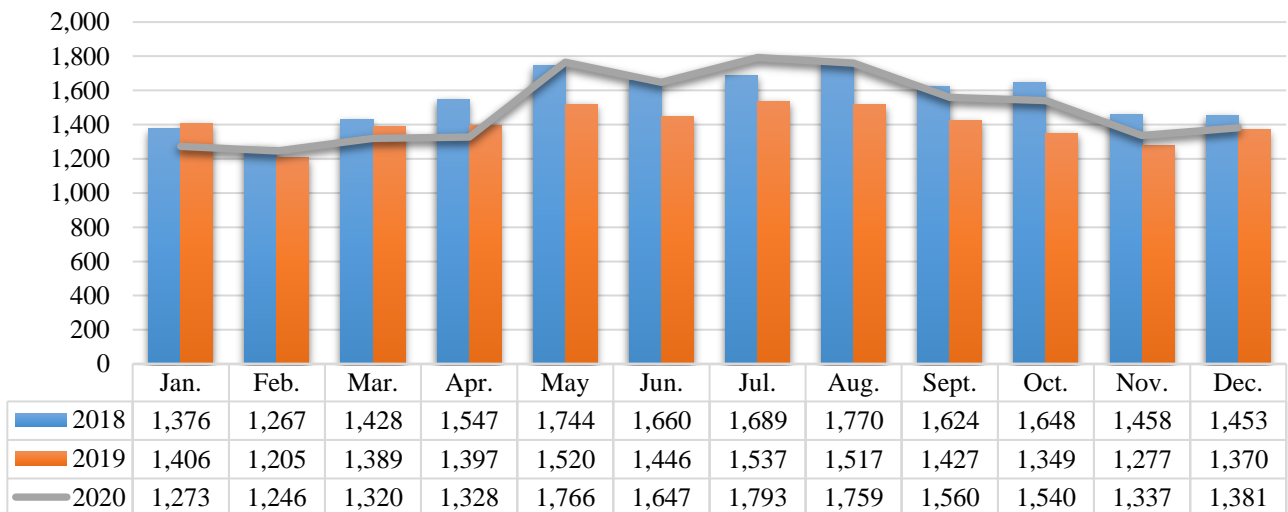

In 2020 agencies in Oklahoma reported a total of 123,194 Index Crimes, a 2.5% decrease from 2019 (126,305). In 2020, three months (January, February, and August) had an increase from 2019. The remaining ten months saw a slight decrease from the previous year. Among those months, May had the largest decrease.

Figure 6. Index Crimes by Month, 2018-2020

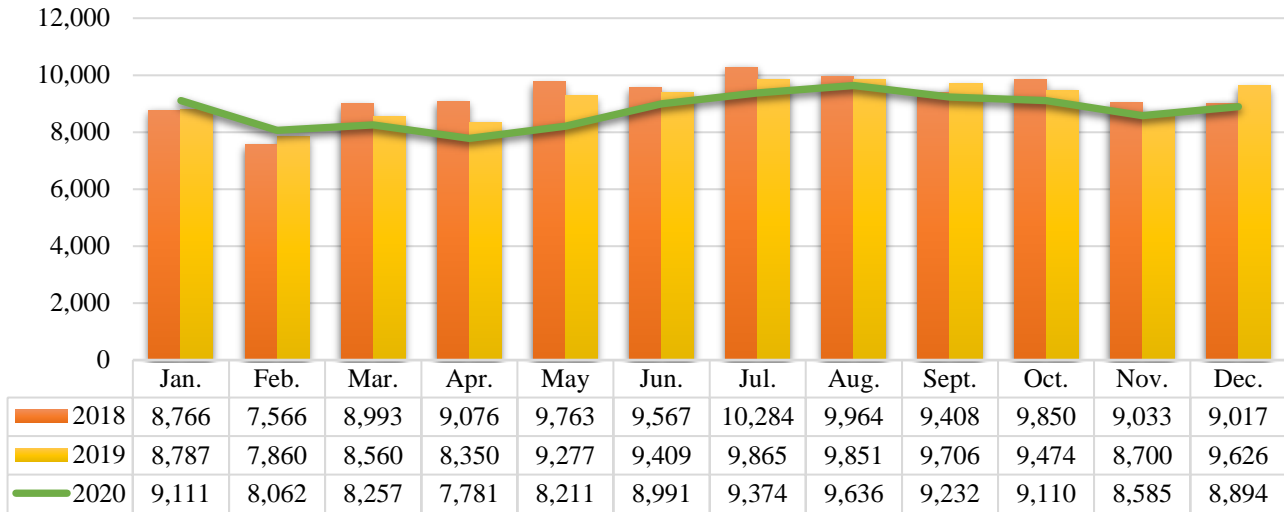

Agencies reported 17,950 Violent Crimes in 2020, a 6.6% increase from 2019 (16,840). In 2020, nine months (February, May-December) had a higher number of Violent Crimes reported than 2019. Of the nine months that had an increase, May and July are the only months that had more Violent Crimes reported in 2020 than both 2018 and 2019. January, March, and April reported the lowest amount of Violent Crimes in 2020.

Figure 7. Violent Crimes by Month, 2018-2020

Agencies reported 105,244 Non-Violent Crimes in 2020, a 3.9% decrease from 2019 (109,465). Since 2018, the number of reported Non-Violent Crimes decreased each year. For January and February, the number of reported Non-Violent Crimes increased in 2018, 2019, and 2020. While the remaining months have decreased for each year, excluding September and December.

Figure 8. Non-Violent Crimes by Month, 2018-2020

Murder

Definition: The unlawful killing of a human being in which the element of malice aforethought was present.

