This project is weather permitting:

US-412/Cimarron Turnpike lanes shift near Glencoe for bridge project June 26

US-412/Cimarron Turnpike motorists can expect a significant lane shift to the north onto westbound lanes at mm 33 east of SH-108 near Glencoe in Payne County this evening as part of ongoing bridge rehabilitation work. This will allow crews to begin work on the eastbound bridge. Motorists can expect US-412/Cimarron Turnpike to remain narrowed to one lane in each direction between SH-18 and SH-108.

This \$2.67 million project was awarded to C3 Construction Inc. with work expected to be completed in late summer 2025.
