## Independent Auditor's Report

To the Retirement Board  
Teachers' Retirement System of Oklahoma  
Oklahoma City, Oklahoma

### **Report on Schedule of Employer Allocations and Schedule of Net Pension Amounts by Employer**

We have audited the accompanying schedule of employer allocations of Teachers' Retirement System of Oklahoma (the System) as of and for the year ended June 30, 2017 and related notes. We have also audited the totals for the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources and plan pension expense (specified column totals) included in the accompanying schedule of collective pension amounts (collectively the Schedules) of the System as of and for the year ended June 30, 2017, and related notes.

### **Management's Responsibility for the Schedules**

Management is responsible for the preparation and fair presentation of the Schedules in accordance with accounting principles generally accepted in the United States of America; this includes design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedules that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on the schedule of employer allocations and specified column totals included in the schedule of collective pension amounts based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of collective pension amounts are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of collective pension amounts. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of collective pension amounts, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of collective pension amounts in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of System's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of collective pension amounts.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**

In our opinion, the Schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and plan pension expense for the total of all participating entities for the System as of and for the year ended June 30, 2017, in accordance with accounting principles generally accepted in the United States of America.

**Emphasis of a Matter**

As described in Note 8, subsequent to the issuance of the schedule dated March 7, 2018, management discovered that the report issued had an incorrect pension expense amount reported. The information was updated in order for the employers to accurately record their respective proportions of plan pension expense. In our original report we expressed an unmodified opinion on the schedule and our opinion on that schedule remains unmodified.

**Other Matters**

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the System as of and for the year ended June 30, 2017, and our report thereon, dated October 20, 2017, expressed an unmodified opinion on those financial statements.

**Restriction on Use**

Our report is intended solely for the information and use of the System's management, the System retirement board, System employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

### **Note 1 - Nature of Entity**

The following brief description of the Teachers' Retirement System of Oklahoma (the System) is provided for general information purposes only. The plan's benefits are established and amended by State Statute and participants should refer to Title 70 of the Oklahoma Statutes, 2011, Sections 17-101 through 121, as amended.

The System was established as of July 1, 1943 for the purpose of providing retirement allowances and other specified benefits for qualified persons employed by state-supported educational institutions. The System is a part of the State of Oklahoma financial reporting entity, which is combined with other similar funds to comprise the fiduciary-pension trust funds of the State of Oklahoma (the State). The System administers a cost-sharing multiple-employer pension plan which is a defined benefit pension plan (the Plan), as well as a tax-deferred defined contribution plan.

The supervisory authority for the management and operation of the System is a 14-member board of trustees, which acts as a fiduciary for investment of the funds and the application of plan interpretations. The board of trustees is comprised of six appointees from the Governor's Office, two appointees by the Senate Pro Tempore, two appointees by the House Speaker and three Ex Officio positions. Out of the six appointees from the Governor's Office, one must be a Higher Education representative, one is a nonclassified optional personnel, and the remaining four must work in the public or private funds management, banking, law or accounting field. Out of the two Senate Pro Tempore's as well as the House Speaker's appointees, one must be an active classroom teacher while the other be a retired member of Teachers' Retirement System of Oklahoma. The Ex Officio trustees are the State Superintendent, the Office of Management and Enterprise Services Director and the Career-Tech Director or their designee.

### **Defined Benefit Pension Plan**

Oklahoma teachers and other certified employees of common schools, faculty and administrators in public colleges and universities, and administrative personnel of state educational boards and employees of agencies must join the Plan. Membership is optional for all other regular employees of public educational institutions who work at least 20 hours per week. Additional information regarding Plan provisions can be found in the System's comprehensive annual financial report, which can be accessed as described in Note 7.

### **Note 2 - Summary of Significant Accounting Policies**

The Schedule of Employer Allocations and the Schedule of Collective Pension Amounts (the Schedules) for the Plan were prepared in accordance with the following significant accounting policies.

#### **Nature of the Schedules**

The purpose of these Schedules is to provide employers information for their financial statements. The Schedules provide each employer with the basis used to determine their proportionate share of the net pension liability, deferred outflows and inflows of resources, and pension expense as of and for the year ended June 30, 2017. Deferred outflows and inflows of resources, and pension expense include: each employer's proportionate share of plan level amounts such as differences between expected and actual experience, the net difference between projected and actual investment earnings on pension plan investments and changes in assumptions.