Any death due to a fight, argument, quarrel, assault, or commission of a crime is included in this category. This index offense, as in all other index offenses, is determined by law enforcement officials on the basis of their investigation and does not include the findings of a court or the filing decision of a prosecutor. Manslaughter, suicide, accidental death, and justifiable homicide are excluded from this category. Attempts to kill and assaults to kill are reported as assaults and not as murder.

Summary Analysis

Law enforcement agencies reported 287 murders in Oklahoma in 2020, a 15.3% increase since 2019. Murder accounted for 1.6% of Violent Crime and 0.2% of Index Crimes. In 2020, 179 murders were cleared by an arrest or exceptional means, resulting in a clearance rate of 62.4%. The most common weapon type reported was a Firearm (69.3%). The remaining weapon types were categorized as Objects (14.3%), Other (8.7%), Chemical (3.8%), and Physical Weapons (3.8%). In 18.1% of murders, another felony was related to the murder, with the most common murder-related felony being Robbery (Table 5). For non-felony related murders, the most common circumstance (aside from Unknown Circumstances and Other) leading to the reported murder was “Other Arguments” (Table 5). A loss of \$45,154 in property was reported due to murder.

The victim-to-offender relationship was identified for 78.0% of murders, with 17.8% of all murders having a familial relationship. The most common relationship for murder in a familial relationship was Wife (Table 6). In 2020, there were 16 intimate-partner murders (one spouse killing another), representing 31.4% of all familial murders. Excluding Relationship Not Determined and Stranger, Acquaintance was the most common, non-familial, relationship reported where the victim knew the offender.

The most common age range of murder victims in 2020 were between the ages of 25-29, representing 14.6% of all murders. The ages 15-39 collectively account for 57.1% of all murder victims. The majority (70.7%) of victims were Male, 56.8% were White, and 66.6% were Non-Hispanic (Table 4).

In 2020, law enforcement reported arresting 174 individuals (juveniles and adults) for the offense of murder. For those arrested, 58.6% were between the ages of 18-34, 46.6% were Black, 45.4% were White, and 8.0% were American Indian. For Ethnicity, 92.0% were Non-Hispanic, and 8.0% were Hispanic.

Rape

Definition: The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without consent from the victim.

For the purpose of UCR, rape is divided into two categories: (1) rape by force; (2) attempts to rape. Assaults with the intent to commit forcible rape are also included in the index offense category of rape.

Summary Analysis

Agencies in 2020 reported 2,245 Rapes (forcible and attempted), making up 12.5% of Violent Crime and 1.8% of Index Crimes. Of the reported 2,245 Rapes, 2,179 were forcible, and 66 were attempted. Law enforcement agencies reported 403 Rapes were cleared by arrest or exceptional means. Since 2018, the number of reported Rapes has decreased each year. In 2020, April had the least amount of rapes reported (137), while July had the most rapes reported (231).

There were 160 individuals arrested for Rape, 90.0% of arrests were adults (144), and 10.0% were juveniles (16). The most commonly reported race was White (70.6%), followed by Black (23.1%), and American Indian (6.3%). The most commonly reported ethnicity was Non-Hispanic (85.6%), with Hispanics accounting for 14.4%.

