BOARD MEMBER APPOINTMENT NEWS

Gene O. Brown, P.E., S.E., of Edmond was appointed to the Oklahoma State Board of Licensure for Professional Engineers and Land Surveyors by Governor Kevin Stitt. Gene is a Principal with Frankfurt-Short-Bruza Associates P.C. (FSB), an architectural and engineering firm with offices in both Oklahoma City and Tulsa. He has served as a Professional Engineer and has served in responsible charge over many projects at FSB since June of 2003 when he was first licensed in Oklahoma, and currently he is licensed in more than a dozen additional States and U.S. Territories.

As the Principal over FSB's Federal Project Program, Gene has spent over two decades developing and managing a wide variety of government projects across the United States with a specialization in design of Air Force and Navy flightline facilities for emerging aircraft such as the B-21, VC-25B and F-35, among others. In addition, Gene has completed local projects at Tinker AFB and throughout the State of Oklahoma for the National Guard, GSA, and FAA. As a structural engineering intern, Gene was proud to have performed the engineering modeling for the new Dome over the State's Capitol. Gene's leadership at FSB has supported FSB's design teams' achievement of high-profile project honors including, "Outstanding Project of the Year Award" from the National Council of Structural Engineers Associations, "Federal Energy and Wastewater Management Award" from the DoD and many other Honor, Citation and Merit Awards.

Gene is passionate about serving the engineering profession and being involved in education. He serves on the Oklahoma State University Professional Advisory Council for the OSU School of Architecture where he graduated in 1998 with a Bachelor of Architectural Engineering. He is a LEED® Accredited Professional through the U.S. Green Building Council and is an active member in the Society of American Military Engineers. But he particularly enjoys the exchange of ideas and knowledge through authorship of design criteria and specifications, technical papers, and articles in national publications such as *The Military Engineer*, *Structure*, *Modern Steel Construction* and *Civil Engineering Magazine*. These written documents coupled with STEM talks, presenting at conferences, and technical criteria course instruction are additional ways Gene connects with and serves as a technical resource within his industry.

While all the above keeps Gene very busy, he is especially thankful for his family, wife Kari and daughters Avery and Adalyn, for supplying plenty of support and patience – and for always being ready to have some fun, enjoy life and share in another adventure.

Charles "Chuck" B. Darr, III, P.E. recently completed his term as a board member. He was appointed by Governor Mary Fallin to serve as a member from June 29, 2016, to June 28, 2022.

Raised in Oklahoma City, Chuck Darr graduated from Heritage Hall high school. He received his B.S. degree in Mechanical Engineering from Oklahoma State University in 1982 and became a licensed professional engineer in 1986. He has over 30 years of experience in the design of new and renovation projects. In 1995, Chuck and his partner, David Collins, P.E., established the firm Darr & Collins, L.L.C., (D&C) which provides professional consulting engineering services with a focus on mechanical and electrical design. D&C is a multi-discipline firm with

specialized skills in energy conservation renovation projects, institutional, and health care environmental systems.

As a member of the Board, Chuck served his term during an interesting time in the Board's history. With the onset of COVID and the ongoing pandemic, the Board was required to adjust the way it conducted business, and Chuck as well as the other members were instrumental in seeing that virtual meetings were held, and business was conducted in accordance with all the new provisions and regulations that allowed for virtual board meetings as well as NCEES meetings.

Chuck was actively involved in establishing the Professionally Engineering the Future scholarship program and later in creating the *Bill Dickerson Memorial Award* within the scholarship program. He served as the Chair of the P.E. Continuing Education Audit Committee for several years and helped re-established the Architectural/Engineering Joint Task Force, in which he plans to continue to participate. Chuck also served as the Board's Secretary, Vice Chair, and most recently Chair. He has been involved nationally with the NCEES and has been named an Emeritus Member of both the Board and NCEES.

Chuck and his wife Shari, as well as their extended family, joined the Board in a dinner in Chuck's honor recently, where he was presented a plaque honoring his six-year term as a board member and his year as Board Chair.

The Board and Staff would like to thank Chuck for his hard work and friendship, and we look forward to continuing to work with Chuck as he continues to serve the engineering profession.

