Code Change Information

Originating Committee: SSTC 2015

Code Modified: 2018 IBC

Original Comment Form Number: SSTC 13-

Rule Number: 748:20-2-9 (24)

Which area of the code (Section, Table, Figure) was revised?

IBC Section 423.5.10

Page Number: n/a

Previous change:

423.5.10 Conversion of plumbing systems. ICC 500® Section 702.2.4 is omitted.

Historical information:

The language was added by the SSTC committee to omit a section of the requirements of ICC 500 as most jurisdictions in Oklahoma would not allow a plumbing system to be converted from a private to city system or vice versa to protect against contamination of either system.

The language did not exist in the 2018 IBC and the committee chose to carry the change forward in the rules. The language does not exist in the 2021 code.

Staff recommends the committee determine if the change should be kept as written, further modified, or deleted from the agency rules.