Figure 11. Rape by County, 2020

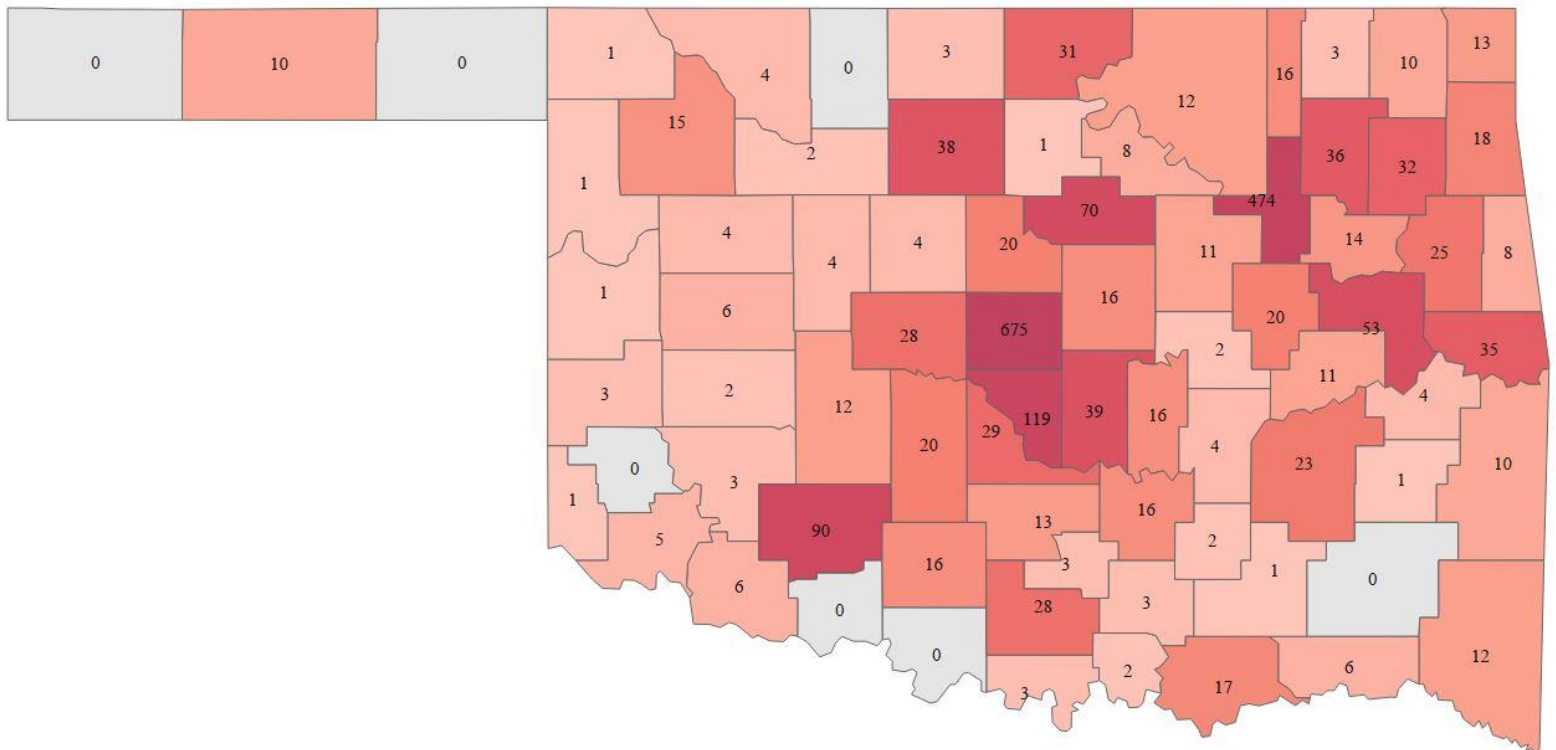

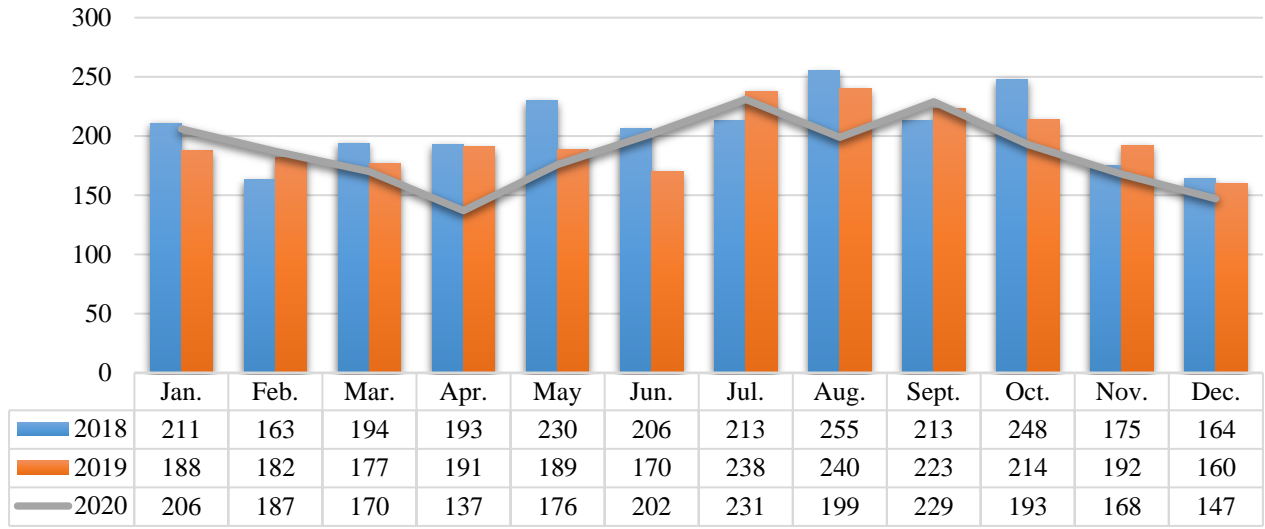

Figure 12. Rape by Month, 2018-2020

Robbery

Definition: The felonious and forcible taking of property from the care, custody, or control of a person or persons by violence or putting the person in fear and against his/her will.

In order for the crime of robbery to take place, the victim must be present. Weapons types commonly reported in conjunction with the robbery are: gun, knife or cutting instrument, other dangerous weapon, and strong-arm robbery.

Summary Analysis

Law enforcement agencies reported 2,293 Robberies in 2020; accounting for 12.8% of Violent Crime and 1.9% of Index Crime. Of the reported 2,293 Robberies, 571 were cleared by arrest or exceptional means resulting in a 24.9% clearance rate. The most common premise type reported was Miscellaneous, with 28.6% of Robberies. Other common premises were Residence, Highway, and Commercial House (Table 8). The premise type of Commercial House had the highest dollar loss reported (\$1,031,380), followed by Residence with \$950,449, and Miscellaneous with \$945,683. A Gun was the most common type of weapon used in a Robbery (43.7%), and the second most common weapon type was Hands, Fists, and Feet (38.1%). Armed Robbery (with any weapon) represented 62.0% of all reported Robberies (Figure 15).

In 2020, law enforcement reported 616 arrests (juveniles and adults) for Robbery. Out of those arrested, the majority (56.7%) were between the ages of 18-34. For race, 50.8% were Black, 43.5% were White, 5.2% were American Indian, 0.3% were Hawaiian, and 0.2% were Asian. For ethnicity, 91.1% were Non-Hispanic and 8.9% were Hispanic.

Aggravated Assault

Definition: The unlawful attack or an attempt to attack through force or violence to do physical injury to another.

An aggravated assault may be committed with a gun, knife or other cutting instrument, other dangerous weapon, or through the aggravated use of hands, fists, or feet. Any assault, where no weapon is used and which results in minor injuries, is classified as non-aggravated assault. Non-aggravated assaults are not counted in the index crime totals.

Summary Analysis

Agencies in 2020 reported 13,125 Aggravated Assaults, a 10.3% increase from 2019 (11,901). Aggravated Assaults accounts for 73.1% of Violent Crimes and 10.7% of Index Crimes. Of the 13,125 reported Aggravated Assaults, 5,183 were cleared by an arrest or exceptional means, resulting in a clearance rate of 39.5%. In 2020, May had the most (1,354) Aggravated Assaults reported while January had the least number of Aggravated Assaults reported (851).