Pictured above: Kathy Hart, Executive Director, Bruce Pitts, P.L.S., Glen Smith, P.E., P.L.S. Board Member, and Chuck Darr, P.E. attending the farewell dinner

FAREWELL AND BEST WISHES

by Bruce A. Pitts, P.L.S.

Looking back over my last 18 years as an advisor and compliance officer for this board, I have found that just about the most satisfying experience I have had was making presentations on board laws, rules, ethics, and the importance of licensure for students and engineering and surveying organizations. Making friends and meeting licensees, interns, building code officials and other professionals who are genuinely interested in learning about professional codes of conduct has been profoundly rewarding. I usually left those presentations with the strong sense that people for the most part want to know and follow the right course of action.

One of my favorite presentations is for the new licensees at the ceremony where their Certificates of Licensure are presented. The purpose of my short speech is simply to encourage the new licensees to commit to a career dedicated to placing protection of the public foremost in their professional decision making, and a reminder to be sure to thank all the people that helped and encouraged them along the way.

I remind them that not everyone who wants to get a license to practice engineering or surveying makes it across the education, examination, and experience hurdles; and no one ever gets through that imposing gauntlet alone. Naturally we heap gratitude to our parents, friends, spouses, teachers, and spiritual advisors for giving us our sense of right and wrong, for modeling how we get along with others and providing financial and loving support. But we must also thank our mentors who unselfishly cared enough to show us how to transform our jobs into rewarding careers. While I have no data to support this theory, my almost 43 years as a licensee working with and for engineers and surveyors strongly suggests that your mentors will be the key to your success as a licensed professional.

Mistakes, blunders, and incorrect judgments will be made. Career paths can take unforeseen twists and turns that lead into uncharted territory. But that's where your mentors are needed most to help you think and work through problems and life's challenges. I consider myself extraordinarily lucky for my friends and advisors who appeared just when I needed them.

The closing paragraph in my certificate ceremony presentation feels like the appropriate way to close my last article for the Board's Bulletin.

"In closing I admonish you to always remember that by virtue of your license, you have the public trust. It is a sacred trust that can only be preserved by practicing ethically, acting and speaking honestly and keeping the interest of the public foremost in your hearts and minds. Treat others the same way you would like to be treated, or how it has been written "Do unto others as you would have them do unto you."

Always remember that your licensing board stands ready to help you in any way possible. I wish you all the best and hope you experience the benefits I have been blessed with because of my professional license."

2022 NCEES Central/Southern Zone Joint Interim Meeting Hosted by the Oklahoma Board April 21-23, 2022

The Omni Hotel in Oklahoma City was the site of the 2022 NCEES Central/Southern Meeting, which brought in approximately 200 professional engineers, surveyors, NCEES staff and other guests to visit our state.

The NCEES zone interim meetings are held each spring. The primary purpose of the meeting is for representatives from the member licensing boards to hear and discuss reports from the NCEES board of directors, CEO, standing committees, and task forces. The work of the committees and task forces results in motions that will be presented for Council vote at the annual meeting in August. Zone meeting delegates have the opportunity to ask questions and discuss possible annual meeting motions, and they are encouraged to take information back to their boards for further discussion. Additionally, delegates will provide individual board updates to their respective zones.

Oklahoma, as a member board of the Southern Zone, is represented by officers Andrew Zoutewelle, PLS, (North Carolina) Vice-President; Lamberto Balli, P.E., (Texas) Assistant Vice President; and Chris Ramseyer, P.E., S.E., (Oklahoma) Secretary-Treasurer (not in attendance).

A special Thank You to the Oklahoma Board Staff and Members for all their hard work to make this a successful event!

Pictured Below: *Oklahoma Board Member Aaron Morris, PLS, presenting the report for the NCEES Examinations for Professional Surveyors Committee. Aaron is completing his 2nd year as Chair of the EPS Committee.*

Pictured Right: (left to right) *Oklahoma Board Attorney Robert Manchester, Board Member Richard Willoughby, PE, and Board Chair Chuck Darr, PE* enjoying the Welcome Reception honoring Oklahoma Music and Musicians at the Scissortail Terrace at the OMNI Hotel.

Pictured Left: *Oklahoma Board Chair Chuck Darr, P.E. with guest speaker Anthony Blatt, AIA* who spoke to the delegates regarding the history of the First American’s Museum Project. A special Thank You to Mr. Blatt for sharing his personal experience with this unique project with the NCEES delegates.

