Dad, Randall Cornelius, grew up on the property with his 2 brothers and he still lives there today. The only time he was away from the family was for college and then as a Marine RF-4 pilot in the Vietnam era. The R designation was for Reconnaissance. As his daughter I never understood what that meant. My husband, who is retired AF, told me that because of the weight of the cameras he couldn’t have any armaments to protect himself while he was flying under radar. It was very enlightening and that must have taken a huge amount of courage.

caponehoagies@gmail.com

March 17th, 2020
Brought East Coast sandwiches to Midwest America, to small town (population 2500) which has increased drive through traffic to our downtown shops.

Capon's Hoagies opened March 17th - yes, just in time for the Covid shutdown! Their soft opening on March 17th was so successful that they chose not to do a later grand opening. They have already shown talent in marketing and adaptability, being the first small business in Newkirk to offer online ordering. They quickly switched over to a carry out and offered delivery options during the shutdown while maintaining a high level of quality. They are ready to show themselves to be strong supporters of the community and are not afraid to utilize any marketing tools that come their way. Many customers are heartily greeted by Bob and Staff and are also always happy to take a minute to visit if at all possible.

Msarch 2020

As a new start-up Veteran Owned Business, WorkLifeWork is changing the way the transition process works in the military. At the 180 day countdown to her retirement, she pursued her various certifications, formed her LLC, and began piloting and now contracting her resources to individuals and teams, while completing her military services. Her ability to transition smoothly is knowledge and experience other transitioning military members and their spouses can learn from.

Starting a new business takes incredible courage and risk! Anyone can start a business, but very few can build a business. Rather than doing it on your own, collaborate and connect with knowledge, tools, resources, and networks that will lead you on a path to success.

One Degree Collaboration is excited to provide a wealth of business knowledge and professional growth opportunities in Lawton and the surrounding area. The Mission is to inspire, connect, and empower individual Vetrepreneurs (transitioning military, spouses, family members, and veterans) through the human element of connection, from the idea to start-up/growth phases into a successful growing business.

March 2020

Over the past six months during a worldwide pandemic, this Start-up Veteran Owned Business has renovated a 9500 square foot building into a fully occupied Vetrepreneur Incubator with nine start-up Veteran Owned Businesses, Small business knowledge, resources, tools, and networking events and training schedule for 2020-21.