As a part of data collection for Aggravated Assaults, there are four weapon types: Gun, Knife or Cutting Instrument, Other Dangerous Weapon, and Hands, Fists, Feet (Figure 18). Of the four weapon types, Gun (4,340) was the most common weapon type reported at 33.1%. Knife or Cutting Instruments were 15.3% of Aggravated Assaults (2,013), Other Dangerous Weapons were 29.2% (3,834), and Hands, Fists, and Feet accounted for 22.4% (2,938).

In 2020, 3,988 individuals were arrested for Aggravated Assault. Of the 3,988 arrestees, 17.9% were between the ages of 18-24, 5.7% were juvenile arrests, and 94.3% were adult arrests. The race of arrestees was reported as White (59.0%), Black (31.9%), American Indian (8.3%), Asian (0.5%) and Hawaiian (0.3%). Ethnicity of arrestees was reported as Hispanic (7.2%) and Non-Hispanic (92.8%).

Figure 16. Aggravated Assault by County, 2020

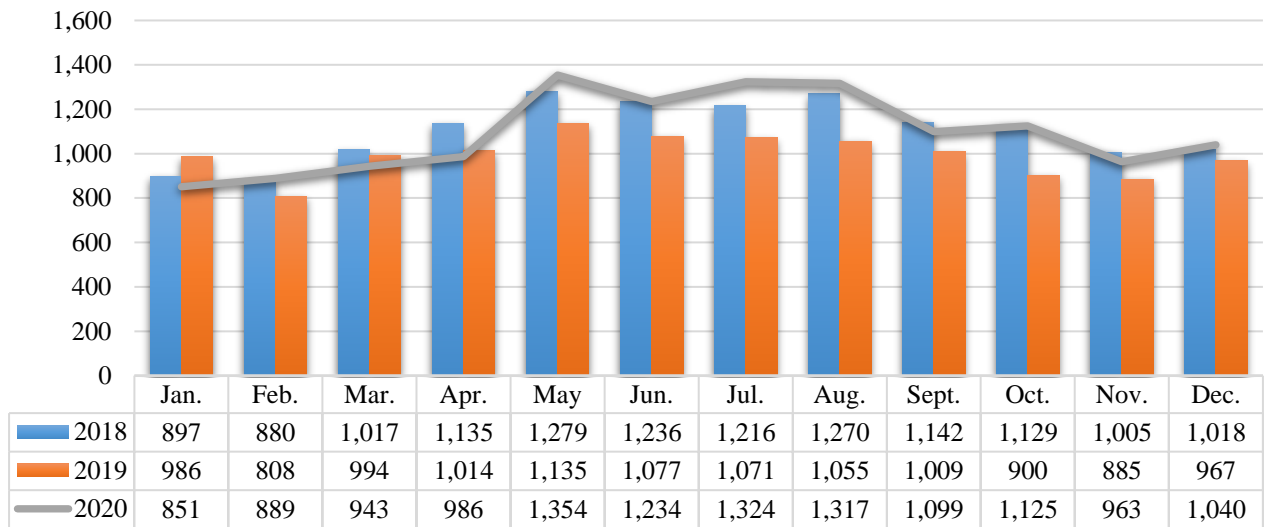

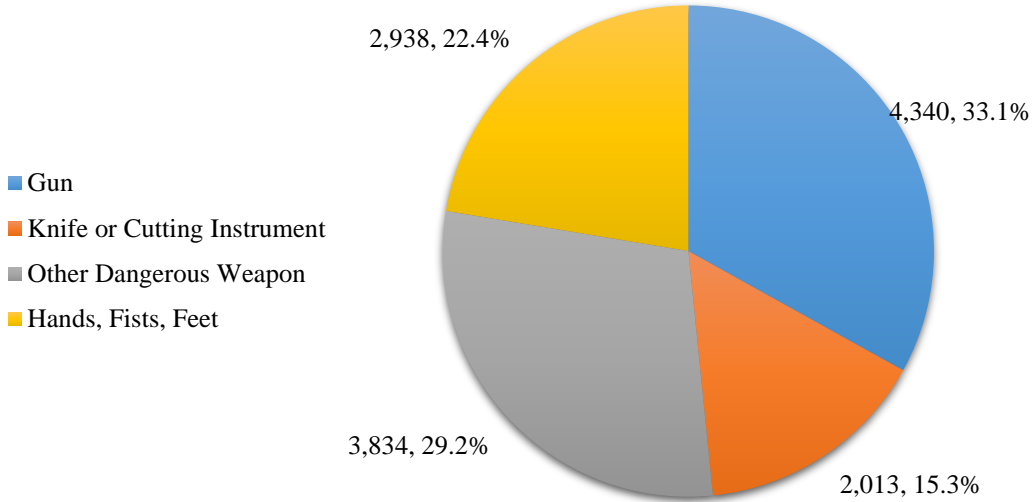

Figure 18. Aggravated Assault by Weapon Type, 2020

Burglary

Definition: Any unlawful or attempted forcible entry of a structure to commit a felony or larceny, even though force may not have been used to gain entry.

For UCR purposes, the offense of burglary is divided into three categories: (1) forcible entry; (2) unlawful entry; (3) attempted forcible entry.

Summary Analysis

In 2020, law enforcement reported a total of 23,963 Burglaries, representing 22.8% of all Non-Violent Crime and 19.5% of all Index Crime. The clearance rate for Burglary was 8.9%, and 0.5% were cleared by an arrest of an individual under 18. The most common type of Burglary reported was Forcible Entry (62.3%) followed by Unlawful Entry with No Force (32.3%) and Attempted Forcible Entry (5.5%). The value of property stolen during Burglaries totaled \$49,897,642, an \$8,402,893 decrease from the value of burgled property in 2019. The value of stolen property from Burglaries accounted for 18.4% of the value of all property stolen in 2020.

