(a) **Receiving complaints.** The Board shall receive citizen complaints against licensees using the online reporting system located on the state agency website. The written citizen complaint may be anonymous as long as it contains detailed information sufficient to independently verify the allegations made. Upon receipt of the citizen complaint, the Board staff shall:

- (2) generate a letter to the complainant indicating receipt and review of the citizen complaint by Board officials (if applicable),

If the allegation does not indicate a possible violation of this code, the Complaint Committee shall instruct the Board staff to generate a letter to the complainant

thanking them for their concern and advising them that the complaint does not fall within the purview of the Board. If the allegation does indicate a possible violation of this code, the Complaint Committee shall make the following determination:

- (1) The alleged violation appears to be one which would not, if found to be valid, result in a denial, revocation or suspension of a license, but one which does indicate the need for Board review and possible informal action.
- (2) The alleged violation appears to be one which could, if found to be valid, result in a denial, revocation or suspension of a license.

(c) Allegations, if substantiated, not appearing to result in a denial, revocation or suspension of a license. If an alleged violation appears to be one which would not result in a denial of renewal, revocation or suspension of a license, the chair or chair's designee shall proceed with addressing the allegation by reviewing the complaint with the Attorney General liaison for the Board. Upon the consent of the chair or chair's designee and the advice of the Attorney General liaison the chair or chair's designee shall proceed by:

- (C) an agreement by the Board and the licensee on the merits of the complaint;

- (E) a review of the course of action in a specified time, not longer than six months, to determine whether or not remediation has taken place; and
- (F) a letter to the licensee indicating that the informal process has ended; or,

(3) Referral to the formal investigation process when:

- (A) the licensee fails to respond to the certified letter from the Board;
- (B) the informal process reveals new or expanded allegations that indicate the possibility of a denial, revocation or suspension of a license;
- (C) the licensee fails to meet the requirements of Consent Decree without good cause.

(4) A Consent Decree entered into pursuant to this subsection that is agreed to by the Board and the licensee shall not be considered a disciplinary action and will not appear on the Board's website or be reported to a national databank.

(d) Allegations, if substantiated, appearing to result in a denial, revocation or suspension of a license. If an alleged violation appears to be one which would result in a denial of renewal, revocation or suspension of a license, the Complaint Committee shall proceed with addressing the complaint by the process detailed below based upon agreement of a majority of its members:

- (1) Contacting an investigator designated by the Board as qualified to address the nature of the complaint.

 - (B) the possibility of a criminal investigation being conducted concurrently or subsequently to the Board investigation.
 - (5) Submitting the investigative report to the Complaint Committee for review and recommendation to the Board concerning proposed action to be taken concerning the complaint.
 - (6) Placing the complaint on the agenda for the next Board meeting for report on the status of the complaint and possible action by the Board.
- Possible actions by the Board would include:
- (A) a dismissal of the complaint due to lack of evidence of a code violation;
 - (B) a referral to the informal process due to a finding that the results of the investigation reveal code violations, but not ones that would

- result in the need for denial, revocation or suspension;
- (C) a decision to hold a hearing as provided for in Section 675:3-1-4 of this Chapter;
- (D) a Consent Decree that is agreed to by the Board and the licensee.

675:12-1-6. Board Approved Supervisors

(a) **Requirements.** The 3,000 hour supervisory requirement for specialty certification contracted external to the agency must be under the supervision of a Board Approved Supervisor. A Board approved social worker with one of the specialty certifications presently recognized by the Board does not automatically qualify as a Board Approved Supervisor. The knowledge, experience, and skill base

of a Board Approved Supervisor exceeds the minimum requirements for specialty certification. Applicants for a Board Approved Supervisor shall:

- (1) Submit an application on the most current forms provided by the Board.
- (2) Be a Licensed Social Worker with the title licensure in the same method as supervisor status is sought.
- (3) Have at least five (5) years of full time work experience (or equivalent) beyond the master's degree in social work. Three of these five years must be full time work experience (or equivalent) in the specialty that supervisory status is sought.
- (4) Have at least two years of clinical and/or administrative supervisory work experience following completion of the master's degree in social work. Clinical and/or administrative work experience is qualified as having supervised an individual for licensure eligibility. Employment supervision and supervising practicum students does not qualify as clinical or administrative supervisory experience.
- (5) Have two (2) letters of reference submitted to the Oklahoma State Board of Licensed Social Workers. At least one letter shall be from a licensed social worker holding the same licensure title and shall address supervisory skills.

(b) Approved supervisor status. Board approved supervisor status remains in effect contingent upon the following:

- (1) Maintaining a current license in good standing;
- (2) Completing supervisor training sponsored or approved by the Board, within one year of approval and at least every three years thereafter and maintaining compliance with the minimum supervision expectations. Documentation of such participation will be furnished to the Board and will be updated periodically as required by the Board.
- (3) The supervisory status may be suspended or terminated by the Board if the supervisor fails to provide adequate supervision to a supervisee.
- (4) A supervisor may not be related within the second degree by affinity (marriage) or within the third degree by consanguinity (blood or adoption) to the person they are supervising.

