A UNIQUE ENTREPRENEURSHIP PROGRAM FOR AMERICA'S HEROES

THE NATIONAL VETERANS ENTREPRENEURSHIP PROGRAM (VEP)

provides a rigorous entrepreneurial learning and development opportunity for disabled veterans and those who distinguished themselves in their military service. It is designed for veterans who are interested in starting a venture as a means to financial independence or have an existing business that they would like to grow profitability.

VEP offers a unique, highly innovative training program built around hands-on learning, personalized interaction and exposure to inspiring role models. Our purpose is to foster the creation of successful, profitable ventures. A team of world-class faculty, distinguished entrepreneurs and industry experts work closely with delegates, providing a challenging, interactive and informative experience. The program provides opportunities to develop entrepreneurial ideas while also learning leading-edge concepts, tools and frameworks. Most importantly, VEP participants will learn how to apply these principles and tools to current or potential businesses. Through our consortium, VEP has served 800+ veterans.

“

“The National Veterans Entrepreneurship Program gave me a strong foundation on understanding better business practices. Most military veterans are always looking for ways to minimize risk in our jobs. VEP helped me minimize the risk of starting and expanding my company by exposing me to great business workshops, classes, networking with other veteran entrepreneurs, and mentorship with established entrepreneurs.”

– Matt Butler, Air Force, VEP 2015 Delegate

IMAGINE

VEP SPECIFICS

At the heart of the VEP is an intense, eight-day immersion experience at Oklahoma State University. It will cover topical modules comprising the critical areas of success for new and early stage ventures. These eight days are preceded by a five-week self-study component and are then followed by a five-month advising period and online peer-to-peer networking. This integrated model, a three-phase program covering the key elements of successful entrepreneurship, offers an innovative and effective combination of focused, practical training in venture creation and growth, accompanied by a support structure for graduates of the program.

VEP PHASE I

***Concept Development and Self-study,
January 16 – February 18, 2024***

Over the initial five-week period, delegates will participate in a self-study curriculum developed for VEP, facilitated by an online discussion and assessment module that will be moderated by entrepreneurship advisor from the Spears School of Business. This phase enables delegates to work on the development of business concepts and prepare for the Boot Camp to be held at the OSU Stillwater campus in early 2024. Those with existing businesses will work on understanding and shaping relevant business issues.

VEP PHASE II

VEP Boot Camp, February 24 – March 3, 2024

Like a military Boot Camp, this eight-day residency in Stillwater, Okla. is intense, rigorous, and demanding. Delegates are exposed to the “nuts and bolts” of business ownership through experiential workshops and lessons from world-class faculty and seasoned entrepreneurs representing nationally ranked programs around the country.

VEP PHASE III

Advising and Venture Development, April 1 - August 31, 2024

Delegates are provided with five months of advising from entrepreneurs and subject matter experts and online peer-to-peer networking. This phase of VEP enables delegates to get feedback specific to their ventures and offers extended hands-on learning, which is critical to success.

CREATE

Cost

VEP is free to veterans who are selected for the program. Instruction materials, travel expenses, lodging, and meals for the Phase II Boot Camp will be provided at no cost to each delegate. The cost of VEP are underwritten by sponsors and private donors.

Eligibility

VEP serves veterans who meet the following three requirements:

- ⇒ Have separated from active duty service (or are in the process of separating) with an honorable discharge.
- ⇒ Preference will be given to applicants who are identified as disabled by the Veterans Administration based on a “service-connected” disability (or) are “service distinguished” based on exemplary military conduct.
- ⇒ Demonstrate intense motivation to start or grow a business.

How to Apply

VEP has a selective application process that reflects the unique opportunity and valuable resources being offered to eligible veterans. Successful candidates demonstrate a strong interest in entrepreneurship and venture creation, the motivation to own and operate a business, and high likelihood of active participation and completion of the entire VEP program.
