Which code needs to be revised? IPC

Which section of the code needs to be revised?

Section 410.3 Table _____ Figure _____ Page 4-7 thru 4-8

Proposed Change:

Show the proposed new, revised, or deleted text in Legislative format. Line through text to be deleted and underline text to be added or revised.

410.3 Provide High and Low Drinking Fountains

Where drinking fountains are required, not fewer than two drinking fountains shall be provided. One drinking fountain shall comply with the requirements for people who use a wheelchair and one drinking fountain shall comply with the requirements for standing persons.

Exceptions:

1. A single drinking fountain with two separate spouts that complies with the requirements for people who use a wheelchair and standing persons shall be permitted to be substituted for two separate drinking fountains.
2. Where drinking fountains are primarily for children's use, the drinking fountains for people using wheelchairs shall be permitted to comply with the children's provisions in ICC A117.1 and drinking fountains for standing children shall be permitted to provide the spout at 30 inches (762 mm) minimum above the floor.
3. A single drinking fountain with a spout set 15" minimum out from the wall and 36" above the floor, and no further than 5" back from the front edge, that is also a bottle filler design, shall be permitted to be substituted for two separate drinking fountains.

Supporting Information:

State the purpose and reason for the change and provide substantiation to support the proposed change.

GENERALLY, PEOPLE FIND DRINKING FOUNTAINS UNSANITARY, MANY PEOPLE CARRY WATER BOTTLES TODAY. A DRINKING FOUNTAIN SET + DESIGNED ACCORDING TO ADA, PLUS IS ALSO A BOTTLE FILLER SERVES THE PEOPLE BETTER, IS MORE SANITARY, AND SAVES MONEY + SPACE. FURTHERMORE, A STANDING PERSON WOULD HAVE NO PROBLEM USING A DRINKING SPOUT SET AT 36" ABOVE FLOOR.
