

# Academic Development

Building knowledge, skills, and learning strategies for academic success.

## Why it Matters...

- **Increases student engagement**
- **Improves achievement**
- **Prepares for graduation**
- **Builds confidence for future**

## In Action...

### Tier 1

- Classroom lessons on study skills and goal setting.
- Academic planning conferences.
- Time management and organization instruction.

### Tier 2

- Small groups for students failing core classes.
- Academic motivation interventions.
- Attendance improvement supports.

### Tier 3

- Individual graduation planning for student not on track.
- Credit recovery coordination.
- Collaboration on academic intervention plans.

## Student Outcomes

- ✓ **Set academic goals**
- ✓ **Demonstrate effective learning strategies**
- ✓ **Persevere in challenges**
- ✓ **Graduate on time**

## Data Monitored:

- ✓ **GPA trends**
- ✓ **Course failure rates**
- ✓ **Attendance patterns**
- ✓ **Graduation progress**
- ✓ **Advanced course participation**

***Academic success is not just about what students know, but how they learn, persist, and grow.***
