Explain the method used to determine the economic impact. Please provide the sources used to determine the impact, in the explanation.

N/A

### Code Change Information:

Which code needs to be revised? ISPC

Which part of the code needs to be revised?

Section 811.1 \_\_\_\_\_ Table \_\_\_\_\_ Figure \_\_\_\_\_ Page 24 \_\_\_\_\_

### Proposed Change:

Show the proposed new, revised, or deleted text in Legislative format. Line through text to be deleted and underline text to be added or revised.

Remove 811.1 Entirely

#### **811.1 Rope and float.**

~~In pools where the point of first slope break occurs, a rope and float assembly shall be installed across the width of the pool. The rope assembly shall be located not less than 1 foot (305 mm) and not greater than 2 feet (610 mm) towards the shallow side of the slope break. Rope anchoring devices shall be permanently attached to the pool wall, coping or deck. Rope ends shall attach to the rope anchor devices so that the rope ends can be disconnected from the rope anchor device.~~

**Supporting Information:**

Please provide justification for the proposed change and clarify if it impacts life safety.

Safety ropes are not listed as a primary safety measure for drowning prevention and most are immediately removed after inspection.
