Annual Payroll:	Single Persons						

GENERAL INFORMATION: INCOME TAX WITHHOLDING

In general the withholding law will apply to everyone receiving compensation for services rendered in Oklahoma with the exception of those services specifically excluded under Section 2385.1, Title 68, Oklahoma Statutes as amended:

- (1) for services paid to an employee in connection with farming activities where the amount paid is nine hundred dollars (\$900.00) or less monthly; or
- (2) for domestic services in a private home, local college, club or local chapter of a college fraternity or sorority; or
- (3) for services not in the course of the employer's trade or business performed in any calendar quarter by an employee, unless the cash remuneration paid for such service is \$200.00 or more; or
- (4) for services performed in the state by a person who is not a "resident individual", whose income in any calendar quarter is not more than three hundred dollars (\$300.00); or
- (5) for services performed by a duly ordained, commissioned, or licensed minister of a church in the exercise of his ministry or by a member of a religious order in the exercise of duties required by such order.

Identification Number...

The employer's identification number for Oklahoma withholding tax purposes is the same number assigned by the Internal Revenue Service for reporting Federal employment taxes. Every employer must have a Federal Employers Identification Number. Employers may obtain a Federal Identification Number by making application with the Internal Revenue Service on Form SS-4 or by calling (800) 829-4933.

GENERAL INFORMATION, CONTINUED...

Filing Requirements...

Report: Every employer required to deduct and withhold Oklahoma income tax from an employee's wages must file a report each calendar quarter on or before the 20th day of the month following the close of the quarter, except where the amount withheld is more than \$500.00 per quarter. Where the tax withheld is in excess of \$500.00 per quarter, but less than \$5,000.00, a report must be filed on a monthly basis on or before the 20th of the following month. Where the tax withheld is \$5,000.00 or more per month in the previous fiscal year every employer shall file returns electronically.

Remittance: Same as above, except every employer owing an average of \$10,000.00 or more per month in taxes in the previous fiscal year shall remit the amount so withheld on the same dates as required under the Federal Semiweekly Deposit Schedule for federal withholding taxes. Effective March 1, 2010, all remitters of Oklahoma income tax withholding that are on the Federal semi-weekly deposit schedule must remit Oklahoma withholding tax at the same time using the Federal semi-weekly deposit schedule. For employers making payments other than by electronic funds transfer, a withholding payment voucher shall be filed with each payment.

In order to efficiently process your payments and reports and avoid possible penalty and interest on delinquent payments, we encourage you to use our on-line filing system, QuickTax, by logging on to our website at www.tax.ok.gov. The QuickTax system provides you the opportunity to make remittances and file your reports without the burden of preparing paper returns and mailing your check.

Reporting Forms...

For those who have not elected to file electronically, forms on which to report tax withheld will be furnished to employers registered with the Commission before the end of each report period. Blank reporting forms are also available on the web at www.tax.ok.gov. **Registration with the Oklahoma Tax Commission...**

New employers should request, complete, and submit a Business Tax Registration Form, which may be obtained on the web at www.tax.ok.gov or by contacting the Oklahoma Tax Commission at (405) 521-3160.

Annual Reconciliation and Employer's Earning Statements...

Employers are no longer required to file an Annual Reconciliation of Oklahoma Income Tax Withholding Report (Form OW-1) with the Tax Commission. Instead, if there are adjustments to be made to your withholding account (either overpays or underpays), please use your Oklahoma Employers Withholding Report (Form OW-9). Enter the adjustment amount on line 3, and complete the appropriate section on the back of the form.

Also, employers are no longer required to send copies of employee W-2's that were submitted with the reconciliation report.

The optional Federal W-2 combined packet issued by the U.S. Treasury Department is to be used for both Oklahoma and Federal Withholding Tax Earnings Statements. The Federal Form is to be distributed as follows: three (3) copies to the employee, one (1) copy to the Social Security Administration, and one (1) copy to be retained in the employer's file.

Privately printed forms approved by the Internal Revenue Service may be used.

Employees must be furnished a Form W-2 on or before January 31 if employed at the close of the preceding calendar year. If an employee's employment is terminated before the close of a calendar year, a Form W-2 must be furnished within thirty (30) days of the date wages were last paid.

Overpayment...

