Slide Resumes for Oklahoma Gross Receipts

OKLAHOMA CITY – After recording modest growth for two months, total Gross Receipts to the Treasury returned to negative territory in February, pushed down by shrinking sales, gross production, and motor vehicle tax collections, State Treasurer Randy McDaniel announced today.

February total monthly collections were \$956.8 million, down by \$14.7 million, or 1.5 percent, from February 2019. Collections from individual and corporate income, and use taxes were greater than those of the prior year, but not enough to offset the downturn in the other sources.

Sales tax collections for the month are down by 3.4 percent, while gross production taxes on oil and natural gas are off by almost 20 percent. February marks the sixth consecutive month of contraction in both revenue sources. Motor vehicle tax receipts, down by 2.2 percent in February, are below the prior year for a second consecutive month.

“Through the end of last month, we have seen a downward trend spurred by low oil and gas prices,” McDaniel said. “In the coming months, we will be closely monitoring national and international developments relating to the coronavirus and the resulting economic impact.”

Total monthly gross receipts were last reported as below the same month of the prior year in November, which ended a 32-month streak of growth.

The growth rate of 12-month gross receipts also continues to decline. Twelve-month receipts through February are \$13.71 billion, up by 4.2 percent. In February 2019, the 12-month growth rate was 12.3 percent.

Business conditions

The Oklahoma Business Conditions Index for February was listed above growth neutral for only the second month since October 2019. February’s rate of 51.5 is down from 52.2 in January. Numbers above 50 indicate economic growth is anticipated during the following three to six months.

Oil and gas gross production tax collections brought in \$993.8 million during the 12 months, down by \$72.8 million, or 6.8 percent, from the previous 12 months.

Motor vehicle collections total \$791.2 million for the 12 months. This is an increase of \$1.5 million, or 0.2 percent, from the trailing period.

Other sources generated \$1.58 billion, up by \$178.8 million, or 12.8 percent, from the previous period.

About Gross Receipts to the Treasury

The monthly Gross Receipts to the Treasury report, developed by the state treasurer's office, provides a timely and broad view of the state's economy.

It is released in conjunction with the General Revenue Fund report from the Office of Management and Enterprise Services, which provides information to state agencies for budgetary planning purposes.

The General Revenue Fund, the state's main operating account, receives less than half of the state's gross receipts with the remainder paid in rebates and refunds, remitted to cities and counties, and apportioned to other state funds.
