

2025 Fall School Counselor Caravan

Get ready for a day of professional learning and collaboration as we dive into the new school counselor rules and walk through how to develop a district-wide Comprehensive School Counseling Plan. You'll also hear from leaders in College & Career Readiness, Prevention & Intervention, and School-Based Mental Health as we connect counseling work across key state initiatives.

Administrators and school leaders are welcome and encouraged to attend—this training offers valuable insights to support implementation and strengthen student services across your district.

Don't miss this opportunity to build capacity, align your program with state expectations, and connect with colleagues across the region!
