Oklahoma Licensed PharmDs: Oklahoma State Board of Pharmacy (OSBP) Contact Hours

All other healthcare professionals: Non-Physician Certificate of Participation.

In partnership with the Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS), the University of Oklahoma Health Science Center (OUHSC) and the OU-TU School of Community Medicine have created a comprehensive six module CME program called **Do No Harm (DNH) 2.0: Putting Safer Pain Management Into Practice**. The program is comprised of Module 1: Overview; Module 2: Epidemic; Module 3: Pain; Module 4: Analgesia; Module 5: Patient Engagement; and Module 6: Practice Systems.

Module 1 of this program provides an overview of the requirements of Oklahoma Senate Bill 1446 and meets the one-hour training requirement.

The training is delivered on the ODMHSAS Learning System with self-assessment questions. There is no cost to take the training. At the conclusion of each module, you will be provided the opportunity to transfer to the OU CloudCME™ website to register, complete a post-test and evaluation of each module and claim your credit at no cost.

Go to <https://odmhsas.docebosaas.com/learn> to launch your learning experience.

The passing standard on each of the post tests is 80%. A learner may take the test up to three (3) times. Once you pass the test **and complete the evaluation** you will be able to print your certificate and/or transcript.
