IMMEDIATE RELEASE

**CNG FUELING STATION AT W.D. HOBACK PLAZA IN STROUD, OKLA. TO
CLOSE FOR IMPROVEMENTS**

New CNG pumps will deliver faster fueling times

OKLAHOMA CITY, Okla. (Oct. 29, 2014) — The Oklahoma Turnpike Authority (OTA) announced today the W.D. Hoback travel plaza’s CNG fueling station in Stroud, Okla. will close Oct. 31 for improvements. The new CNG fuel pumps being installed will provide faster fueling times for CNG customers traveling the Turner Turnpike.

“The Oklahoma Turnpike Authority works hard to guarantee its customers the best driving experience along Oklahoma’s turnpikes,” said Tim Stewart, OTA director. “This includes their service stops along the way. Improved fueling facilities will help get CNG customers back on the road and to their destinations.”

The CNG fueling portion of the travel plaza, operated by EZ Go and Carey Johnson Oil Company Inc., will close until improvements are complete. These renovations are being made with support from OTA’s partnerships with ONE Gas and EZ GO stores. ONE Gas provides natural gas distribution services to more than two million customers in Oklahoma, Kansas and Texas and is headquartered in Tulsa, Okla. EZ Go operates eight stores along Oklahoma turnpikes, with its headquarters in Lawton, Okla.

Customers seeking CNG along the Turner Turnpike may exit at Stroud and find a CNG fueling station in Davenport, Okla. at 1028 N. Preston and in Sapulpa, Okla. at 410 S. Hawthorn Drive.