Burglary has decreased by 6.5% since 2019, largely driven by an 18.1% decrease in Residential Burglaries in 2020. This decrease contrasts with Non-Residential Burglaries, which had an increase of 20.4% over the same period. The majority (61.3%) of Burglaries occurred at a Residence, and most occurred during the Day (34.6%) or at an Unknown time (36.0%). For Non-Residential Burglaries, 34.7% occurred at Night, and 46.6% at an Unknown time of day. If you discount the Unknown time of day for Residential Burglaries, the time of day is nearly evenly divided while almost half of Non-Residential Burglaries occurred at an unknown time.

Out of the 2,403 arrested for Burglary, 69.2% were White, 21.9% were Black, 8.4% were American Indian, 0.3% were Asian, and 0.1% were Hawaiian. In terms of ethnicity, 5.7% were Hispanic, and 94.3% were Non-Hispanic. The 18-24 age range made up the single largest group of arrestees for Burglary (18.8%), and the ages of 18-34 comprised 52.8% of all Burglary arrestees.

Larceny

Definition: The unlawful taking of property of another with intent to deprive him/her of ownership without the use of force, violence, or fraud.

For reporting purposes, larcenies are specifically categorized as crimes resulting from (1) pocket picking, (2) purse snatching, (3) shoplifting, (4) theft from a motor vehicle, (5) theft of motor vehicle parts and accessories, (6) bicycle theft, (7) theft from buildings, and (8) theft from any coin operated machine. Any remaining crimes of theft are classified in the “all other” category.

Summary Analysis

In 2020, agencies reported 66,533 Larcenies, accounting for 63.2% of Non-Violent Crime and 54.0% of Index Crimes. Of the 66,533 larcenies reported, 9,006 were cleared by an arrest or exceptional means, resulting in a 13.5% clearance rate. Of all reported Larceny, 0.7% were cleared by an arrest of an individual under 18. In 2020, August had the most reported Larcenies with 6,169 while April had the lowest number of reported Larcenies with 4,779 (Figure 25). When compared to 2019, only two months (January and February) had an increase while the remaining ten months (March – December) had a decrease.

The total value loss value for Larceny was \$89,196,082, accounting for 32.9% of all stolen property in 2020. Of the nine categories of Larceny, All Other Larceny accounted for 30.4% followed by Larceny From Motor Vehicles at 27.9%. The same categories (All Other Larceny and From Motor Vehicle) had the highest value stolen (Table 10). Larceny by Purse Snatching accounted for 0.2% of Larceny and had the lowest value stolen (\$49,761).

In 2020, 9,500 individuals were arrested for Larceny. Of those arrested for Larceny, adult arrests accounted for 92.8% of those arrests. Arrestees between the ages of 18-24 accounted for 17.0% of arrests. For race, White was the most common race reported at 69.7%, followed by Black at 22.8%, American Indian at 7.0%, Asian at 0.4%, and Hawaiian at 0.1%. Hispanics accounted for 4.8% of arrestees, and 95.2% of arrestees were Non-Hispanic.

Arson

Definition: Any willful or malicious burning, or attempt to burn, with or without intent to defraud.

Arson applies only to those fires determined through investigation to have been willfully or maliciously set. Attempts to burn are included in the arson report, but fires of suspicious or unknown origin are not. For the purposes of UCR, index crimes only include: murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft. Arson data can be a part of an index crime that has been reported, but it is not included in the index crime totals to prevent double counting a crime.

Summary Analysis

In 2020, law enforcement agencies reported 816 offenses of Arson, a 14.6% increase from 2019 (712 reported offenses). Of the 816 Arsons, 142 were cleared by an arrest or exceptional means, resulting in a clearance rate of 17.4%. Arson is separated into three main categories: Structural, Mobile and Other Fires. Structural accounted for 389, Mobile accounted for 209, and Other accounted for 218. Structural fires increased 2.9% from 2019, but it remains lower than the number of reported structural fires in 2018. Arson of Other Commercial Structures increased 72.0% from 2019, and Arson of Industrial/Manufacturing property increased 200.0%. However, the number Industrial/Manufacturing Arsons reported in 2020 was three and in 2019 was one. Of the two structure types reported for Mobile property, Motor Vehicles had a 54.8% increase from 2019 while Other Mobile Property had a 22.7% decrease. For “Other” arsons, there was a 16.0% increase. Total property loss due to Arson amounted to \$15,380,617, a 28.8% increase from 2019 (\$11,941,528).

In 2020, 193 individuals were arrested for Arson with 13.0% of those arrested were under 18. Of the 193 arrestees, 69.9% were White, 20.2% were Black, 8.8% were American Indian, and 1.0% were Asian. Agencies reported 5.2% of arrestees were Hispanic, and 94.8% were Non-Hispanic.

The guidelines used by fire departments to report arson to the State Fire Marshal’s Office differ from those in which the UCR Program obtains its data from law enforcement agencies. For more information on arson, please contact someone with the Oklahoma Fire Incident Reporting System (OFIRS) at:

Property Stolen and Recovered

Section 3

Summary Analysis

The total reported value lost in 2020 was \$271,126,941 which is a 5.6% or \$14,342,984 increase from 2019 (\$256,783,957). Of the total value lost, law enforcement recovered \$90,523,841 of property stolen, which is a recovery rate of 33.4%. Since 2011, the amount of property recovered has increased each year by an average of 7.9%.

Of the eleven property types reported, Vehicles had the highest value stolen (\$131,087,181) followed by Miscellaneous with \$91,814,474. In addition to the highest value stolen, Vehicles had the highest value recovered (\$80,117,036) which is a 61.1% recovery rate (Table 12). Jewelry is the third highest value stolen (\$11,090,592), but it has the lowest recovery rate at 3.0%. Livestock had the least value stolen (\$779,411) with a recovery rate of 3.6%.