When an employer believes that he has made an overpayment of the tax required to be withheld, he may file a written request for a refund with the Tax Commission or apply the overpayment against the payment which he is required to make for a subsequent period. Sufficient explanation must accompany the report to enable the Commission to make a determination as to the correctness of the credit/refund requested. Credits and refunds shall be allowed only to the extent that the amount of such overpayment was not withheld.

Penalty for Failure to Withhold or Pay Taxes Withheld...

Penalty for failure to file a return or to pay the tax withheld when due is 10% of the amount of tax, or 10% of the amount of underpayment of tax, if not paid on or before the last day of the month when due. Interest at the rate of 1.25% per month is due on any amount not paid by the due date.

Under the Income Withholding Tax Law of Oklahoma, every person who, as an officer of a corporation, a member of a partnership or as an individual employer, is under a duty to withhold and remit Oklahoma Income Withholding Tax may be personally liable to the State of Oklahoma for the taxes withheld. Sums withheld shall be deemed to be held in trust for the State of Oklahoma.

If an employer fails to withhold the tax required to be withheld, and thereafter the income tax is paid by the employee, the employer shall be subject to penalties and interest only.

If the Tax Commission, in any case, has justifiable reason to believe that the collection of the tax is in jeopardy, the Tax Commission may require the employer to file a return and pay the tax at any time.

Common Law Employees...

An employer-employee relationship exists for Oklahoma income tax withholding purposes when the person for whom services are performed has the right to control the manner and means of performing the work. It does not matter that the employer gives the employee substantial discretion and freedom to act, so long as the employer has the right to control the method and result of the service.

Common law rules provide the factors examined to determine whether an employeremployee relationship exists. These factors include, but are not limited to:

- Method of Payment: Workers paid on a regular basis (e.g. hourly, weekly, monthly), are more likely to be considered employees than persons paid a fixed amount for a specific service. The providing of fringe benefits is also typical of an employeremployee relationship.
- Set Hours of Work: An employer-employee relationship generally exists when the hours of work are set by the person for whom the services are provided. If fixed hours are not practical, the requirement to work at certain times would likely indicate an element of control.
- Materials and Tools: Persons who furnish their own tools and materials are less likely to be considered employees than persons who use tools and materials furnished by the hiring entity. Skilled workers who customarily use their own small tools for their trade may be considered an employee if the hiring entity has control over the service performed.

GENERAL INFORMATION, CONTINUED...

• **Right of Discharge:** The ability of a hiring entity to discharge a worker and the conditions under which discharge may occur are factors examined in determining an employer-employee relationship.

If an employer-employee relationship exists Oklahoma income tax is required to be withheld and paid to the Tax Commission regardless of the description given to workers, regardless of how payments are made or what they are called, and regardless of whether the person works full or part time. No single factor determines whether an employer-employee relationship exists. Examination of all facts and factors of each case is necessary to determine the existence of an employer-employee relationship.

Independent Contractors...

Persons who follow an independent trade, business, or profession in which their services are offered to the general public are considered independent contractors and not employees. Independent contractors realize a profit or suffer a loss as a result of their services and are legally obligated to complete a specific service in a specific manner. Examples are: self-employed attorneys, doctors, contractors, subcontractors and auctioneers. However, whether such persons are employees or independent contractors depends on the facts of each case.

Generally, an individual is considered an independent contractor if the entity receiving the person's services has the right to control the result of the work but does not have the legal right to control the manner and means of accomplishing the result.

HOW TO COMPUTE OKLAHOMA WITHHOLDING

There are two methods you may use to determine the amount of Oklahoma income tax to be withheld from wage payments subject to Oklahoma income tax withholding - the percentage formula method and the wage bracket tables. Both methods use a series of tables for single and married taxpayers for each type of payroll period frequency (weekly, monthly, etc.).

Important: You must use the correct table for your payroll frequency and the marital status of the payee in order to arrive at an accurate amount of Oklahoma withholding tax.

Using the wage bracket tables is considered to be the easier of the two methods. However, if you have highly paid employees/payees or are using a computerized payroll system, you (or your software) may use the percentage formula. Both methods are acceptable and produce almost identical results. Choose the method that best suits your payroll situation.

Percentage Formula Method:

The percentage formula is a mathematical formula based on the Oklahoma personal income tax rates. This method uses the tables that are on pages 8 and 9.

