Board of Trustees Teachers' Retirement System of Oklahoma Harvey Parkway Building 301 NW 63rd Street, Suite 500 Oklahoma City, OK 73116-7921

Subject: GASB 67 and 68 Reporting and Disclosure Information for TRS Fiscal Year Ending June

30, 2023

Dear Members of the Board:

This report provides information required by the Teachers' Retirement System of Oklahoma (TRS) in connection with the Governmental Accounting Standards Board (GASB) Statement No. 67, "Financial Reporting for Pension Plans." Additionally, this report provides information required by the governmental employers participating in TRS in connection with the GASB Statement No. 68, "Accounting and Financial Reporting for Pensions." This information can be used by governmental employers in financial reporting for fiscal years ending between (and including) June 30, 2023 and June 30, 2024. The information provided herein was prepared for the purpose of assisting TRS and the governmental employers in the compliance with the financial reporting and disclosure requirements of GASB Statement Nos. 67 and 68.

Beginning with the fiscal year ended 2017, the plan liabilities associated with the Supplemental Medical Insurance benefit and the assets assigned to the Retiree Medical Benefit Fund, which constitute the TRS OPEB Plan, were excluded from this report. The TRS OPEB Plan is covered in the report prepared for reporting under GASB Statement Nos. 74 and 75.

The net pension liability is not an appropriate measure for measuring the sufficiency of plan assets to cover the estimated cost of settling the employer's benefit obligation. The net pension liability is not an appropriate measure for assessing the need for or amount of future employer contributions. A calculation of the plan's liability for purposes other than satisfying the requirements of GASB Statement Nos. 67 and 68 may produce significantly different results. This report may be provided to parties other than TRS only in its entirety and only with the permission of TRS.

The total pension liability, net pension liability, and certain sensitivity information shown in this report are based on an actuarial valuation performed as of June 30, 2023. It is our opinion that the recommended assumptions are internally consistent, reasonable, and comply with the requirements under GASB Statement Nos. 67 and 68.

This report is based upon information, furnished to us by TRS, which includes benefit provisions, membership information, and financial data. We did not audit this data and information, but we did

**Board of Trustees** September 26, 2023 Page 2

apply a number of tests and concluded that it was reasonable and consistent. GRS is not responsible for the accuracy or completeness of the information provided to us by TRS.

Certain tables included in the Required Supplementary Information should include a 10-year history of information. As provided for in GASB Statement Nos. 67 and 68, this historical information is only presented for the years in which the information was measured in conformity with the requirements of GASB Statement Nos. 67 and 68. The historical information in this report will begin with the information presented for the TRS fiscal year ending June 30, 2014.

Paragraph 57 of GASB Statement No. 68 indicates that contributions to the pension plan subsequent to the measurement date of the Net Pension Liability and prior to the end of the employer's reporting period can be reported by the employer as a deferred outflow of resources related to pensions. The information contained in this report does not incorporate any contributions made to TRS attributable to periods after June 30, 2023.

This report complements the actuarial valuation report as of June 30, 2023, provided for plan funding purposes, which was also provided to TRS and should be considered together as a complete report for the plan year ending June 30, 2023. Please see the actuarial valuation report as of June 30, 2023 for additional discussion of the actuarial valuation, including the nature of actuarial calculations and more information related to participant data, economic and demographic assumptions, and benefit provisions.

To the best of our knowledge, this report is complete and accurate and is in accordance with generally recognized actuarial practices and methods. Mr. Newton and Mr. Detweiler are members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein.

Respectfully submitted,

Gabriel, Roeder, Smith & Company

Joseph Newton, FSA, EA, MAAA

Jon Start

Pension Market Lead and Actuary

Bill Detweiler, ASA, EA, FCA, MAAA

Consultant and Actuary

#### **Summary of Population Statistics**

The total pension liability described in this report is based on the plan membership as of June 30, 2023:

| Inactive Plan Members or Beneficiaries Currently Receiving Benefits* | 69,432  |
|--|---------|
| Inactive Plan Members Entitled to But Not Yet Receiving Benefits**   | 29,993  |
| Active Plan Members  | 100,959 |
| Total Plan Members   | 200.384 |

<sup>\*</sup> Service retirements, disability retirements, and beneficiaries

#### Measurement of the Net Pension Liability

The net pension liability is measured as the total pension liability, less the amount of the plan's fiduciary net position. In actuarial terms, this is analogous to the accrued liability as measured using the individual entry age normal actuarial cost method less the market value of assets (not the smoothed actuarial value of assets seen in our actuarial valuations based on the Board's adopted assumptions and methods).

A single discount rate of 7.00% was used to measure the total pension liability as of both June 30, 2022 and June 30, 2023. This single discount rate was based on an expected rate of return on pension plan investments for plan years ending June 30, 2022 and June 30, 2023. Based on the stated assumptions and the projection of cash flows, the pension plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The projection of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels and remain a level percentage of payroll.