February, April, May, August, September, October and November had an increase in value stolen from 2019, with the largest increase in August at 48.6% (Table 13). For the remaining five months (January, March June, July, and December) the value stolen decreased from 2019, with the largest decrease in July at 7.2%. For seven of twelve months, the Value Recovered had an increase with the largest increase in April at 36.3%. January, March, June, July and October had a decrease in value recovered, with the largest decrease in July at 13.2%.

Table 12. Property Values Stolen and Recovered by Category, 2020

Arrest and Clearance Data

Section 4

Clearance Rate Data

Summary Analysis

For crime reporting purposes, an index crime is considered cleared when: (1) a law enforcement agency has identified the offender; (2) there is enough evidence to charge the offender; and (3) the offender is actually taken into custody. The arrest of one person may clear several crimes or the arrest of several persons may clear only one crime. A crime may also be reported as cleared by exception if some element beyond the control of law enforcement is present which prevents arrest and/or prosecution (e.g., death of offender). Clearance rate is reported independent of the arrest data in the following section (see Glossary).

For 2020, the clearance rate for all Index Crimes was 15.5% which is a 1.1% decrease from 2019. As with previous years, Violent Crime had the highest clearance rate (35.3%), and Murder had the highest Violent Crime clearance rate (62.4%). Non-Violent Crime had a 12.1% clearance rate, and Larceny had the highest clearance rate (13.5%) of Non-Violent Crimes.

Table 14. Clearance Rate by Index Crimes, 2018-2020

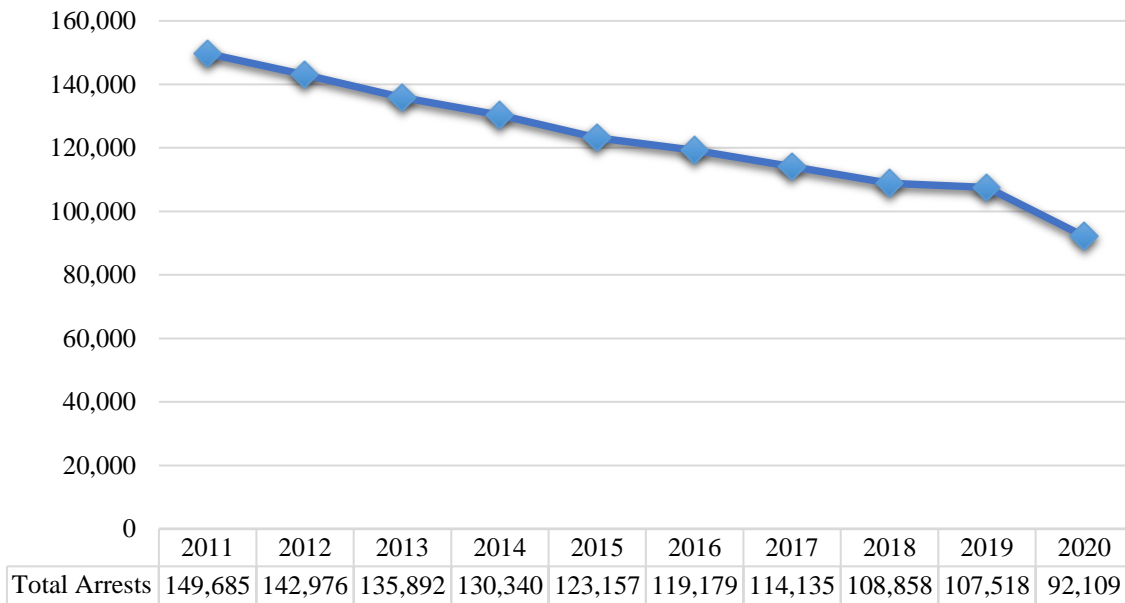

Offense	2018			2019			2020		
	No. of Crimes	No. Cleared	Clearance Rate	No. of Crimes	No. Cleared	Clearance Rate	No. of Crimes	No. Cleared	Clearance Rate

Overview of All Arrests

The Oklahoma UCR Program requests the monthly submission of data concerning persons arrested in Oklahoma. Arrests are reported for both Part I and II crimes. A person is counted on the monthly arrest report each time he/she is arrested, and the same person may be arrested several times during the reporting period. If a person is arrested for multiple crimes, only the most serious crime will be reported on the arrest report.

In 2020, law enforcement agencies reported 92,109 arrests, and of those arrests, 93.4% were adults. When comparing 2020 arrests to 2016 (five years prior), all arrests (juvenile and adult) have decreased 22.7%, and when compared to 2011, all arrests have decreased 38.5%. From 2011-2020, all arrests have decreased each year by an average of 5.2% per year, and the largest decrease (14.3%) occurred in 2020. Of the 92,109 arrests, 19.8% were alcohol-related with the most common alcohol-related offense being Driving Under the Influence.

Figure 32. All Arrests, 2011-2020

Overview of Juvenile Arrests

Summary Analysis

In 2020, there were 6,078 juvenile arrestees reported, and juveniles accounted for 6.6% of all arrests. As with all arrests, juvenile arrests have been decreasing each year since 2011. From 2019 to 2020, juvenile arrests decreased 29.5%, and when compared to five years prior (2016), juvenile arrests have decreased 49.4%. From 2011-2020, juvenile arrests decreased by an average of 10.4% per year.

As with previous years, the majority (57.0%) of juveniles were Referred to Juvenile Court or Probation (Figure 34). The remaining arrestees were Handled within the Department and Released (40.2%), Referred to Criminal or Adult Court (2.1%), or Referred to a Welfare Agency (0.7%).

Substance-related arrests (drugs or alcohol) accounted for 15.5% of all juvenile arrests, and Index Crime arrests accounted for 24.7% of arrests. In 2020, the most common offense reported for juvenile arrests was All Other Offenses (Table 15), representing 17.4% of arrests. The second most common (11.3%) offense reported was Larceny with 688 arrests. Of the 6,078 arrestees, 69.4% were reported as male, and 26.0% were reported as 17 years-old. For race, 60.7% of arrestees were White, 32.0% were Black, 6.5% were American Indian, 0.4% were Asian, and 0.3% were Hawaiian. Lastly, 12.1% were Hispanic and 87.9% were Non-Hispanic.