Modified CCR Form and Instruction Manual Adopted

At the June 9, 2022 meeting of the Board, changes to both the Certified Corner Record (CCR) form and the Instruction Manual for Oklahoma Certified Corner Records were modified as authorized by the Corner Perpetuation and Filing Act, O.S. Title 65, Sections 3.116-3.123. These changes are intended to clarify some of the confusion in the language and to place more emphasis on certain sections that continue to cause concern for some surveyors.

CENTER OF SECTION: In 2018, OAC 245:15-21-2(b) was revised to include the requirement that the Center Quarter Section Corner must be filed if it is used as control in a survey and monumented, or an existing monument is accepted. While there are Federal instructions in the BLM Manual for establishing the legal center of section, professional land surveyors also must consider long established evidence of the center of section that may not fall in the same place as a calculated position. To perpetuate the center corner for following, it is particularly important for the center of the section to be filed in those instances where the calculated position is not used. It is within the jurisdiction of the PLS to determine when a long-established position for a corner is the best evidence of the center of section location. It follows that the most effective way to perpetuate that position is by filing a CCR and giving the following PLS' the information they need to rely upon that position. To summarize, if the center of the section is used as control in the survey and you monument that position or accept an existing monument at that position, you are required to file a CCR for that position.

CORNERS USED FOR PROPORTIONAL MEASUREMENT: Even though there are few situations in which there is no evidence available for you discover so that you will be able to classify a corner as obliterated, there occasionally are remote locations where there is absolutely no evidence of the location of the original corner. Those corners are to be classified as lost and must be established by proportional measurement. Since the corners used in establishing the single or double proportion are necessary as control in the survey, CCR's must be filed for those corners.

SHOWING OR LISTING SUPPORTING EVIDENCE:

The language in the revised manual and form has been updated to add emphasis to the importance of including supporting evidence to monuments both found and set. Following in the footsteps of the previous surveyor is a foundational surveying principle; so, leaving defensible supporting evidence of why you accepted a monument or why you placed a monument where you did is necessary to give the following surveyors confidence in your position. Of course, those surveyors following you are responsible for verifying the points they use as control, so your CCR's need to be completed in such a way as to fulfill the purpose of the Corner Perpetuation Act which in part reads "the providing for property security and a coherent system of property location and identification; and thereby eliminating the repeated necessity for re-establishment and relocation of such corners once they are established and located."

Only PLS' are charged with the responsibility of the determination and preservation of land boundaries in this state. For almost 44 years, The Corner Perpetuation and Filing Act has provided a platform to assist surveyors to systematically protect the boundaries and to leave lasting footsteps for those surveyors who follow. The Board considers the perpetuation of public land corners as a primary function of surveyor licensure, actively enforces of the provisions of this Act and will continue to work with surveyors to make the instruction manual and form as complete and clear as possible.

The updated Manual of Instructions and the Certified Record Form can be found at:
https://www.ok.gov/pels/Publications/CCR_Instruction_Manual_and_CCR_Form/index.html

DISCIPLINARY ACTIVITY OF THE BOARD

DISCLAIMER: Every effort has been made to ensure that the following enforcement information is correct. However, this information should not be relied upon without verification from the Board office. It should be noted that the names of companies and individuals may be similar to the names of parties who have not had enforcement actions taken against them. If you require a copy of a consent or final order please email mcaruthers@pels.ok.gov to make this request.

April 2022**Blew Land Surveying, Inc., dba Blew & Associates, CA 5387, and Buckley D. Blew, P.L.S. 1681, Case No. 2021-068**

Through Consent: Blew Land Surveying, Inc., dba Blew & Associates issued numerous ALTA/NSPS Land Title Surveys and Elevation Certificates that failed to achieve minimum standards as required by the Oklahoma Minimum Standards for the Practice of Land Surveying. In this regard, Blew Land Surveying, Inc., dba Blew & Associates were found Guilty and assessed an administrative fine of \$2,000. Buckley D. Blew, signed, sealed, and issued the ALTA/NSPS Land Title Surveys that failed to achieve minimum standards as required by the Oklahoma Minimum Standards for the Practice of Land Surveying. In this regard Blew was found Guilty and assessed an administrative fine of \$2,000. Because the surveys and elevation certificates issued by Blew Land Surveying, Inc., dba Blew & Associates and Buckley D. Blew were in violation of the Minimum Standards for the Practice of Land Surveying the firm engaged in dishonorable, unethical, or unprofessional conduct of a character likely to deceive the public. In this regard Blew Land Surveying, Inc., dba Blew & Associates and Buckley D. Blew were found Guilty and assessed an administrative fine of \$2,000.