#### **Actuarially Determined Contribution**

Beginning with the fiscal year ending June 30, 2016, the Actuarially Determined Employer Contribution (ADEC) is determined as the employer contribution amount necessary to finance the normal cost and the anticipated administrative expenses as well as discharge the Unfunded Actuarial Accrued Liability over a period equal to the funding period for the current actuarial valuation for plan funding purposes (i.e., 14 years as of June 30, 2022). However, in no event shall the amortization period be in excess of a fixed period of twenty (20) years.

<sup>\*\*</sup> Includes 14,956 nonvested terminated members entitled to a refund of their member contributions.

#### Sensitivity of the Net Pension Liability to the Single Discount Rate Assumption

The following table provides the sensitivity of the net pension liability to changes in the discount rate as of June 30, 2023. In particular, the table presents the plan's net pension liability, if it were calculated using a single discount rate that is one-percentage-point lower or one-percentage-point higher than the single discount rate:

| Current Single Rate |                                  |    |               |    |               |  |  |  |
|---------------------|----------------------------------|----|---------------|----|---------------|--|--|--|
|                     | 1% Decrease Assumption 1% Increa |    |               |    |               |  |  |  |
|                     | 6.00%                            |    | 7.00%         |    | 8.00%         |  |  |  |
| \$                  | 11,130,817,250                   | \$ | 7,706,474,888 | \$ | 4,871,638,760 |  |  |  |

#### **Methodology for Proportionate Shares**

This report provides the Collective Pension Amounts under GASB Statement No. 68 which will be allocated to the governmental employers participating in TRS. We are prepared to assist with the calculation of proportionate share of the Collective Pension Amounts associated with the governmental employers, as needed.

#### **Support Provided by Nonemployer Contributing Entity**

The State of Oklahoma contributes a percentage of its revenues from sales taxes, use taxes, corporate income taxes, individual income taxes, and lottery proceeds to TRS. Since the State makes contributions to a pension plan that is used to provide pensions to the employees of other entities (e.g., school districts), the State is considered a nonemployer contributing entity for TRS.

According to the criteria outlined in paragraph 15 of Statement 68, the State is not in a Special Funding Situation with TRS. The primary reason is that the State's contributions are dependent upon one or more events or circumstances unrelated to the pensions. As a result, paragraph 58 of Statement 68 indicates that each governmental employer should recognize "revenue" equal to the governmental employer's proportionate share of the contributions to the pension plan from nonemployer contributing entities. The accounting treatment for this support provided by a nonemployer contributing entity should be treated in the same manner as the governmental employer would treat a grant in the entity-wide financial statements.

For the fiscal year ending June 30, 2023, support provided to TRS by nonemployer contributing entities totaled \$466,646,840.

# Statement of Changes in Fiduciary Net Position as of June 30, 2023

| Fiscal Year                                  | 2023                 |
|--|----------------------|
| Additions                                    |                      |
| Contributions                                |                      |
| Member contributions, including state credit | \$<br>371,519,419    |
| Grant matching funds                         | 47,085,349           |
| State contribution                           | 466,646,840          |
| Employer/district contributions              | 510,241,100          |
| Total Contributions                          | \$<br>1,395,492,708  |
| Net investment earnings                      |                      |
| Investment income                            | \$<br>1,489,112,075  |
| Investment expenses                          | (46,057,029)         |
| Net Investment Income                        | \$<br>1,443,055,046  |
| Total Additions                              | \$<br>2,838,547,754  |
| Deductions                                   |                      |
| Benefit Payments                             | \$<br>1,598,943,437  |
| Refunds                                      | 50,552,204           |
| Administrative Expense                       | 6,805,284            |
| Other  | <br>0                |
| Total Deductions                             | \$<br>1,656,300,925  |
| Net Increase in Net Position                 | \$<br>1,182,246,829  |
| Net Position Restricted for Pensions         |                      |
| Beginning of Year                            | \$<br>19,201,536,887 |
| End of Year                                  | \$<br>20,383,783,716 |

This reconciliation only includes the items needed to reconcile the changes in Net Pension Liability during the fiscal year. The Reconciliation of Fiduciary Net Position required by GASB may require additional detail regarding the changes throughout the year.

## SCHEDULES OF REQUIRED SUPPLEMENTARY INFORMATION

#### Notes to Schedule:

The covered employee payroll is an estimate of the actual payroll, imputed from individual member contributions.

The assumption change in fiscal year 2015 is attributible to the new assumptions adopted by the Board in May 2015.

The assumption change in fiscal year 2016 is attributible to the new economic assumptions adopted by the Board in September 2016.

The beginning balances for the total pension liability and the plan fiduciary net position were both restated as of June 30, 2016 to remove \$434,882,619 which will be reported as an OPEB going forward.

The assumption change in fiscal year 2017 is attributible to the change in assumed election rate for the Supplemental Medical Insurance benefit adopted by the Board in August 2017.

The assumption change in fiscal year 2020 is attributible to the new assumptions adopted by the Board in July 2020.