Oklahoma County reported the most juvenile arrests (2,060) followed by Tulsa County with 952 arrests. In 2020, Oklahoma City Police Department reported the most juvenile arrests with 1,365. For Oklahoma City Police Department the most common offenses reported were All Other Offenses, Disorderly Conduct, Larceny, and Other Assaults.

Overview of Adult Arrests

Summary Analysis

Law enforcement agencies in Oklahoma reported 86,031 adult arrests in 2020 which is a 13.0% decrease from 2019. When compared to 10 years prior (2011), adult arrests have decreased by 35.1%, and when compared to five years prior (2016), they have decreased 19.7%. From 2011-2020, adults arrests increased once in 2019 by 0.1%, and on average, adult arrests have decreased 4.7% per year.

For 2020, 19.6% of adult arrests were for an Index Crime offense, and 34.5% were for a substance-related arrest (drugs and alcohol). All Other Offenses was the most common offense type reported with 20,289 arrests followed by Driving Under the Influence with 9,183 arrests. Of all adult arrestees, 71.5% were reported as male, and 53.2% were between the ages of 18 and 34. For race, 68.1% of arrestees were White, 22.5% were Black, 8.7% were American Indian, 0.5% were Asian, and 0.2% were Hawaiian. Law enforcement agencies reported 92.9% of adult arrestees were Non-Hispanic, and 7.1% were Hispanic.

In 2020, Oklahoma County reported the most adult arrests with 23,192, and Tulsa County reported 17,160 arrests. Of all reporting agencies, Oklahoma City Police Department had the highest number of reported arrests with 16,172, and Tulsa Police Department had the second highest number of arrests with 12,245.

County Arrests by Category 2020

Table 17 provides a summary of arrest data for four major categories (defined below), and it includes data reported by county for each reporting agency within that county (i.e. sheriff's offices and police departments).

Index Crimes: Murder, Rape, Robbery, Aggravated Assault, Burglary, Larceny, and Motor Vehicle Theft. This category DOES NOT include Manslaughter and Non-Aggravated Assaults.

Drug-Related: All drug arrests reported as sales/manufacturing and possession.

Alcohol-Related: The reported alcohol related offenses including Driving Under the Influence, Liquor Law Violations, and Drunkenness.

Total Arrests: Total arrests includes Index Crimes, Drug-Related, Alcohol-Related, and all other offenses in which juveniles and adults were arrested.

Law Enforcement Officers Killed or Assaulted

Section 5

Officers Killed or Assaulted

The Oklahoma UCR Program requires the collection of statistical information relating to law enforcement officers killed in the line of duty, and the number assaulted while on duty.

In 2020, law enforcement reported one (1) officer was killed as a result of a felonious act, and zero (0) officers were killed as the result of negligence or an accident. A total of 1,069 assaults were reported, an increase of 26.8% from 2019. A majority of Officer Assaults (73.3%) were reported to be in a one man vehicle either alone (27.6%) or assisted (45.7%) (Table 18). The most common activities where an Officer Assault occurred was in response to a Disturbance Call (22.6%), Handling/Transporting a Prisoner (21.0%), or All Other circumstances (18.5%).

Most (59.5%) officer assaults occurred between the hours of 4 P.M. and 2 A.M. The majority (73.1%) of Officer Assaults were committed with an offender’s Hands, Fist, Feet, etc., and the second most common weapon type during an Officer Assault was Other Dangerous Weapon (19.2%). Out of all reported Officer Assaults, 72.7% were reported with no injury, while 27.3% were reported having an injury. In addition to all reported Officer Assault increasing over 2020, Officer Assaults with an injury increased by 29.2%.

Table 18. Officer Assaults by Assignment Information, 2018-2020

Type Of Assignment		Year	Number Assaulted	Percent	% Change

Domestic Abuse and Hate/Bias Crime

Section 6

Domestic Abuse

Definition: Threatening, causing or attempting to cause serious physical harm between family or household members.

Domestic abuse includes the following offenses: murder, sex crimes, assault, and assault and battery. Family or household members are defined as current or former spouses, parents, foster parents, children, persons otherwise related by blood or marriage, or living in the same household or who formerly lived in the same household. Also included in this category are persons in dating relationships (defined as courtships or engagement relationships) or someone with whom they had a child. It also includes the elderly and handicapped.

Summary Analysis

Since 2011, Domestic Abuse has an overall increasing trend (Figure 40). From 2011-2020, Domestic Abuse decreased for only three out of the ten years, and it had an average increase of only 0.7% per year. When compared to five years prior (2016), Domestic Abuse increased 13.2% in 2020, and compared to ten years prior (2011), it has increased by 11.7%. During the same ten-year period, an average of 24,845 domestic abuse incidents were reported per year.

As with previous years, Assault and Battery is the most common offense type reported for Domestic Abuse; however, all four offense types (Murder, Sex Crimes, Assault, and Assault and Battery) increased in 2020 (Table 19). In 2020, the month of June had the most Domestic Abuse incidents reported, and February had the fewest Domestic Abuse incidents (Figure 41).

Hate/Bias Crime

Definition: A criminal offense committed against a person or property, which is motivated by the offender’s bias against race, religion, ethnic/national origin, sexual orientation, or disability.

Index Crime Offenses by Contributor

Section 7

Contributor Participation

There were 432 law enforcement agencies in 2020 that provided data to the Oklahoma UCR Program.

The following is a list of agencies that failed to report data during part or all of calendar year 2020. Statistics in this publication are reported as they are received from an agency during the calendar year and data received is not calculated or averaged to compensate for partial or missing data. For this reason, there may be discrepancies when comparing data in this publication with data in *Crime in the United States*.