Gregory S. McVicar, P.L.S. 1828, Case No. 2021-070

Through Agreement: Gregory S. McVicar surrendered his Certificate of Licensure to the Board in lieu of formal administrative action and is permanently barred from reissuance of licensure as a professional land surveyor in the State of Oklahoma.

Kenneth L. Pepowski, P.E. 32920, Case No. 2021-086

Through Agreement: Kenneth L. Pepowski surrendered his Certificate of Licensure to the Board in lieu of formal administrative action and is permanently barred from reissuance of licensure as a professional engineer in the State of Oklahoma.

Robert J. Jurmu, P.E. 32903, Case No. 2021-086

Through Agreement: Robert J. Jurmu surrendered his Certificate of Licensure to the Board in lieu of formal administrative action and is permanently barred from reissuance of licensure as a professional engineer in the State of Oklahoma.

Clinton J. McAdams, Case No. 2021-102

Through Consent: Clinton J. McAdams did not have a Certificate of Licensure to offer and/or practice land surveying in the State of Oklahoma at the time the land surveying services were offered and provided. In this regard McAdams was found Guilty, assessed an administrative fine of \$1,500 and Reprimanded.

Shiver-Megert & Associates, LLP, CA 8852, Case No. 2021-104

Through Consent: Shiver-Megert & Associates, LLP did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the engineering

services were offered and performed. In this regard Shiver-Megert & Associates, LLP were found Guilty, assessed an administrative fine of \$1,500 and Reprimanded.

Abrahamson & Associates and George W. Abrahamson, Case No. 2022-003

Through Consent: Abrahamson & Associates did not have a Certificate of Authorization to offer and/or practice engineering and land surveying in the State of Oklahoma at the time the engineering and land surveying services were offered and performed. In this regard Abrahamson & Associates were found Guilty, assessed an administrative fine of \$2,000 and ordered to Cease and Desist from offering and/or practicing engineering and/or land surveying in the State of Oklahoma until such time as they are licensed to do so. George W. Abrahamson did not have a Certificate of Licensure to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and provided. In this regard, Abrahamson was found Guilty, assessed an administrative fine of \$1,250 and ordered to Cease and Desist from offering and/or practicing engineering in the State of Oklahoma until such time as he is licensed to do so.

RMS Engineering, Inc., CA 8366 (Inactive) and Reza Sadeghbeigi, P.E. 31905, Case No. 2022-006

Through Findings of Fact, Conclusions of Law and Final Order: RMS Engineering, Inc. and Reza Sadeghbeigi failed to comply with the terms imposed by the Findings of Fact, Conclusions of Law and Final Order in Board Enforcement Case No. 2019-079. In this regard RMS Engineering, Inc. and Reza Sadeghbeigi were found Guilty, and the Certificate of Authorization No. 8366 and P.E. Certificate of Licensure No. 31905 are hereby REVOKED.

June 2022**Wall Engineering, LLC, CA 5413 and Brandon Wall, P.E. 21108, Case No. 2021-057**

Through Consent: Brandon Wall prepared, signed, sealed, and issued the electrical engineering design drawings which were outside his area(s) of engineering competence as designated in official Board records. In this regard Wall was found Guilty, assessed an administrative fine of \$1,500 and Reprimanded. At the time Wall prepared, signed, sealed, and issued the electrical engineering design drawings outside his area of competence as designated in Board records, he failed to engage other competent licensed engineer(s) when he contracted to furnish services outside his area of competence. In this regard Wall was found Guilty, assessed an administrative fine of \$1,500 and Reprimanded. Wall Engineering, LLC aided and assisted Wall when he prepared, signed, sealed, and issued the electrical engineering design drawings which were outside his area of competence as designated in official Board records. In this regard Wall Engineering, LLC was found Guilty, assessed an administrative fine of \$1,500 and Reprimanded.

