I. INTRODUCTION

The following report is the sixteenth issue of the Oklahoma Tax Expenditure Report. Pursuant to Section 1 of Enrolled Senate Bill No. 135 of the Forty-fifth Legislature, First Regular Session, codified at Section 205 of Title 68, the report includes the Tax Commission's best estimate of the amount of state revenue that would have been collected but for the existence of each exclusion, deduction, credit, exemption, deferral, or other preferential tax treatment allowed by law for the previous fiscal year. Enrolled House Bill 2426 of the Forty-sixth Legislature, Second Regular Session amended Section 205 to provide that the report will be prepared no later than October 1, of each even-numbered year. Our next report will be issued October 1, 2024, with estimates for Fiscal Year 2024.

The provisions of state tax law that fall within this definition of a "tax expenditure" are separated by tax type. Statutory provisions that affect more than one tax type are listed under each tax. Tax expenditures do not include incentive payment programs or exemptions to taxes not administered, regulated, or collected by the Tax Commission.

The estimates are based upon information from actual tax returns and secondary data sources. Each estimate has a different level of reliability based upon the accuracy of both the data and the estimation procedure. The different categories are as follows:

- | | |
|---------|---|
| Level 1 | Estimate based upon information contained in actual tax returns. The data collected is from returns verified for accuracy and unverified returns. This is the highest level of reliability. |
| Level 2 | Estimate based upon a projection from a composite of a fraction of returns filed or average amount of collections for the particular tax type involved. |
| Level 3 | Estimate derived from secondary data sources, such as other governmental agencies, industry sources, or national reports. |
| Level 4 | Level assigned for those items for which no known reliable data source exists. |

The estimation process for income tax expenditures prevents the summing of each expenditure and the drawing of any precise conclusions about their aggregate value. Estimates that are less than \$25,000 are listed as "Minimal" unless a Level 1 estimate is available. Expenditures for which data resources are unavailable to provide an estimate contain the notation N/A (not available). The Commission will continue to strive to provide an estimate for these expenditures in subsequent reports. In 1995, the Tax Commission contracted with the Center for Economic and Management Research (CEMR) at the University of Oklahoma and the Office of Business and Economic Research (OBER) at Oklahoma State University wherein the departments utilized their resources to provide revenue estimates for sales tax expenditures. The expenditures for which the departments provided estimates are noted in the "Data Source" line as

“OU/OSU Group.” The original estimates provided by the OU/OSU Group have been adjusted for the 2022 fiscal year. The sales and use tax estimates were not adjusted for partial compliance upon the removal of an exemption, or changes in buyer patterns due to the loss of an exemption.

This report does not propose to offer an official list of tax expenditures. Rather, it describes as many statutory “tax expenditures” as possible and provides revenue estimates for as many provisions of the state tax laws as can be isolated and measured. Further, each description is a very brief overview and is not intended to describe the tax expenditure with specificity.

II. INCOME TAX

A. CREDITS

Oklahoma offers a variety of income tax credits. Tax credits directly reduce tax liability and, in some cases, are fully refundable, transferable, or can be carried forward to a subsequent tax year. (Credits are not refundable, not transferable and have no carryover unless otherwise indicated). The following expenditure estimates reflect income tax filings for the 2020 tax year. Since the last report was issued, some income tax credits were either repealed or allowed to sunset. Some of the credits that were allowed to sunset or were repealed have provisions allowing for the carryover of unused credits and are reflected in this report. Credits allowed to sunset or repealed that did not have carryover provisions are not included in this report.

B. DEDUCTIONS AND EXEMPTIONS

Oklahoma allows deductions and exemptions to taxpayers in computing Oklahoma taxable income under certain conditions.⁸ The amount of the deduction or exemption varies. Exemptions generally refer to a personal allowance or specific monetary exemption that may be claimed by an individual to reduce Oklahoma taxable income. A tax deduction is a reduction of a taxpayer's total income that decreases the amount of taxable income used in calculating the income tax. Expenditure estimates below reflect income tax filings for 2020 tax year.
