

THE OKLAHOMA DIGITAL ID

The free **Oklahoma Reader** app confirms a customer's photo and age from their Oklahoma Digital ID in seconds, without ever showing their date of birth, address or ID number.

Oklahomans can now carry their state issued ID on their phone. Accepting it is quick, free and requires no new equipment.

Here is everything your staff needs to get started.

HOW TO DOWNLOAD THE APP

- ▶ Search "**Oklahoma Reader**" in the Apple App Store or Google Play.
- ▶ Allow **Camera** and **Bluetooth** permissions. Both are required.
- ▶ Requires iOS 17.6+ or Android 12+. NFC hardware is needed for Tap.
- ▶ No hardware to buy, no registration, no certification.

HOW TO VERIFY A CUSTOMER

- ▶ Pick your reader: **Over 18**, **Over 18 / Under 21** or **Over 21**.
- ▶ Pick **Scan** (QR code) or **Tap** (hold phones together). Apple Wallet IDs require Tap.
- ▶ The customer approves on their own phone with face or fingerprint.
- ▶ Result shows for 15 seconds. **Green** meets the age, **red** does not, **yellow** meets only one criterion. Always match the photo to the person in front of you.

GET ON OUR MAP

- ▶ Email partnerships@service.ok.gov with your business name, address and a contact.
- ▶ We'll add you to the "Accepting Digital IDs" map on our website.

GOOD TO KNOW

- ▶ Works **without internet**. Verification is phone to phone over Bluetooth or NFC.
- ▶ Nothing is stored. Screenshots blocked. Results clear in 15 seconds.
- ▶ You **never** handle the customer's phone.
- ▶ No Digital ID, declined share or failed scan? Ask for the physical card.

QUESTIONS?

Email partnerships@service.ok.gov. The Oklahoma Digital ID is an optional digital credential. Customers should always carry their physical credential.