DISCIPLINARY ACTIVITY OF THE BOARD (cont.)

Modular Structural Consultants and Yurianto Yurianto, P.E. 28662 and Chris H. Kim, P.E. 31641, Case No. 2021-103

Through Consent: Modular Structural Consultants did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the services were offered and performed. In this regard Modular Structural Consultants were found Guilty, assessed an administrative fine of \$1,200 and ordered to Cease and Desist from offering and/or practicing engineering in the State of Oklahoma until such time as they are licensed to do so. Yurianto Yurianto knew or should have known that Modular Structural Consultants did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and provided and has, therefore, aided and assisted the firm in the unlicensed offer and/or practice of engineering in the State of Oklahoma. In this regard, Yurianto was found Guilty and assessed an administrative fine of \$1,200. Yurianto Yurianto failed to meet the requirements for having direct control, personal supervision and being in responsible charge of Barun and Yurianto failed to include Barun's title block or his personal contact information on the engineering calculations and drawings. In this regard, Yurianto was found Guilty and assessed an administrative fine of \$1,200. Chris H. Kim knew or should have known that Yurianto did not meet the requirements of being in direct control, personal supervision and being in responsible charge of the services being offered and performed by the Firm and that the Firm did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma. In this regard, Kim was found Guilty and assessed an administrative fine of \$1,200.

Open Range Engineering Solutions, PLLC, CA 5779 and Ronald E. Nelson, Case No. 2022-004

Through Consent: Ronald E. Nelson did not have a Certificate of Licensure to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and performed. In this regard, Nelson was found Guilty and assessed an administrative fine of \$1,000. Open Range Engineering Solutions, PLLC knew or should have known that Ronald E. Nelson did not have a Certificate of Licensure to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and performed and has, therefore, aided and assisted Nelson in the unlicensed practice of engineering in the State of Oklahoma. In this regard, Open Range Engineering Solutions, PLLC was found Guilty and assessed an administrative fine of \$1,000.

Zach Cox, P.E. 33171, Case No. 2022-009

Through Consent: Zach Cox did not have a Certificate of Licensure to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and performed. In this regard, Cox was found Guilty, assessed an administrative fine of \$1,500 and Reprimanded. Cox failed to apply his Oklahoma seal to the engineering services provided to his client. In this regard, Cox was found Guilty, assessed an administrative fine of \$1,500 and Reprimanded.

Aaron Demaray Tainter, TL 943, P.E. 33422, Case No. 2022-016

Through Consent: Aaron Demaray Tainter failed to submit a complete permanent P.E. application to the Board within thirty (30) days of the issuance of the temporary license. In this regard, Tainter was found Guilty and assessed an administrative fine of \$1,200.

Kupper Engineering, LLC, CA 6976 and Scott T. Kupper, P.E. 27094, Case No. 2022-017

Through Consent: Kupper Engineering, LLC did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the services were offered and performed. In this regard Kupper Engineering, LLC was found Guilty, assessed an administrative fine of \$1,500 and Reprimanded. Scott T. Kupper knew or should have known that Kupper Engineering, LLC did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and performed. In this regard Scott T. Kupper was found Guilty, assessed an administrative fine of \$1,500 and Reprimanded.

July 2022

Foresight Land Surveying, LLC, CA 7652 and Jason R. Lilly, P.L.S. 1950, Case No. 2021-063

Through Consent: Foresight Land Surveying, LLC, failed to achieve minimum standards as required by the Oklahoma Minimum Standards for the Practice of Land Surveying. In this regard Foresight Land Surveying, LLC was found Guilty, assessed an administrative fine \$2,500 and Reprimanded. Jason R. Lilly, failed to achieve minimum standards as required by the Oklahoma Minimum Standards for the Practice of Land Surveying, and failed to file Certified Corner Records for the public land survey corners used as control with the Archives and Records Division of the Oklahoma Department of Libraries within 90 days after the survey was completed in violation of the Corner Perpetuation and Filing Act. In this regard Lilly was found Guilty, assessed an administrative penalty of \$5,000 and Reprimanded. Additionally, Lilly failed to comply with the terms of the Consent order in Case No. 2018-045. In this regard Lilly was found Guilty, assessed an administrative penalty of \$4,000, ordered to file Certified Corner Records for the corners not filed in Case No's. 2018-024 and 2021-063, take and successfully complete the class in the Minimum Standards for the Practice of Land Surveying offered by the Oklahoma Society of Land Surveyors at its 2023 Annual Convention, successfully complete a Board approved course in Land Surveying Ethics within one year of the date of the Consent Order, and shall be audited for compliance with continuing education requirements in the next renewal cycle of his Certificate of Licensure. Failure to comply with the provisions of this order shall prompt the Investigation Committee to file an immediate Notice to Appear before the Board to show cause why the Certificate of Authorization and the Certificate of Licensure should not be suspended or revoked.

