ATTACHMENT A

Programs designed to enhance the health and well-being of senior adults.

**Project Aligns with the Following TSET Board Priority:** *check all that apply*

Project addresses the prevention and reduction of risk factors for the leading causes of preventable death in Oklahoma – cancer, cardiovascular disease, lung disease and diabetes.

Project addresses an opportunity to go above and beyond traditional funding for direct patient clinical care.

Project prioritizes innovating and groundbreaking practices that seek to reduce the toll of tobacco and promote overall health.

Project supports advancements in tobacco cessation practices, tobacco addiction, tobacco control and harms of tobacco and nicotine.

Project prioritizes programs that include education, changes in health behaviors, and community development.
