FY21 Budget by Program

PREVENTION

Created pandemic protocols to ensure safe services, preventing mass contagions to patients, employees and Oklahomans.

IMPACT

Provided and maintained safe services to patients, visitors, families, employees and our community.

| Agency Accomplishments

Technology
use
Increase

137%

Expanded access to telehealth treatment services across the state, including mobile technology partnerships with law enforcement agencies.

MOBILE CRISIS RESPONSE

Responded to over 8,000 crisis calls through our Youth Mobile Crisis Response program.

IMPACT

79% of youths remained in their current living situation and diverted **90%** from school detention and suspension.

- Improved access to residential treatment levels of care by adding additional beds to increase capacity and eliminate the wait list for these services.
- Developed digital assessment tool reducing paperwork and removing redundancies to efficiently place clients in the most appropriate level of care.

AWARENESS & EDUCATION

Increased accessibility to training by helping employees, first responders and Oklahomans maintain credentials and addressing skill and knowledge needs by leveraging virtual learning opportunities.

IMPACT

Leader in the transition to virtual-led education and training for state employees (EAP), general public and first responders.

- Implemented the Individual Placements and Supports (IPS) model in 29 counties to increase pathways to gainful employment and permanent housing opportunities for more than 35% of the state.
- Clients engaged with IPS are 60% more likely to be competitively employed within 9 months.
- Non-employment outcomes include decreases in hospital admissions, increases in quality of life and symptom management abilities.

35%

Entered third year of the Certified Community Behavioral Health Center (CCBHC) demonstration pilot, adding 981 new jobs to the healthcare workforce sector and have an estimated economic impact of \$34,953,525.41 annually.

CCBHC programs had a 21% reduction in the use of psychiatric inpatient beds, a 14% reduction in Emergency Room visits, and a 69% reduction in the use of crisis stabilization and rehabilitation.

- Build a Top 10 Comprehensive Crisis Response System Statewide

OKLAHOMA's Comprehensive Crisis Response

Comprehensive Crisis Response Overview

ODMHSAS aims to build upon its current crisis system to **enhance the response Oklahomans receive** when experiencing a psychiatric emergency.

1

One Call Away Helpline

First we'll start with **An easy to remember helpline number (988)** to answer all calls of those experiencing a mental health crisis, with the goal to assess and resolve crisis situations at this touchpoint.

2

When Necessary Mobile Crisis Units

When needed, this system will dispatch statewide mobile crisis units to the situation for **further assessment and intervention.**

↓ Reducing the need for law enforcement intervention and costly hospitalizations.

3

Follow Up Appointments

The system will be equipped with the ability to **make appointments at all of Oklahoma's Community Mental Health Centers, Comprehensive Community Addiction Recovery Centers, and Certified Community Behavioral Health Clinics** for next day outpatient services, as well as the ability to follow up with persons after crisis situations to increase engagement with lower levels of care.

4

Getting There Transportation

In addition, this model includes **private sector transportation** for secondary transports greater than 30 miles.

↓ Reducing the need for law enforcement to transport long distances.

+ Will place mental health professionals in law enforcement dispatch in the metro areas.

5

Nearby Care Facilities

Furthermore, the enhanced system proposes adding additional crisis units with urgent care centers across the state - **diverting 90% of those needing inpatient psychiatric hospital care.**

↓ Minimizing law enforcement travel for assessment and treatment.