DISCIPLINARY ACTIVITY OF THE BOARD (cont.)

Rizzo International, Inc., CA 8944 and John P. Osterle, P.E. 27961, Case No. 2022-041

Through Consent: Rizzo International, Inc. did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and performed. In this regard Rizzo International, Inc was found Guilty, assessed an administrative fine of \$5,000 and Reprimanded. John P. Osterle, knew or should have known that Rizzo International, Inc. did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and performed, therefore, Osterle has aided and assisted Rizzo International, Inc. in the unlicensed offer to practice and practice of engineering in the State of Oklahoma. In this regard, Osterle was found Guilty, assessed an administrative fine of \$3,000 and Reprimanded.

Professionally Engineering the Future Scholarship 2022-2023

2022-2023 Professionally Engineering the Future Scholarship Recipients

Pictured below are a some of the 55 recipients of the Fall 2022, Spring 2023 scholarship (pictures submitted by the recipients)

Professionally Engineering the Future Scholarship 2022-2023

Pictured Left is Peyton Pierson, recipient of the inaugural “Bill Dickerson, P.E. Memorial Award.” Bill Dickerson helped advance the profession of Engineering for almost 40 years. He selflessly devoted considerable time and expertise to NCEES helping develop the Exams we see today. He also dedicated his time to the Board with his outreach efforts to students and his promoting of ethics and values of professional licensure. In his memory, we are proud to recognize Peyton Pierson as a worthy recipient of this award.

Hill, Jimmy W.	129
Harder, Theodore Vernon	1339
Heinz, Richard Eugene	1186
Ingram, Kevin J.	1717

Interested in Retiring Your P.E. or P.L.S. License?

OAR: 245:15-7-1(c) states, "When a professional engineer or land surveyor in good standing desires to retire his or her license, he or she may do so upon application to the Board, subject to reinstatement and continuing education requirements by the Board." If retirement is the reason for not renewing your license and you choose to place your license on Retired status, you may do so from the online renewal site. Register and log in to your online renewal account, select "Renew", then choose the retirement option when prompted and complete the process online. By choosing the Retired status, you will no longer be required to earn continuing education hours or be required to pay a fee. However, you will not be allowed to practice your profession in Oklahoma. You will receive a wallet card showing Retired status and you will remain on the Board's online roster as Retired. **PLEASE NOTE:** If you renew your license and certify that you have met the continuing education requirements, you shall NOT be allowed to retire your license after the fact in lieu of an administrative action if you are chosen for audit and do not have the required hours. If you have further questions or need assistance, please contact Teresa Anderson at tanderson@pels.ok.gov

LICENSE EXPIRATIONS - November 1, 2021 - April 30, 2022

**COMPLIANCE WITH THE OKLAHOMA TAX COMMISSION REQUIRED FOR
RENEWAL OF ALL PROFESSIONAL LICENSES...**

Oklahoma Statutes require that a licensee must be in compliance with the Oklahoma Tax Commission to qualify to renew their professional license. If you are notified by the tax commission that you are in non-compliance, please act immediately. The Board does not have the authority to waive this requirement, so CONTACT THE OKLAHOMA TAX COMMISSION if you are notified.

Eric D. Casper

Communications and Outreach Strategist

Need a Speaker?

If your university, classroom or student organization, firm, or professional or technical organization would benefit from a presentation on the FE/FS and/or PE/PS exams, engineering and/or surveying ethics, continuing education requirements, or the importance of licensure, we are happy to assist. We offer both in-person presentations and virtual presentations. Please contact our Communications and Outreach Strategist, Eric D. Casper, at ecasper@pels.ok.gov or 405-522-3358 to make your request.
