#### **OUR PLEDGE REGARDING INDIVIDUALLY IDENTIFIABLE HEALTH INFORMATION (IIHI):**

We understand that medical/health information about you and your health is personal. We are committed to protecting medical information about you. We create a record of the care and services you receive at agency facilities. We need this record to provide you with quality care and to comply with certain legal requirements. This notice applies to all of the records of your care generated by the facility, whether made by facility personnel or contracted personnel. Health care providers outside this facility may have different policies or notices regarding their use and disclosure of your medical information created in their setting.

This notice will tell you about the ways in which we may use and disclose medical information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of medical information.

We are required by law to:

- Make sure that medical information that identifies you is kept private;
- Give you this notice of our legal duties and privacy practices with respect to medical information about you; and
- Follow the terms of the notice that is currently in effect.

#### HOW WE MAY USE AND DISCLOSE MEDICAL/HEALTH INFORMATION ABOUT YOU.

The following categories describe different ways that we use and disclose medical information. For each category of uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

- **For Treatment:** We may use medical information about you to provide you with medical treatment or services. We may disclose medical information about you to doctors, nurses, technicians, or other facility personnel who are involved in taking care of you. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietitian if you have diabetes so that we can arrange for appropriate meals. Different departments of the facility also may share medical information about you in order to coordinate the different things you need, such as prescriptions, lab work and x-rays. We also may disclose medical information about you to people outside the facility who maybe involved in your medical care after you leave the facility, such as family members, clergy or others we use to provide services that are part of your care.
- **For Payment:** We may use and disclose medical information about you so that the treatment and services you receive at the facility may be billed and payment may be collected from you.
- **For Health Care Operations:** We may use and disclose medical information about you for health care operations. These uses and disclosures are necessary to run the facility and make sure that all of our residents receive quality care. For example, we may use medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many residents to decide what additional services the facility should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians, and other facility personnel for review and learning purposes. We may also combine the medical information we have with medical information from other facilities to compare how we are doing and see where we can make improvements in the care and services we offer. We may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning who the specific residents are.

- **Room Identification:** Your name and a photo of you may be posted outside your room door for location and identification purposes.
- **Recognition/Memorials:** Your name, photo, military affiliation, veteran organization affiliation, or service dates may be used in newspapers, newsletters, press releases or center displays for recognition purposes. This information may also be provided to military organizations for monuments or memorials.
- **Appointment Reminders:** We may use and disclose medical information to contact you as a reminder that you have an appointment for treatment or medical care at another facility.
- **Treatment Alternatives:** We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives that may be of interest to you.
- **Health-Related Benefits and Services:** We may use and disclose medical information to tell you about health-related benefits or services that may be of interest to you.
- **Facility Directory:** We may include certain limited information about you in the facility directory while you are a resident. This information may include your name, location in the facility, your general condition (e.g., fair, stable, etc.) and your religious affiliation. The directory information, except for your religious affiliation, may also be released to people who ask for you by name. Your religious affiliation may be given to a member of the clergy, such as a priest or rabbi, even if they don't ask for you by name. This is so your family, friends and clergy can visit you in the facility and generally know how you are doing.
- **Individuals Involved in Your Care or Payment for Your Care:** We may release medical information about you to a friend or family member who is involved in your medical care. We may also give information to someone who helps pay for your care. We may also tell your family or friends your condition and that you are in the facility. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.
- **Research:** Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another, for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with patient's need for privacy of their medical information. Before we use or disclose medical information for research, the project will have been approved through this research approval process, but we may, however, disclose medical information about you to people preparing to conduct a research project, for example, to help them look for patients with specific medical

needs, so long as the medical information they review does not leave the facility. We will almost always ask for your specific permission if the researcher will have access to your name, address or other information that reveals who you are, or who will be involved in your care at this facility.

- **As Required By Law:** We will disclose medical information about you when required to do so by federal, state or local law.
- **To Avert a Serious Threat To Health or Safety:** We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person.
