Oklahoma Water Resources Board
Audit and Compliance Committee

Re: Information Request for Audit and Compliance Committee Meeting to evaluate the Operation of the Oklahoma Water Resources Board (“OWRB”)

As of the date of this letter, except for (1) any cases which may be discussed in executive sessions at OWRB meetings from time to time, (2) a variety of appeals from the OWRB’s final orders on applications for water rights, (3) final formalities associated with the dismissal of lawsuits associated with water settlements, and (4) a few cases involving challenges to the OWRB’s exercise of authority in other subject areas including but not limited to groundwater basin maximum annual yields and dam safety, there are no other proceedings currently pending or involving the OWRB.

Should you need anything further, please do not hesitate to ask.

Sincerely,

A handwritten signature in blue ink that reads "Kate Burum". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Kate Burum
Assistant General Counsel and Funds Manager
Financial Assistance Division