OK0280000	Greer County Sheriff's Office
OK0370900	Hennessey Public Schools District Police Department
OK0402700	Spiro Police Department
OK0403100	Wister Police Department
OK0511700	Webbers Falls Police Department
OK0611400	Haileyville Police Department
OK0630900	Earlsboro Police Department

Contributors

The section beginning on page 7-4 (Table 23) is a listing of law enforcement agencies who report to the Oklahoma UCR Program. The listing is sorted alphabetically by county first, then by the Originating Agency Identifier (ORI) assigned to the law enforcement agency by the Federal Bureau of Investigation (FBI).

The next section (Table 24) is a specific breakdown of Index Crime offenses by each contributing law enforcement agency for the years 2018, 2019, and 2020. Table 24 is sorted in the same fashion as Table 23. Please note, the total number of crimes by county are shaded in gray, and the number of crimes per agency for a specific county will be above the county total. The Oklahoma UCR Program publishes the total number of offenses reported by the law enforcement agency, and the Oklahoma UCR Program does not estimate any data for an agency who was not consistent and/or did not report data for that calendar year.

It is important to note that while there are little to no incidents and/or arrests reported for the Oklahoma State Bureau of Investigation (OSBI), this does not reflect the number of investigations conducted from 2018 to 2020. By O.S. 74-150.2 and O.S. 74-150.5, the Oklahoma State Bureau of Investigation serves primarily to assist other agencies and conducts investigations upon request from other agencies.

In order to prevent counting the same incident twice, the OSBI does not report incidents where they assisted another agency as these incidents should be reported by the original requesting agency.

Law Enforcement Employee Data

Section 8

Law Enforcement Employee Data

Definition: Persons employed as full-time sworn officers and full-time civilian employees.

Figure 45 represents a compilation of forms sent to all reporting law enforcement agencies throughout the state on an annual basis. With the exception of persons who perform guard or protection duties and who are not paid from police funds (i.e., school crossing guards, special officers, and merchant police), these figures reflect the number of full-time sworn personnel with full arrest power, including the chief, sheriff, commissioner, and superintendent. The figures do not include employees of law enforcement agencies that do not contribute to the UCR Program.

Civilians include clerks, radio dispatchers, meter maids, stenographers, mechanics, etc., provided these persons are full-time employees of the agency. Neither employees who are compensated from a source other than police funds, nor those receiving salaries from federal grants are included.

In 2020, Oklahoma’s law enforcement employment rate was 3.2 per 1,000 inhabitants.

Statement of Regulations

Section 9

Statement of Policy

The following regulations will be observed by this agency concerning the release of statistical information. Employees of the agency will observe these procedures and will not deviate from this policy without the express consent of the Director of the Oklahoma State Bureau of Investigation. All information to be released will originate from the Field Services Unit of the Oklahoma State Bureau of Investigation.

Regulations

1. This agency will publish an annual report reflecting crime in Oklahoma. This report will be distributed to the Governor, members of the Legislature, the Attorney General, law enforcement agencies, the State Library System, and to any agency or committee dedicated to law enforcement or criminal justice work. An electronic copy of the report will be made available on the OSBI website.
2. Published annual reports will be released to the above named agencies at no charge. They will then be released to individuals or agencies extraneous to the criminal justice community who shall pay a fee of five dollars (\$5.00) for every copy received.
3. UCR Information Requests:
 - A. Information contained in the published annual report may be released via telephone, letter, etc., to any interested party.
 - B. All requests for unpublished information from the agencies or individuals extraneous to the criminal justice community should be submitted to the Office of Criminal Justice Statistics (OCJS). In accordance with the Oklahoma Open Records Act, all requests may be subject to a charge. Standard practice is to provide data in a PDF or hard copy format to prevent manipulation of data. Exceptions to this practice can be submitted to the director of the OCJS for consideration.
 - C. Law enforcement agencies may receive interim, unpublished, specialized reports identifying their agency only, provided the request is reasonable. Law enforcement agencies may also receive their respective county totals along with state or regional totals. All requests should be directed to the supervisor of the Field Services Unit.

Glossary of Terms

Section 10

Adult - For UCR purposes, a person 18 years of age or older.

Arrest Rate - The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. The arrest rate is computed in the same manner as crime rates.

Clearance Rate - The number of clearances reported for Part I offenses. This rate is determined by dividing the number of clearances by the number of offenses.

Cleared By Arrest - For UCR purposes, an offense is cleared by arrest or solved when at least one person is (1) arrested, (2) charged with the commission of the offense, and (3) turned over for prosecution.

Crime Index - The sum total of the seven major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. Crime classifications used in the index are: (1) murder, (2) forcible rape, (3) robbery, (4) felonious assault, (5) breaking and entering, (6) larceny (theft), and (7) motor vehicle theft. Each of these offenses is referred to as an "index crime."

Crime Rate - The number of index crimes reported for each unit of population, generally 100,000. Crime rates are computed for communities by dividing the number of index crimes by the population and multiplying the answer by 100,000.

Environmental Factors – Conditions which affect the amount and type of crime that occurs in a geographical area.

Exceptional Clearance - A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against the offender.

Juvenile - For UCR purposes, a person under the age of 18.

Non-Violent Crime - Consists of the index crimes of breaking and entering, larceny (theft) and motor vehicle theft.

Part I Offenses - The first of two main categories of crime classes comprising a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and/or occur with greater frequency. The monthly tabulation of Part I offenses provides a count of "offenses known."

Part II Offenses - The second of two main categories of crime classes comprising a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature and/or occur less frequently. Monthly tabulations of Part II offenses are limited to arrest information only.

Violent Crime - Consists of the index crimes of murder, rape, robbery, and aggravated assault.