(c) Minimum supervision expectations.

- (1) A supervisee may not engage in private or independent practice while under supervision. A supervisee may not do contract work for an employer as a non-clinically licensed social worker.
- (2) A supervisee seeking clinical licensure shall not assign a clinical diagnosis independent of their clinical supervisor or a qualified practitioner within the agency setting to a client for which they are providing services.
- (3) A supervisee must complete 3,000 hours of post graduate practice experience under the supervision of a licensed social worker with the same social work practice specialty. Supervisees seeking clinical licensure must

have at least 3,000 hours of direct client contact. Direct client contact may include any activities directly associated with the provisions of treatment for a client. Direct client contact does not include administrative activities, case management work, travel to/from meetings, training, etc. For supervisees working 20 hours or more per week, the supervisee must receive no less than an average of one continuous hour per week of supervision for a minimum of 100 hours. The maximum period between educational supervision meetings is two weeks, in which case the supervisor and supervisee must meet for two hours. For supervisees working 19 hours or less per week, the supervisee must meet with their supervisor at minimum of once every two weeks for one hour. Group supervision is acceptable if such supervision does not exceed at least one-half of the total supervisory time per evaluation period. Group supervision is defined as educational supervision conducted with more than one supervisee by a licensed social worker with appropriate certification in the specialty sought by supervisees, or a Board Approved Supervisor with appropriate certification in specialty sought by supervisees. The group should be limited in size to no more than 4 supervisees.

(4) A contract will be negotiated by the supervisor and supervisee and must be submitted to the to the Oklahoma State Board of Licensed Social Workers prior to beginning supervision. Supervision contracts must be submitted online using the agency approved submission format. Any supervision completed prior to approval of the supervision contract will not be accepted. A contract shall not be valid if the supervisor and supervisee have a relationship that could affect the employment or benefits of the supervisor, and that relationship could, in any way, bias or compromise the supervisor's evaluation of the supervisee. Should the contract be terminated before completion of the minimum number of hours required, the supervisee is responsible for negotiating a new contract and obtaining all evaluation and termination forms required to document prior supervision. The supervisee shall notify the Board within 30 days of any job change and submit a new job description.

(5) There will be a minimum of two (2) written evaluation periods:

(A) when a supervisee acquires a minimum of 50 hours of supervision and 1500 clinical hours

(B) when a supervisee acquires a minimum of 100 hours of supervision and 3000 clinical hours

(C) submission of all evaluation forms are the responsibility of the supervisee and are due within thirty (30) days of each of the reporting periods.

(D) supervisees terminating their supervision for any reason must complete and submit all evaluation forms and termination records

within thirty (30) days of termination.

- (6) Evaluations will be provided by the supervisee or supervisor to the Board office. At the Board's discretion, failure to comply with reporting requirements stated herein may result in the loss of supervisory hours.
- (7) If supervision is terminated by either party, either the supervisee or supervisor is responsible for notifying the Board and completing a termination form. Such termination form must be received by the Oklahoma State Board of Licensed Social Workers within 14 days of the termination.
- (8) If there is any question regarding the supervisee's competency, the supervisor is free to ask for a sample of supervisee's work.
- (9) It is required that all supervisors for licensure participate in supervision training sponsored or approved by the Board at a minimum of once every three years. Documentation of such participation will be furnished the Oklahoma State Board of Licensed Social Workers and will be updated periodically as required by the Board.
- (10) When the proposed supervisor is not a staff member of the supervisee's agency, social work ethics demand the proposed supervisor ensure the agency administration (or its representative) is in accord with the arrangements for supervision by a qualified supervisor. This is essential whether these arrangements are made by the agency or the supervisee and regardless of whether the agency contributes to financial compensation of the supervisor. The supervisor is responsible for securing agreement from the agency administration as to the purpose and content of the desired supervision and the supervisor's specific role responsibilities and limitations. The supervisor is also responsible for learning agency functions and policies so that any supervisory suggestions are constructive and realistic within agency purposes and resources.
- (11) Supervision from a Board Approved Supervisor may be contracted from outside the agency should internal supervision be unavailable.
- (12) All supervisors will adhere to the guidelines on supervision required by the Oklahoma State Board of Licensed Social Workers.
- (13) Supervision paperwork submitted six months outside the above-mentioned timeframes will not be accepted and the hours will not be granted.

(d) Licensees supervising within their agency must have a minimum of two years' work experience after passage of the proper licensure exam in order to be eligible to supervise individuals for licensure.

