IFC Chapter 2 Definitions

Page Number: 2021 IFC n/a

Previous change:

AUTHORITY HAVING JURISDICTION. Means an organization, office, or individual responsible for enforcing the requirements of the State Adopted Building Codes, including the prior authorization or approval of any equipment, materials, installations or procedures used in all or in part of the construction of a new or alteration or renovation of an existing building or structure, including integral finishes, fixtures and building system therein.

Historical information

The definition was added to the IFC as more than the fire code official could have jurisdiction. The Oklahoma Department of Labor oversees the alternative fuels industry, and it would allow those officials to operate as needed. The definition came from the agency's administrative rules.
