FOR IMMEDIATE RELEASE

OTA WORKING TO RESTORE PIKEPASS DOT COM

Account information not affected by network outage

The Oklahoma Turnpike Authority (OTA) has experienced network outages over the last six days that have limited customer's ability to access account information online.

These outages were a result of unexpected challenges encountered while the OTA was upgrading its hardware to provide better support for online account activity and information. At no time was account information affected and the security and integrity of account information has not been impacted.

The OTA continues to work to restore Pikepass dot com and other customer service functions including call center, store activity and tag agent-related services. Please check the Turnpike Authority's Facebook and Twitter pages for updates.

You can find OTA on Facebook at Oklahoma Turnpike Authority and on Twitter at @okturnpike.

###

About Oklahoma Turnpike Authority

Oklahoma Turnpike Authority was established in 1947 to construct, operate and maintain Oklahoma turnpikes. Today, Oklahoma turnpikes are the safest and quickest ways to travel across the state. Oklahoma Turnpike Authority is managing multiple renovations throughout the state to maintain and operate the turnpike system to the highest standard.