The percentage rate tables are based on the net wage amount. To compute the net amount of the payment, you must first calculate the employee's/payee's withholding allowance amount and deduct it from the gross wage or payment for the period before using the percentage rate tables. The number of withholding allowances claimed on the Federal W-4 must be used.

HOW TO COMPUTE OKLAHOMA WITHHOLDING, CONTINUED...

Withholding Allowance Amount...

An individual's withholding allowance amount is the Oklahoma individual income tax personal exemption amount of \$1,000 divided by the number of payroll periods in the calendar year. Thus, an employee paid monthly has a withholding allowance of \$1,000 divided by 12, or \$83.33, per pay period for each withholding allowance claimed. The Oklahoma withholding allowance amounts for each payroll frequency are shown in the table below.

Table of Withholding Allowance Amounts...

Payroll Frequency	Number of pay periods per year	Amount of Each Withholding Allowance
Weekly	52	\$ 19.23
Bi-Weekly	26	\$ 38.46
Semi-Monthly	24	\$ 41.67
Monthly	12	\$ 83.33
Quarterly	4	\$ 250.00
Semi-Annual	2	\$ 500.00
Annual	1	\$1,000.00
Daily or Miscellaneous (Each day of the payroll period)	260	\$ 3.85

Rounding...

Oklahoma withholding computed using the percentage method must be rounded. Round to the nearest whole dollar by dropping any amount under 50 cents and increasing amounts from 50 to 99 cents to the next higher dollar. For example, \$2.49 becomes \$2.00, and \$2.50 becomes \$3.00.

Wage Bracket Tables Method:

This method uses the series of tables that begin on page 10. The wage bracket tables are calculated using the percentage formula, with the results rounded and placed in convenient brackets for you. Withholding is computed by plotting the gross wage and the number of withholding allowances (number of withholding allowances claimed on the Federal W-4) on the table that corresponds with your payroll frequency and the individual's marital status.

Important: When the payment for the period exceeds the last bracket or line of a wage bracket table, you must use the percentage formula to calculate the amount of Oklahoma tax to withhold on the entire payment.

Withholding Calculations for Married Persons with Dual Incomes...

Since Oklahoma married taxpayers are taxed on combined incomes, many married taxpayers do not have sufficient withholding to cover the annual liability. If a taxpayer has elected the option of "Married", but withhold at higher "Single" rate on the Federal Form W-4, use the appropriate Oklahoma Single Withholding Table.

Example

An individual is paid \$1055 semi-monthly. He/she is married and claims 2 withholding allowances on his/her Federal W-4 Form.

Step 1...

Multiply the withholding allowance amount for your payroll frequency (see table on page 6) by the total number of withholding allowances claimed on the individual's Federal W-4 Form.

The Semi-Monthly withholding allowance is \$41.67; the individual is claiming 2 withholding allowances.

$$$41.67 X 2 = $83.34$$

Step 2...

Subtract this amount from the individual's gross payment for the period to arrive at the net payment amount.

Step 3...

Use the appropriate rate table (Table 3 for Semi-Monthly payroll) to figure the amount to be withheld. Since the individual is married use Table 3 for a "Married Person".

The withholding rate is \$6.63 plus 4.0% of the net amount of the wage payment that is over \$763.00

 $$88.66 \times 4.0\% = $3.55 \text{ plus } $6.63 \text{ (from table)}$

The Oklahoma withholding amount is \$10.18, which must be rounded to \$10.00

Example Table from Pages 8-9:

LOOKING FOR ADDITIONAL INFORMATION?

No matter what the tax topic, from ad valorem taxes to sales tax rates and withholding taxes to vehicle tag agent information, the Oklahoma Tax Commission has many formats available to obtain any additional information you might need.

Contact one of our offices...

In State Toll Free • (800) 522-8165

Oklahoma City • 2501 North Lincoln Boulevard • (405) 521-3160

Tulsa • 440 South Houston, Fifth Floor • (918) 581-2399

Visit our website...

Our website address is: www.tax.ok.gov

Oklahoma tax information is available to you 24 hours a day, seven days a week on the Oklahoma Tax Commission website. Whether you need a form, have a question, or need to file a tax report electronically, our website is your one stop for all your taxation needs. Questions can be sent to us through the "Contact" page of our site via email. Online filing of your business taxes, including your withholding report and remittance, is also available on our website through the QuickTax system.