The Schedule of Collective Pension Amounts represents collective amounts for the Plan. This Schedule excludes employer-specific deferral amounts that may need to be recognized to comply with governmental accounting standards. Specifically, this schedule excludes deferral amounts arising from the changes in employer proportion, differences between employer contributions and proportionate share of contributions and employer contributions subsequent to the measurement date.

### **Measurement Focus and Basis of Accounting**

Financial transactions are recorded using the economic resources measurement focus and the accrual basis of accounting. Employer contributions are recognized as revenue when due pursuant to statutory or contractual requirements.

### **Use of Estimates**

The preparation of the Schedules in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts for the net pension liability, deferred outflow of resources and deferred inflow of resources, and changes therein, and disclosures. Actual results could differ from those estimates and differences could be material.

### **Basis of the Allocation**

In determining the proportionate share of the net pension liability and corresponding employer pension amounts for a cost-sharing plan, the basis should be consistent with the manner in which contributions are made to the Plan, excluding those to separately finance specific liabilities of an individual employer.

The System has determined that each employer's proportionate share will be determined based on the employer's contribution to the Plan as a percentage of the total contribution to the Plan by all employers. However, an additional adjustment will be made to the allocation to account for the comprehensive universities' short-term obligation to pay a 2.5 percent funding surcharge associated with the Alternate Retirement Plan (ARP). Specifically, the allocation has been determined as follows:

- The present value of the remaining initial funding surcharge contributions expected to be made by the comprehensive universities is determined. The number of remaining payments is based on the most recent assessment of the initial funding surcharge as outlined in the "Agreement of Understanding Entered into Among OSU, OU and OTRS".
- The present value of the remaining initial funding surcharge contributions is subtracted from the collective net pension liability.
- The remaining net pension liability is then allocated to all employers, including the comprehensive universities, in proportion to the employer's contributions paid on participating employees (i.e., payroll contributions).
- Finally, the present value of the remaining initial funding surcharge contributions is added back to the net pension liability allocated to each of the comprehensive universities in the prior step.

Teachers' Retirement System of Oklahoma  
Notes to Schedule of Employer Allocations and Schedule of Collective Pension Amounts  
June 30, 2017

In addition to its proportionate share of the collective net pension liability and collective pension expense, each comprehensive university that participates in the ARP has been allocated the following liability and expense as of and for the year ended June 30, 2017:

<u>ER Code</u>	<u>Employer Name</u>	<u>ARP Pension Liability</u>	<u>ARP Pension Expense (Income)</u>
14H760	University of Oklahoma	\$ 4,713,060	\$ (4,639,475)
55H770	OU Health Sciences Center	4,493,510	(4,129,566)
60H010	Oklahoma State University	4,886,192	(3,249,640)
		<u>\$ 14,092,762</u>	<u>\$ (12,018,681)</u>

Contributions are reported using the accrual basis of accounting. The fiscal year 2017 employer contribution total used as the denominator for the allocation calculation in the schedule of employer allocations can be reconciled to the System's CAFR for the fiscal year ended June 30, 2017, as follows:

Contributions from employers and matching funds per CAFR	\$ 419,771,658
Less ARP contributions	(7,470,897)
Refunds and other adjustments	<u>(2,226,716)</u>
Contributions per schedule of employer allocations	<u>\$ 410,074,045</u>

### Note 3 - Net Pension Liability

The net pension liability (NPL) is the portion of the actuarial present value of projected benefit payments related to past periods. The NPL for the employers is based on the allocation percentages from the Schedule of Employer Allocations.

The net pension liability for fiscal year 2017 is calculated as set forth below in the following table:

Net pension liability - Beginning July 1, 2016	* \$ 8,379,141,818
Total pension expense	708,342,066
Change in deferred outflow of resources	(654,115,415)
Change in deferred inflow of resources	(1,099,263,785)
Defined benefit plan employer contributions (includes ARP contributions)	(396,743,812)
State contributions	(278,924,055)
State matching funds	<u>(23,027,846)</u>
Net pension liability - Ending June 30, 2017	6,635,408,971
Less ARP pension liability allocation	<u>(14,092,762)</u>
Net pension liability - per Schedule of Collective Pension Amounts	<u>\$ 6,621,316,209</u>

\* The System implemented Governmental Accounting Standards Board Statement No. 74 *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* in the current year. As a result, \$434,882,619 was removed from total pension liability and plan fiduciary net position resulting in a no impact to beginning net pension liability.

