2026-2027 Reporting Guidance and Timeline

Annual District Math Plan: Oklahoma Math Achievement and Proficiency Funds
Submit online through the Math Achievement and Proficiency application on Single Sign On (SSO)
Open: January 4, 2027
Due Date: March 1, 2027

For the 2026-2027 school year, through the Oklahoma Math Achievement and Proficiency Act, districts will receive a base mathematics allocation calculated on a per-student basis for each enrolled second-, third-, fourth-, and fifth-grade student as reported in the October 1 enrollment counts.

All Oklahoma School Districts must submit their district math funding plan **only** for the 2026-2027 school year. This is the district's plan of how the above base funds will be utilized.