Continuing education hours. The number of hours specified for each social work license specialty title is 16 clock hours of verified continuing education per specialty per licensing period. Any individual holding more than one license is required to obtain 6 additional hours of continuing education credit for each additional license. Licensees should seek continuing education credits that reflect the nature of their licensures and scope of their practices. All licensees must receive a total of 3 hours of ethics training as defined by the Board. For individuals who have more than one license, ethics training can be obtained for either specialty. As specified in the Oklahoma Social Worker's Licensing Act, the license must be renewed no later than the end of each calendar year.

675:15-1-5. Information to providers of continuing education

(a) When planning a continuing education activity for social workers, the provider needs to consider six essential program elements. The guidelines that follow delineate those elements and establish respective professional expectations of providers. The licensed social worker, in turn, can use these guidelines as the basis for inquiry about a provider's qualifications, leading to better decisions about which offerings to pursue.

(1) **Program development.** Adequate and responsive continuing education program development requires interaction among sponsoring administrators, the instructor or educational leader, and potential social work consumers. The provider needs to involve social workers in the identification of learning needs, in the selection and development of educational events to meet those needs, and in the establishment of appropriate evaluation mechanisms. Involvement of social workers with content expertise and an understanding of the educational objectives are recommended as well.

(2) **Program content.** Continuing education events for social workers should clearly relate to social work practice, theory, and methodology; to the level of social work education; to social policy; or to administration, planning, and research related to human services. As a guide for participation, learning objectives and content designed to meet those objectives should be specified for each event. The way in which the content will meet the learning needs of social workers also should be made clear. Such information should be provided on promotional materials or upon request.

(3) **Participants.** Selection of participants for continuing education events must not discriminate by reason of gender, age, race, ethnic background, sexual orientation, physical abilities, or other characteristics. Promotional materials should clearly state the educational level of the social worker as well as any prerequisites for whom the event is targeting.

(4) **Program format and instructional methodology.** The provider should be able to demonstrate that the format and methods selected for continuing education were influenced by contemporary adult learning theory; the identified learning needs of the participants; and the learning objectives, the educational content, and the size and composition of the participant group. Methodologies need to be diverse and encourage the active participation of the learner in the educational process. A variety of teaching techniques should be considered; any assignments, such as readings or structured exercises, should be related to the conceptual content, and any audio-visual resources should be used in a planned manner.

(5) **Qualified instruction.** The sponsor of a continuing education event must make sure that the instructor, speaker, or educational leader is qualified. Individual providers have responsibility for offering only those events for which they are qualified. Specific qualifications include:

(A) competence in the subject matter as determined by a combination of two of the following:

- (i) license, registration or certificate in an area related to the course subject matter;
- (ii) master's or higher degree in an area related to the course subject matter;

- (iii) training, certification or teaching experience in subject matter related to the course subject matter;
- (iv) at least two years' experience in an area related to the course subject matter.

- (B) ability to transmit the educational content to the participants' understanding of continuing education objectives
- (C) knowledge and skill in instructional methodology, learning processes, and the use of emotionally laden material
- (D) capacity for self-evaluation and modification of future offerings in response to evaluations conducted by self, sponsor, and participants
- (E) maintenance of an appropriate certification, credential, or license for subject matter.

(6) **Program evaluation.** Formal evaluation of each continuing education event is essential for maintaining or improving the quality and effectiveness of future events. Measures of evaluation need to be established during the planning phase and linked directly with the event's learning objectives. Two distinct but related measures of evaluation may be appropriate. The first is the instructor's, sponsor's, and participants' assessment of the event with respect to content, format, methodology, instruction, and facilities. The second is assessment of the knowledge acquired by participants and is based on:

- (A) demonstration of a taught skill
- (B) an oral or written test
- (C) a project or report
- (D) a self-assessment checklist
- (E) another instrument designed to collect data on changes in participant knowledge or performance attributed to the educational experience. The instructor and sponsor together should review the evaluation outcome and revise subsequent events accordingly.

(b) The form to verify continuing education activity must contain the following information:

- (1) Program name or title
- (2) Instructor(s) or Presenter(s)
- (3) Date
- (4) Number of clock hours of program
- (5) Format in which the activity was provided

(c) Approved continuing education providers are noted in 675: 15-1-2 of this section. For continuing education providers not listed in :675: 15-1-2 of this section, the Board will offer non-approved providers the opportunity to become approved providers by submitting the most current application form(s) provided by

the Board along with the fee as set forth in 675:1-1-9. The Board may audit approved providers at any time.

(d) Upon notice of approval of a continuing education application, the provider may designate this status on their brochure along with the provider number issued by the Board.

(e) A licensee may request approval of a program or event by submitting the most current application form(s) provided by the Board along with the fee as set forth in 675:1-1-9. Approval will be restricted to the individual licensee making application.