Notes to Schedule of Employer Allocations and Schedule of Collective Pension Amounts  
June 30, 2017

The components of the net pension liability at June 30, 2017 were as follows:

Total pension liability	\$ 21,625,384,047
Plan fiduciary net position	<u>(14,989,975,076)</u>
Net pension liability	6,635,408,971
Less ARP pension liability allocation	<u>(14,092,762)</u>
 Net pension liability per Schedule of Collective Pension Amounts	 <u><u>\$ 6,621,316,209</u></u>
 Plan fiduciary net position as a percentage of total pension liability	 <u><u>69.32%</u></u>

Sensitivity of the net pension liability to changes in the discount rate – The following presents the net pension liability of the Plan's employers calculated using the discount rate of 7.50% as well as what the employers' liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Decrease (8.50%)
Employer's net pension liability	<u>\$ 9,439,040,005</u>	<u>\$ 6,635,408,971</u>	<u>\$ 4,539,581,835</u>

The total pension liability as of June 30, 2017, was determined based on an actuarial valuation prepared as of June 30, 2017 using the following actuarial assumptions:

- Actuarial Cost Method—Entry Age Normal
- Inflation—2.50 percent
- Future Ad Hoc Cost-of-living Increases—None
- Salary Increases—Composed of 3.25 percent inflation, including 2.50 percent price inflation, plus a service-related component ranging from 0.00 percent to 8.00 percent based on years of service.
- Investment Rate of Return – 7.50 percent
- Retirement Age— Experience-based table of rates based on age, service, and gender. Adopted by the Board in May 2015 in conjunction with the five year experience study for the period ending June 30, 2014.
- Mortality Rates after Retirement— Males: RP-2000 Combined Healthy mortality table for males with White Collar Adjustments. Generational mortality improvements in accordance with Scale BB from the table's base year of 2000. Females: GRS Southwest Region Teacher Mortality Table, scaled at 105%. Generational mortality improvements in accordance with Scale BB from the table's base year of 2012.
- Mortality Rates for Active Members—RP-2000 Employee Mortality tables, with male rates multiplied by 60% and female rates multiplied by 50%.

**Note 4 - Average Expected Remaining Service Life**

The average expected remaining service life of the Plan is determined by taking the calculated total future service years of the Plan divided by the number of people in the Plan including retirees. The total future service years of the Plan are determined using the mortality, termination, retirement and disability assumptions associated with the Plan. The average expected service life of the Plan equals 5.59 years as of the valuation date.

**Note 5 - Types of Deferred Outflows and Inflows of Resources**

Deferred outflows of resources are the consumption of net position that is applicable to future reporting periods. Deferred inflows of resources are the acquisition of net position that is applicable to future reporting periods.

**Difference Between Expected and Actual Experience**

The actuary uses assumptions such as future salary increases and inflation to develop what they expect to be the experience of the Plan. Each year the difference between the expected experience and the actual experience is amortized over the average expected remaining service life of the Plan.

**Net Difference Between Projected and Actual Investment Earnings**

The actuary uses the Plan's long term rate of return to project investment earnings net of investment expenses. The difference between the expected and the actual investment earnings is deferred and amortized over five years.

**Changes in Assumptions**

The impact of changes in assumptions used by the actuary is amortized over the average expected remaining service life of the Plan.

**Amortization**

The amortization of deferred outflows and inflows at June 30, 2017 is as follows:

	Deferred Outflows	Deferred Inflows	Total
2018	\$ 660,748,330	\$ (718,366,088)	\$ (57,617,758)
2019	660,748,330	(392,861,246)	267,887,084
2020	519,611,763	(381,526,697)	138,085,066
2021	128,304,098	(354,291,792)	(225,987,694)
2022	-	(90,344,046)	(90,344,046)
	\$ 1,969,412,521	\$ (1,937,389,869)	\$ 32,022,652

**Note 6 - Pension Expense**

Pension Expense includes amounts for service cost (the Normal Cost under Entry Age Normal for the year), interest on the total pension liability, changes in the benefit structure, recognition of increases/decreases in liability due to actual versus expected experience, actuarial assumption changes, and investment gains/losses on the fair value of assets. The actual experience and assumption change impacts are recognized over the average expected remaining service life of the Plan membership as of the measurement date.