#### Notes to Schedule:

The covered employee payroll is an estimate of the actual payroll, imputed from individual member contributions.

The assumption change in fiscal year 2015 is attributible to the new assumptions adopted by the Board in May 2015.

The assumption change in fiscal year 2016 is attributible to the new economic assumptions adopted by the Board in September 2016.

The beginning balances for the total pension liability and the plan fiduciary net position were both restated as of June 30, 2016 to remove \$434,882,619 which will be reported as an OPEB going forward.

The assumption change in fiscal year 2017 is attributible to the change in assumed election rate for the Supplemental Medical Insurance benefit adopted by the Board in August 2017.

The assumption change in fiscal year 2020 is attributible to the new assumptions adopted by the Board in July 2020.

#### **Notes to Schedule of Contributions**

Valuation Date: June 30, 2022

Notes Members and employers contribute based on statutorily fixed rates. The State of

Oklahoma contributes a portion of revenues from sales taxes, use taxes, corporate and individual income taxes, and lottery proceeds. An additional contribution is made for

members whose salary is paid from federal funds or certain grant money.

Beginning with the fiscal year ending June 30, 2016, the Actuarially Determined Employer Contribution (ADEC) is determined as the employer contribution amount necessary to finance the normal cost and the anticipated administrative expenses as well as discharge the Unfunded Actuarial Accrued Liability over a period equal to the funding period for the current actuarial valuation for plan funding purposes (i.e., 14 years as of June 30, 2022). However, in no event shall the amortization period be in excess of a fixed period of twenty (20) years. ADEC rates are calculated as of June 30.

Beginning with the fiscal year ending June 30, 2017, an actuarially determined portion of the employers' contributions (0.05% of pay for FY2023) is allocated to the OPEB Subaccount and reported under GASB 74. As a result, these contributions are not included in either the actual or actuarially determined contributions above.

The ADEC was previously determined as the total employer contribution necessary to fund the normal cost and to amortize the UAAL as a level percentage of payroll over 30 years.

#### Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method Entry Age Normal

Amortization Method Level Percentage of Payroll

Remaining Amortization Period 14 years

Asset Valuation Method 5-year smoothed market

Inflation 2.25

Salary Increases Composed of 2.25% inflation, plus 0.75% productivity increase rate, plus step-rate

promotional increases for members with less than 25 years of service.

Investment Rate of Return 7.00

Retirement Age Experience-based table of rates based on age, service, and gender. Adopted by the

Board in July 2020 in conjunction with the five year experience study for the period

ending June 30, 2019.

Mortality 2020 GRS Southwest Region Teacher Mortality Table for males and females.

Generational mortality improvements in accordance with the Ultimate MP scales are

projected from the year 2020.

#### **GOVERNMENTAL EMPLOYER FINANCIAL STATEMENTS**

# Pension Expense for Fiscal Year Ending June 30, 2023 To be used for Governmental Employer Reporting for Fiscal Years Ending Between June 30, 2023 and June 30, 2024

| Expense                                       |                 |
|---|-----------------|
| 1. Total service cost                         | \$ 551,183,763  |
| 2. Interest on total pension liability        | 1,880,323,172   |
| 3. Current-period benefit changes             | 0               |
| 4. Member contributions                       | (371,519,419)   |
| 5. Projected earnings on plan investments     | (1,334,979,294) |
| 6. Administrative expense                     | 6,805,284       |
| 7. Other                                      | 0               |
| 8. Recognition of beginning deferred outflows |                 |
| (inflows) due to liabilities                  | 322,771,377     |
| 9. Recognition of beginning deferred outflows |                 |
| (inflows) due to assets                       | 134,173,334     |
| 10. Total Pension Expense                     | \$1,188,758,217 |

#### **Recognition of Deferred Outflows and Inflows of Resources**

According to paragraph 33 of GASB No. 68, differences between expected and actual experience and changes in assumptions are recognized in pension expense using a systematic and rational method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan (active employees and inactive employees) determined as of the beginning of the measurement period.

At the beginning of the 2023 fiscal year, the expected remaining service lives of all employees was 1,054,304 years for TRS. Additionally, the TRS plan membership (active employees and inactive employees) was 195,166. As a result, the average of the expected remaining service lives for purposes of recognizing the applicable deferred outflows and inflows of resources established in the 2023 fiscal year is 5.40 years.

Additionally, differences between projected and actual earnings on pension plan investments should be recognized in pension expense using a systematic and rational method over a closed five-year period.

For this purpose, the deferred outflows and inflows of resources are recognized in the pension expense as a level dollar amount over the closed period identified above.

### **GOVERNMENTAL EMPLOYER FINANCIAL STATEMENTS**

# Statement of Outflows and Inflows Arising from Current and Prior Reporting Periods For Plan Year Ending June 30, 2023

# To be used for Governmental Employer Reporting for Fiscal Years Ending Between June 30, 2023 and June 30, 2024
